(3)

$20,000,000 TWENTY-FIVE YEAR 6½% SINKING FUND DEBENTURES; DUE DECEMBER 1, 1951

Dated December 1, 1926.

Interest Payable June and December 1, at principal office of Dillon, Read & Co., New York, in United States gold coin of the standard of weight and fineness, existing Dec. 1, 1926.

Denomination—Coupon, $1,000; principal may be registered.

Trustees—Central Union Trust Co. of New York, American Trustee. Reichs-Kredit-Gesellschaft, A. G., Berlin, German Trustee.

Registrar—Central Union Trust Co. of New York.

Provisions of Issue—Authorized and issued, $20,000,000.

Purpose of Issue—Proceeds were used to liquidate all current indebtedness except about $1,500,000 due during 1927, to complete construction of the new Rummelsburg plant and for other corporate purposes

Callability—Subject to call at par for the sinking fund only. In addition, the debentures are subject to call as a whole, or in part by lot, on any interest date on 30 days' notice at 102½ and interest on or before Dec. 1, 1931, and thereafter at 100 and interest.

Sinking Fund—Company agrees to provide a sinking fund, payable in equal semi-annual installments of approximately $430,000, the first payment June 1, 1929, sufficient to retire the entire issue by maturity by purchase at not over 100 and interest, or, if debentures are not so obtainable, by call by lot at that price.

Security—Debentures are issued under a Trust Indenture and are the direct obligation of the Company. The City of Berlin, which owns all the properties operated by the Company, has agreed that so long as the Debentures are outstanding it will not mortgage or otherwise encumber any of such properties, except subject to the Company's lease. The indenture further provides that while the debentures are outstanding the Company will not mortgage or pledge any of its assets or revenues as security for any funded debt, but that the Company may pledge quick assets for short term loans in the ordinary course of business and may acquire real estate and mortgage the same for the purpose of erecting employees' houses thereon. The city of Berlin owns all of the Company's capital stock and has entered into an agreement with the Company extending beyond the maturity of the Debentures, empowering the Company to fix rates for the sale of electricity adequate to cover all operating expenses, interest and amortization of loans, depreciation and other proper reserves, and providing that, upon termination thereof, the city shall assume all obligations of the Company, including interest and amortization of loans.

Tax Provisions—Free from any German taxes, past, present or future.

Original Offering—First publicly offering ($20,000,000) in December, 1926, at 98 and interest to yield over 6.65%, by Dillon, Read & Co., Hallgarten & Co., International Acceptance Bank, and Halsey, Stuart & Co., Inc., New York, etc., and Mendelssohn & Co., Amsterdam. A substantial portion of this issue was withdrawn for simultaneous offering in Europe by Mendelssohn & Co., Amsterdam, Nederlandsche Handel Maatschappij, Pierson & Co., R. Mees & Zoonen and others.

Listed—New York and Boston Stock Exchanges.

ROCHESTER GAS AND ELECTRIC CORPORATION

(Controlled by The Mohawk Valley Company)

History—Incorporated June 11, 1904, in N. Y., as Rochester Ry. & Light Co.; name changed as above in 1919. The former company was a consolidation of the Rochester Gas & Electric Co. and the Rochester Light & Power Co. (see 1919 Public Utility Manual, page 748).

This company is the only public utility corporation supplying electricity in the cities of Rochester and Canandaigua, the villages of Victor, East Rochester, Manchester, Shortsville, Pittsford, East Bloomfield, Holcomb, Wolcott and Red Creek, and the surrounding towns. Electricity is supplied throughout this entire region of over 400 square miles, and gas is furnished to the cities of Rochester and Canandaigua and the villages of Fairport, East Rochester, Pittsford and Webster. The company also supplies steam for heating and industrial purposes to many large industries adjacent to its steam power houses. The company supplies the New York State Rys. with electric power for the operation of the entire system in Rochester and adjacent suburban territory, under a long-term contract.

Company also supplies electric current to the Sodus Gas & Electric Co., the Hilton Electric Light, Power & Heat Co., Cooper Electric Corp., and the Mt. Morris Illuminating Co., for distribution in the following territories, viz.: Webster, Ontario, Williamson, Sodus, Sodus Point, Hilton, Mt. Morris, and Geneseo. Population served, about 431,300. Franchises, with minor exceptions, are perpetual.

Company owns about 96% of the water rights in the city limits, and has several hydro-electric stations on the Genesee River, with a total generating capacity of 46,530 k.w., supplemented by steam generating capacity to the extent of 72,095 k.w. and transforming capacity of 207,090 k.w. Miles of overhead lines, 3,959; miles of underground cable, 2,372; miles of electrical subway duct, 1,716; miles of gas mains, 701. No. of street arc lamps, 1,430. No. of street incandescents, 17,710. Gas plants have a total daily capacity of 8,670,000 cu. ft. of coal gas and 12,710,000 cu. ft. of water gas. The Company does no street railway business, having disposed of its street railway holdings in 1912.

Authorized, 825,000 shares Common, of no par value; $4,000,000 7% cumulative Pfd., Series "B," par $100; $2,700,000 6% cumulative Pfd., Series "C," par, $100, and $23,300,000 6% cumulative Pfd., Series "D," par, $100; outstanding, Dec 31, 1927, 756,070 shares Common, $4,000,000 Series "B," Pfd., $2,700,000 Series "C" Pfd., and $16,497,800 Series "D" Pfd. The Mohawk Valley Co. as of Dec. 31 1927, owned all of the outstanding Common shares.

Capital Stock Changes—Stockholders on July 24, 1925, voted to change the authorized capital stock from $18,250,000, consisting of $8,250,000 Common, par $100; $3,000,000 5% cumulative Pfd. and $7,000,000 cumulative Pfd. (issuable in Series with dividends at not exceeding 7%) to $38,250,000, consisting of 825,000 shares Common of no par value, $4,000,000 7% Series "B" Pfd., $2,700,000 6% Series "C" Pfd. and $23,300,000 6% Series "D" Pfd. In April, 1926, $300,000 Series "C" Pfd. was reclassified as Series "D." The old 5% cumulative Pfd. was reclassified as 6% cumulative Series "D" Pfd. The par value of the Common shares was changed from $100 to no par value, 10 shares of no par stock being issued in exchange for each share of $100 par stock and voting rights changed to the basis of one vote for each ten shares.

Subscription Privilege—In Feb., 1927, $4,000,000 Series "D" 6% Pfd. stock was offered to stockholders for subscription at par and accrued dividends. Subscription rights expired March 1, 1927, and stock not subscribed was offered publicly.

Preferred Stock Provisions—All classes of Pfd. stock have equal preference as to assets and dividends and are subject to call at 105 and accrued dividends on 60 days' notice. The Series "B" and Series "C" Pfd. stocks have the same rank and rights, and also voting power with Common, except that Common has one vote for each ten shares, while Pfd. has one vote for each share. The Series "D" 6% Pfd. has no voting power, except after a non-payment of dividends for six months and is non-participating, having no rights of subscription to any class of stock now authorized or to be authorized in the future.

PHILADELPHIA & WESTERN RAILWAY COMPANY

History—Incorporated June 6, 1907, in Pa.; successor to Philadelphia & Western R. R. In 1910 control was acquired by a Syndicate headed by Edward B. Smith & Co., of Philadelphia and New York. Owns entire capital stock of **Philadelphia & Western Home Owners' Association, Main Line Transfer Co.,** and jointly with Lehigh Valley Transit Co., the capital stock of the Norristown Transit Co., which company's $200,000 outstanding First Mortgage 5% bonds, due Feb. 1, 1942, are jointly and severally guaranteed, principal and interest, by these two companies.

It operates, by electric third rail, a high speed double track road between Philadelphia, Norristown and Strafford, on private right of way; and connects with Philadelphia Rapid Transit Company's Elevated-Subway system in the Union Station at 69th and Market Sts., Philadelphia, and with the Pennsylvania R. R. Co.'s Main Line at Strafford. In Aug. 1912, a double track extension from Villa Nova into Norristown, which is entirely on private right of way, was put in operation. In Dec. 1912, a connection was made with the Lehigh Valley Transit Co.'s lines at Norristown via Norristown Transit Co., and a through service established between Allentown and Philadelphia. Track connections for the interchange of carload freight with the Pennsylvania R. R. are maintained at Philadelphia, Strafford, and near Norristown.

Mileage and Equipment, Dec. 31, 1927—Length of road, 17.33 miles; main line first and second track, 33.72 miles; spurs and sidings, 4.47 miles—total track, 38.19 miles. Gauge, standard. Rail, 85 lbs. Motor cars, passenger, 31; express, 2; flat, 4—total, 37. Snowplow, 1. Owns electric sub-stations at Beechwood, Villa Nova and Norristown for the distribution of power.

The operation of the **Maine Line Transfer Company,** operating a bus line through Bryn Mawr, has been discontinued temporarily.

NOTE—The policy of The Mackay Companies is to take only sufficient monies from the Commercial Cable-Postal Telegraph Companies, which added to the income and profits of The Mackay Companies from its other investments, will enable it to pay its dividends and expenses.

History and Properties—A voluntary association organized in State of Massachusetts by an Agreement and Declaration of Trust, executed and carried out on Dec. 19, 1903. Owns the entire $25,000,000 capital stock of the Commercial Cable Co., and the whole or a portion of the capital stocks of a number of telegraph, cable and radio companies in the United States, Canada and Europe, including the land line system known as the Postal Telegraph-Cable Co. The Commercial Cable System spans the Atlantic and Pacific Oceans with a system of 36,209 miles extending westward from Havre, France, and London, England, to Shanghai, China.

The combined Postal-Commercial land and ocean system is the largest in the world, and by connections reaches all parts of the world. On the north it connects with Canadian Pacific Ry. Telegraph System for all points in Canada, and on the south with the extensive system of the All America Cables for Mexico, Central and South America; at the Azores Islands connection is made with the Eastern Telegraph Co. for Southern Europe, Asia and Africa, and with the German and Italian cables; at London with the Great Northern Telegraph Co. for Denmark, Scandinavia, Russia in Europe and Russia in Asia; at the Bonin Islands, with the Japanese Government System of Telegraph; at Shanghai with the Chinese Telegraph Administration. It also connects with the British Pacific Cable for Australia and New Zealand, with the Halifax and Bermudas and direct West India Companies for Bermuda and the West Indies, and with the Newfoundland Government Telegraphs for all of Newfoundland.

The surplus and reserves of the subordinate companies are represented to a substantial degree by investment in Government bonds and other securities of the highest class. In the annual report dated Feb. 15, 1927, it was stated that the consolidated current assets of The Mackay Companies, the greater portion of which are represented by readily marketable securities and cash, aggregate $24,000,000, while the current liabilities aggregate $2,500,000.

Commercial Cable Co.—Inc. Dec. 12, 1883, in N. Y. Has seven submarine cables running from Europe to America; cables from Ireland to England and France, and cables along the North American coast, besides a cable from New York to Cuba and a cable from Miami, Fla., to Cuba, operated by the Commercial Cable Co. of Cuba (incorp. Dec., 1906), stock of which is also owned by The Mackay Companies. Also operates under lease, lines in Great Britain and a subterranean line from Paris to Havre, France, as well as lines from London to Antwerp and Rotterdam. A submarine cable from San Francisco to Manila, connecting Honolulu, Midway and Guam, is operated by the Commercial Pacific Cable Co. Cables from Guam to the Bonin Islands, near Yokohama, and from Manila to Shanghai, are also operated.

Postal Telegraph-Cable Co.— This company operates a telegraph system throughout the United States and in addition is now operating 40,000 miles of long distance telephone wires in various States in the Union, and the financial results are very satisfactory. It is a by-product, being transmitted over wires which are used at the same time for telegraph purposes. The long distance telephone service of the Postal Telegraph-Cable Company now reach 170 cities and towns.

Fusion With International Telephone & Telegraph Corp.—Announcement was made March 22, 1928 that the Directors of International Telephone & Telegraph Corp. had approved the plan for fusion of control with The Mackay companies. At that date trustees of the latter had already approved the plan. The plan contemplates the formation of a commercial postal company under the chairmanship of Clarence H. Mackay which will acquire the outstanding shares of the Mackay Companies. Holders of stocks of Company and of bonds of the Commercial Cable Co. were asked to deposit their holdings with J. P. Morgan & Co., New York, Depositary.

Mackay Radio & Telegraph System—The Mackay System has lately embraced radio. This is fully explained in the annual report dated Feb. 15, 1928, excerpts from which are quoted below.

Excerpts from 1927 Annual Report—During the past year, the Companies has added to its operating group by acquiring the radio telegraph system of the Federal Telegraph Company, including the latter's point-to-point system and its ship-to-shore service between its Pacific Coast stations and ships in the Pacific Ocean. The Federal Telegraph Company has further contracted to manufacture for the Mackay System, radio apparatus, including such apparatus as is covered by its patents, some of which are underlying in the radio art. The Mackay System will also utilize in its radio expansion a Research and Experimental Department employing a high grade personnel from which the development of patentable improvements in radio invention may be expected. This Research Department is, and for some time past has been, engaged in experiments in the field of television, facsimile and photo-electric telegraphy and telephony, and the Mackay System is equipped at the present time to exploit to the fullest extent any worthwhile invention in these fields.

In taking up radio, the Trustees have no idea that it in any way is a menace to the future of the cable or wire systems, but, as stated in previous annual reports, radio can be made a most valuable supplement to a wire system, and such a plan has been in the minds of the Trustees for several years past. "Beam" or short wave radio stations can be constructed at comparatively low cost, but they do not give continuous service because the signals are subject to "fading." Hence, a radio company relying on short wave only, cannot furnish efficient competition with a cable company. The radio company must also employ the expensive long wave equipment to guarantee continuous service. A cable company, however, because of the reliability of the cable service, may very advantageously make use of the short wave as a supplement to the cable. The cables may be used to carry the regular urgent and ordinary services, while the low cost short wave radio carries such parts of the cheaper services as it is capable of. This co-ordination of the cables and short wave radio furnishes a service which not all-operated radio can match either from the standpoint of profit or efficiency.

With this co-ordination in view, the Mackay Companies, after investigation and negotiation beginning over a year ago, has embraced radio by the acquirement of an actually operating radio system which has been manufacturing radio apparatus and conducting radio operations for many years and has attracted to itself a very considerable amount of the total business transacted between the points which it serves. Furthermore, from its three modern, long-range transmitting stations at San Francisco, Los Angeles and Portland, it has handled for some time past a substantial proportion of the ship-to-shore and shore-to-ship business on the Pacific Coast. A highly-trained and efficient operating staff was brought into the Mackay organization when the above-mentioned radio system was taken over.

The Federal Company is foremost in the development of the long wave arc system of radio transmission, through its ownership of numerous improvement patents which are now in force, the original Poulsen patents having expired.

With respect to the short wave transmission, by reason of its rights in the De Forest patents, which are based upon inventions made by Dr. Lee De Forest at a time when he was in the employ of that Company as Research Engineer, it is in a position to supply the Mackay System with short wave tube transmission equipment based on the De Forest oscillating audion patent, as well as other necessary radio equipment for the establishment of short wave communication.

The rights of the Federal Telegraph Company in the De Forest patents have recently been put beyond question by the granting of an unrestricted license from the American Telephone & Telegraph Co. and assented to by the Westinghouse and General Electric Companies and the Radio Corporation of America. The rights thus secured are not restricted to any particular field, and your Companies will, therefore, enjoy wider scope for development under these patents than that possessed by any of your competitors. These De Forest patents, which have been held valid by the Court of Appeals for the District of Columbia and by the Federal District Court for the Eastern District of Pennsylvania, were again held valid by the Federal Court of Appeals for the 3rd Circuit in November last.

The value of the rights under these patents have been further increased by the fact that the Langmuir patent owned by competitors, generally referred to as the "high vacuum patent" and pertaining to construction of highly efficient thermionic tubes for use in connection with the circuits disclosed in these De Forest patents, were held invalid on Jan. 3, 1928, by Judge Morris of the Federal District Court of Delaware.

Now, with a working nucleus for operations and assurance of all necessary equipment, the Trustees purpose to begin expansion at once. Equipment of the latest type, including directive short wave transmission and reception apparatus, utilizing machine telegraphy and high-powered water-cooled tubes of greatly improved design over anything heretofore used, is now being manufactured for the installation of a chain of stations across the Pacific Ocean.

Control of the well known high power trans-oceanic radio station at Sayville, L. I. has just been acquired through the purchase of the entire capital stock of the Commercial Wireless, Inc., which holds a lease from the United States Navy Department on this property. It is the intention, as soon as the necessary arrangements can be made, to re-equip and modernize this station, and put it into immediate use for Atlantic ship-to-shore service.

The landline and cable companies during the past year have more than maintained their competitive positions, the combined gross receipts from these operations showing an increase. In the case of the cable company, however, each year finds it handling a substantially increasing volume of traffic, but without a commensurate return in net earnings, due to the rapidly increasing use by the public of deferred classes of service, the rates for which are unremunerative and below what is a fair charge for the service performed. Every possible improvement is being installed to increase the capacity of the cables so as to reduce the cost of handling these cheaper services.

Owing to the removal of the Postal Telegraph Company's Main Operating Office in New York from 253 Broadway to the Commercial Cable Building at 20 Broad Street, in the heart of the financial district, it became necessary to transfer the cable company's operating department from the third to the ninth floor of the building. The work was completed last summer. Opportunity was taken to regroup the circuits and introduce various improved methods for fast handling of a large volume of traffic, and the new arrangement has exceed expectations. The close proximity of the cable circuits to the main operating department of the landlines has greatly facilitated the exchange of cable business.

Regenerative relays have now been installed at all the cable repeater stations, with marked advantage in the improvement of signals and with further advantages in the flexibility of circuits which permits the effective linking up of sections in ways that were not formerly possible. The operation at repeater points is entirely automatic, and the working is direct between terminals. That is to say, New York is now in direct communication, on several circuits each, with London, Liverpool and Paris, while these European cities can be but into direct communication with any cities in America where the traffic load makes it economically desirable to do so. Further developments and extensions of "through" working are in contemplation.

The installation of superimposed, or "phantom" circuits on the Weston-Waterville cables, and the Newfoundland-Canso cables, has provided alternative-routes which can be used as links in the through working circuits during times of interruption of one or other of the physical cables between the same points, or as supplemental circuits under normal conditions, which is an important change.

The new joint operating building at Horta, Fayal, Azores Islands, has now been completed after much delay caused by the disastrous earthquake of August, 1926, and during the closing weeks of the year the Commercial Cable Company moved into its own portion of the new building. The most up-to-date apparatus and arrangements have been adopted, and it is confidently anticipated that the working in the new station will be of the most efficient kind.

With the approval of the Belgian Government, the Company has opened two offices in Belgium, one at Brussels and the other at Antwerp, where it will deal directly with the public and operate wires to London, where they will be in direct connection with the cable company's Atlantic cable system.

During the year there has been continued expansion by the landline company of the use of printer apparatus to replace the Morse operation. A large number of trunk line circuits have been equipped with what are known technically as "drop channel" sets, an improvement perfected by the engineers. By means of this arrangement it has been possible to provide many additional direct circuits for use between intermediate trunk line points and terminal offices without stringing additional wire, thus increasing the flexibility of handlng traffic and expediting its movement. Improvements which substantially reduce the maintenance cost of trunk line printers and improve and stabilize their preformance, have also been made by the engineers during the year and applied to all printer trunk line circuits. Many additional printers have been placed in branch offices to replace Morse circuits, thereby expediting the service and reducing the cost of operation. Tape printers for use in main and branch offices and for use at customers' offices where a large volume of business originates have been perfected and are now being generally applied.

Under the direction of the company's engineers, new thermionic tubes, which infringe no patents, have been devised. These tubes (which are now available for use in the various services) are equal in efficiency to any heretofore produced for use in telephony, cable, landline telegraphy and radio reception.

FUNDED DEBT

The Mackay Companies has no funded debt, but there is outstanding an issue of $20,000,000 First Mortgage bonds on the property of the Commercial Cable Co., fully described below.

$20,000,000 COMMERCIAL CABLE CO. FIRST MORTGAGE GOLD 4s; DUE JANUARY 1, 2397

Dated January 13, 1897.

Interest Payable J, A, J & O 1, on coupon bonds at office of Farmers' Loan & Trust Co., New York, and on registered bonds at Company's office, New York.

Denominations—Coupon bonds are $1,000, and may be exchanged for registered issues; registered bonds are in denominations of $100, $500 and $1,000, $5,000 and $10,000. The bonds are exchangeable into Sterling Debenture stock (transferable only at the office of the Co. in London, Eng.) at the rate of £206 for each $1,000 bond, but Debenture stock cannot be converted into bonds. Over half the bonds have been so exchanged.

Trustee—Farmers' Loan & Trust Co., New York.

Security—Secured by a first mortgage on all the property of company, on a substantial portion of the

property of the Postal Telegraph System throughout the United States, and by pledge of the entire stocks (with the exception of a few shares of one small company) of all the corporations constituting such system. These have no funded debt and their properties are not subject to any mortgage liens other than that of the First Mortgage of The Commercial Cable Co. None of the stocks pledged under the mortgage may be voted in favor of any mortgage or other lien ranking prior to or equally with the lien thereof.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

EASTERN MASSACHUSETTS STREET RAILWAY COMPANY

History—Incorporated Jan. 15, 1919, in Massachusetts, pursuant to the terms of a special Act of the Legislature (Chapter 188, Special Acts of 1918), to acquire substantially all the assets of the Bay State Street Ry. Co. (see 1918 Public Utility Manual, or apply to our Information Department), the property of which company was bid in at judicial sale on April 21, 1919, for $3,600,000 by Arthur I. Glidden, in behalf of Lee, Higginson & Co., Boston, the Reorganization Managers, subject to the taking over of various obligations including those of the Bay State Street Ry. receivership and mortgages of the Boston & Northern Street Ry. and the Old Colony Street Ry. The sale was confirmed on April 26, 1919, by Federal Judge James M. Morton, Jr., in the U. S. District Court at Boston, Mass.

The Special Act pledges the credit of the State of Massachusetts for the payment of principal of not exceeding $4,000,000 of the Serial Bonds dated Jan. 1, 1919, of which $2,500,000 were specifically required to be sold under the terms of the Act so as to produce $2,500,000 cash, of which $2,000,000 must be used for future additions and improvements and $500,000 set aside as a reserve fund. Under the Special Act, $1,000,000 cash additional must be realized from sale of other securities of the new company and applied to the rehabilitation of the properties or other corporate purposes, making a total of $3,500,000 new cash to be obtained as a prerequisite to the acquisition of the property by the New Company under the Act.

The Special Act, among other things, further provides:

(1) That the new Company shall be managed for ten years by five Trustees to be appointed by the Governor of Massachusetts. The Governor has appointed as such trustees for the second five years: Geo. P. Bullard, Chairman, Arthur G. Wadleigh, Fred J. Crowley, Earl P. Charlton and George M. Bryne. The Trustees assumed control of the properties on June 1, 1919.

(2) That the Trustees shall have absolute power to fix rates and fares (free from the jurisdiction of the Public Service Commission or any other authority), so as to produce income sufficient to pay all costs of operation (including taxes, maintenance and depreciation) and a return on the investment sufficient to cover all interest requirements, the stated dividends on the Preferred stocks and 6% per annum on the Common stock of the new Company.

The limitation on the total of this amount appears in Section 4 of the Act, as follows: "The entire capitalization of the new company shall not represent a capital bearing an annual interest and dividend charge (common dividends being computed at the rate of 6% per annum) which will exceed 6% upon the sum of $40,282,340, plus such sums as may determined by the Public Service Commission to have been additions or improvements of the property of the company since the date as of which such computation was made."

Under date of Dec. 31, 1919, the Public Service Commission determined that such value of the property was $41,401,825.72.

Bill Extending Public Control Voted—The Massachusetts Legislative Committee on Street Railways, by a vote of 7 to 6, voted on March 28, 1928 to report bill extending public control of this Company for five years. Bill also provides for board of three public trustees instead of five as at present. The Massachusetts House on April 3, 1928, by a vote of 113 to 82, voted to pass to engrossment the bill.

Mileage and Equipment—Miles of track (owned and operated), about 656 miles. Gauge, 4 ft. 8½ in. Cars: Motor, 798; service, 43; electric plows, 71; snow sweepers, 39. The Company has purchased 325 one-man cars and about 434 old cars have been adapted to one-man operation. 50 double truck light weight cars are being equipped with air cushioned genuine leather seats and battleship linoleum floor covering and 50 additional cars so equipped have been purchased for delivery in 1927, all for operation on interurban lines. In 1926, 96% of all mileage was by one-man cars. Since the trustees assumed control of the property about 180 miles of non-paying lines have been discontinued. Freight business was discontinued in June, 1920.

The Eastern Massachusetts Street Ry. Co. assumed the leases of the Boston & Chelsea R. R., Boston & Revere Electric St. Ry., East Middlesex St. Ry. and the Winnisimmet R. R. The Reorganization Managers did not assume the lease of the Newport & Fall River St. Ry. (including the properties of the Newport Illuminating Co.), made to Old Colony St. Ry. Co., under date of July 1, 1901. Receiver Donham, of the former Bay State Street Ry. Co., on March 1, 1918, turned over the property of the Nashua Street Ry. to its stockholders, thereby annulling the 99-year lease which then had 82 years to run.

Operates in the following cities and towns in Massachusetts: Abington, Andover, Arlington, Avon, Beverly, Billerica, Boston, Braintree, Bridgewater, Brockton, Burlington, Chelmsford, Chelsea, Danvers, Dedham, Dighton, Dracut, East Bridgewater, Easton, Everett, Fall River, Georgetown, Groveland, Hamilton, Haverhill, Hingham, Holbrook, Lawrence, Lowell, Lynn, Malden, Marblehead, Medford, Melrose, Methuen, Middleton, Milton, Newburyport, North Andover, North Reading, Norwood, Peabody, Quincy, Randolph, Raynham, Reading, Rehobeth, Revere, Rockland, Salem, Saugus, Seekonk, Somerset, Stoneham, Stoughton, Swampscott, Swansea, Taunton, Tewksbury, Tyngsboro, Wakefield, Walpole, Wenham, West Bridgewater, West Newbury, Westwood, Weymouth, Whitman, Wilmington, Winchester and Woburn. Total population served over 1,250,000.

On April 29, 1903, the Boston Elevated Ry. Co. leased for 99 years all the tracks of the former Old Colony St. Ry., located in the city of Boston, in all 25.87 miles of main track. Rental, under the lease, is payment of taxes and 4% on the cost of all additions and betterments, together with 6⅛% of the replacement value of the leased property as of Feb. 16, 1903.

Interest Deferred—The coupons due March 15 and Sept. 15, 1920, and March 15, 1921, on the $972,000

Refunding Mortgage 6s, Series "C," and April 1 and Oct. 1, 1920, and April 1, 1921 on the $806,000 Refunding Mortgage 6s, Series "D," as well as those due July 1, 1920 and Jan. 1, 1921, on the Refunding Mortgage Series "A" 4½% and "B" 5% bonds of 1919 were not paid when due. The failure to pay the interest on these bonds, which fell due prior to June 30, 1921, does not amount to a legal default. Subsequent to June 30, 1921, interest on the foregoing issues has been paid regularly when due.

READJUSTMENT PLAN

Under date of Nov. 3, 1921, the Public Trustees presented a plan which they had formulated, by which it was hoped that the defects in the original organization might be corrected. The plan as presented to the security holders on Nov. 3, 1921, was declared effective as of Jan 4, 1922, except that it was slightly modified by making the Adjustment stock non-cumulative until Feb. 1, 1924, and it was found unnecessary to ask the Common stockholders to provide any Common stock. All of the Sinking Fund, First Pfd., Preferred "B" and Adjustment Stocks and $5,785,582.39 of the Common stock were issued in payment for the property, and $2,302,431.59 of the Common stock was issued for cash at par, the proceeds of the sale being for the purpose of establishing the Rehabilitation Fund of $1,000,000 as provided in the Special Act of 1918, and to provide $1,302,431.59 for further improvements of property and other corporate purposes.

CAPITAL STOCK

Originally issued: $3,182,800 6% cumulative Sinking Fund stock, $978,800 6% cumulative First Pfd., $2,997,800 6% cumulative Pfd. "B" stock, $8,711,200 5% cumulative Adjustment stock and $6,785,600 Common stock—total $22,656,200. Issued at Dec. 31, 1927, $24,200 Sinking Fund stock, $4,134,900 First Pfd., $2,997,800 Pfd. "B," $8,711,200 Adjustment stock and $8,488,014 Common—total, $24,356,114. Par value of all issues, $100.

All but $24,200 par of Sinking Fund stock originally issued has been exchanged for First Preferred in accordance with the Readjustment Plan of 1922.

Sinking Fund Stock Provisions—Entitled to cumulative dividends at the rate of 6% per year, and no more, ranking equally and pro rata with First Pfd. shares, with respect to such dividends which are payable before any cash dividends are paid on Preferred "B" or Adjustment shares. These shares are issued in twenty-one series which are to be redeemed by a sinking fund to which the Company shall make payments before paying or declaring any dividends or making any purchase of any Preferred "B," Adjustment or Common shares. In case of liquidation or dissolution, Sinking Fund and First Pfd. shares rank equally, and shall be paid in full at $100 per share and accrued dividends before any payment is made upon other shares. Under a Readjustment Plan dated Nov. 3, 1921, as amended under date of Jan. 4, 1922, provision was made for the exchange of these shares into First Pfd. shares.

First Preferred Stock Provisions—Entitled to cumulative dividends at the rate of 6% per year, and no more, ranking equally and pro rata with Sinking Fund shares with respect to such dividends. In case of liquidation or dissolution they rank equally with Sinking Fund shares and must be paid in full at $100 per share and accrued dividends before any payment is made upon any other shares.

Preferred "B" Stock Provisions—Entitled to cumulative dividends at the rate of 6% per year, and no more, payable in cash or Common stock, provided however, that the rate of dividends on Preferred "B" shares which in any year are paid in Common stock instead of cash (1) shall not exceed the rate of dividends on the Adjustment shares which in such year are paid in Common stock, unless all the dividends on the Adjustment shares, in such year, if any, are paid in Common stock; (2) shall be less by at least 2% than the rate of the dividends on the Common shares which in such year are paid in Common stock unless all the dividends on the Common shares in such year, if any, are paid in Common stock. In liquidation or dissolution Preferred "B" shares shall be paid in full at $100 per share and accrued dividends before any payment is made upon Adjustment or Common shares.

Adjustment Stock Provisions—Entitled Adjustment shares are entitled, subject to prior payment of all dividends upon First Pfd., Sinking Fund and Preferred "B" shares and to making all prior Sinking Fund payments in respect to Sinking Fund shares, to preferential dividends at the rate of 5% per year, and no more. Such dividends may be paid in cash or Common stock, provided, however, that the rate of the dividends on the Adjustment shares which in any year are paid in Common stock instead of cash shall be less by at least 2% than the rate of the dividends on Common shares which in such year are paid in Common stock unless all dividends on the Common shares in such year, if any, are paid in Common stock. In case of liquidation or dissolution the Adjustment shares shall be paid in full at $100 per share and accrued dividends, before any payment is made upon the Common shares.

In case of liquidation or dissolution the remaining proceeds of liquidation after payment in full of Sinking Fund, First Pfd., Preferred "B" and Adjustment shares, and accumulated dividends thereon, shall be distributed among the holders of Common shares alone.

Transfer Agents—First Pfd. and Common: Old Colony Trust Co., Boston. Pfd. "B" stock: Boston Safe Deposit & Trust Co., Boston. Adjustment stock: National Shawmut Bank, Boston.

Registrars—First Pfd., Pfd. "B" and Common: First National Bank, Boston. Adjustment stock: American Trust Co., Boston.

Annual Meeting—First Monday in March.

Dividends—In 1922 accumulated dividends on Pfd. "A" and Sinking Fund stocks were liquidated to Feb. 1, 1922, under the Readjustment Plan. In addition, dividends were declared during 1922 by the payment of 3% on the First Pfd. and Sinking Fund stocks on Aug. 1, and by the appropriation of surplus accumulated to Dec. 31, 1922, to pay 3% on these stocks on Feb. 1, 1923; Aug 1, 1923 to Feb. 15, 1928, 6% per annum on both classes; payments Feb. and Aug. 15.

On Pfd. "B" stock, dividends accumulated to Feb. 1, 1922 were waived; on Feb. 1, 1923, 6% was paid from surplus accumulated to Dec. 31, 1922; Aug. 1, 1923 to Feb. 1, 1928, 6% per annum; payments Feb. and Aug. 1.

On Adjustment stock, initial dividend of 2½% was paid May 15, 1923; Dec. 15, 1923, 2½%; May 15, 1924, 5/6ths of 1%, covering period from Feb. 1, to April 1, 1924; Oct. 1, 1924 to Apr. 2, 1928, incl., 5% per annum, payments, April and Oct. 1.

In July, 1923, L. Sherman Adams, a stockholder, brought a bill in equity in the Supreme Judicial Court of Suffolk County seeking to compel the Public Trustees to pay dividends claimed to have accrued on the Common and Adjustment shares of the company to Feb. 1, 1923. In July, 1924, he filed a supplemental bill seeking also to compel payment of dividends on the Common shares claimed to have accrued between the filing of the original bill and Feb. 1, 1924. The

Public Trustees filed answers setting forth in substance that such dividends had not been earned and therefore were not declared.

The case was referred by a justice of the Supreme Court to Frederic H. Chase, of Boston as Master, "to hear the evidence and to find the facts and report the same to the court," and this order was subsequently exended to cover the supplemental bill.

Hearings were held before the Master beginning Sept. 29, 1924, and concluding on June 2, 1925. The Master therefore considered all the evidence, and in Nov., 1925, presented to counsel, in accordance with practice, a draft report, which was not a public document and was not filed in Court. The Master held numerous hearings before counsel on the draft report in which he made some modifications at the request of one party or the other. On Jan. 29, 1926, the Master filed his formal report in the Supreme Court of Massachusetts. Both parties filed various objections to the Master's report and thereafter Judge Crosby of the Supreme Court made an order that the case was "reserved upon the pleadings, the Master's report and the exceptions of the parties thereto for the consideration and determination of the full Court." The case was argued March 18, 1926 and the opinion of the full bench of the Supreme Court was rendered Oct. 2, 1926. In their opinion the Supreme Court overruled the exceptions of the plaintiff and sustained thirteen out of fourteen exceptions of the defendants and ordered a final decree to be entered dismissing the plaintiff's bill with costs.

NOTE—In respect to any of Refunding Mortgage bonds (described in Nos. 11 to 15, inclusive), any instalment of interest payable prior to June 30, 1921, could be extended at the option of the company if there was no available income for the payment thereof. The interest so extended, plus 20% of its amount, was payable 60 days after the close of the first period ending June 30 or Dec. 31, in which available income should have accrued for the payment thereof, but in no event later than Dec. 31, 1925. In the meantime the total sum so payable was to bear interest payable semi-annually at the rate of 6% per annum. Both the said total sum and the said interest thereon was payable upon presentation of the coupon for the instalment of interest extended as aforesaid. In case any instalment of interest was so extended the coupon therefor could be deposited with the trustee under the Refunding Mortgage, which issued its receipt in negotiable form therefor, and was to receive any sums from time to time payable on account of the Refunding Mortgage Extended Interest represented by the coupon so deposited, and was to pay such sums over to the holder of such receipt. The Refunding Mortgage Extended Interest and the interest thereon were to continue to be secured by the Refunding mortgage. The Company was unable to pay interest that matured upon its Refunding Mortgage bonds, Series "A," "B," "C" and "D" during the year 1920, and the Public Trustees were obliged to defer payment thereof in accordance with the provisions of the plan of reorganization. This deferred interest amounted to $976,590 of which $967,215 has been liquidated to Dec. 31, 1927, leaving a balance unliquidated of $9,375 now payable at face value, plus interest and penalty as stated above. Under the readjustment plan of Nov. 3, 1921, these extended coupons of Refunding Mortgage bonds, Series "A," "B," "C," and "D" were cancelled and penalty waived in exchange for $732,500 (75%) in 1-7 year 6% Serial bonds with State guarantee payable Feb., 1923-1929, inclusive.

The source of water supply is the Shenango River. The distribution system includes over 48 miles of mains.

CAPITAL STOCK

Outstanding, 10,000 shares Common of no par value, and $350,000 7% cumulative Pfd., par, $100. The entire Common stock, except directors' qualifying shares, is owned by Consumers Water Co.

Dividends—Payments on Pfd. regularly made. On Common: $6 per share in 1926; $4 per share in 1927.

FUNDED DEBT

$1,000,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A"; DUE OCTOBER 1, 1956

Dated October 1, 1926.

Interest Payable April and October 1, at Union Safe Deposit & Trust Co., Portland, Me., or Agency in New York or Boston.

Denominations—Coupon, $500 and $1,000 (interchangeable denominations); principal may be registered.

Trustee—Union Safe Deposit & Trust Co., Portland, Me.

Provisions of Issue—Issued, $1,000,000 Series "A" 5s. Mortgage provides for issuance of bonds in series, bearing the same or different rates of interest, and such other features and provisions as may be determined by directors subject to provisions of the Mortgage. Additional bonds may be issued under the Mortgage for (a) not exceeding 75% of cost or fair value, whichever is lower, of permanent improvements, additions or extensions to property of Company or any new or additional property as defined in Mortgage; (b) cash deposited with Trustee under provisions of the Mortgage; (c) the paying, redeeming or refunding of indebtedness secured by prior liens on property as defined in Mortgage; and (d) the paying, redeeming or refunding of bonds of another series. No additional bonds may, however, be issued except for purposes expressed in (c) and (d) above, unless net earnings of Company, for twelve consecutive calendar months within fifteen calendar months immediately preceding the month in which application is made for authentication of bonds, shall have been at least one and three-quarter times annual interest charges upon (a) all bonds outstanding under the Mortgage, (b) those to be issued and (c) all indebtedness secured by prior liens, if any, on property, except such part thereof as will be paid or retired from proceeds or through issue under the Mortgage of the additional bonds applied for. In the calculation of such net earnings at least 4½% of gross revenues must be charged to operating expenses for repairs and current maintenance.

Purpose of Issue—Proceeds from sale of these bonds were used for the purchase of properties and for other corporate purposes.

Callability—Subject to call as a whole or in part, on 30 days' notice to Oct. 1, 1936 at 105 and interest; thereafter to Oct. 1, 1946 at 102½ and interest, and thereafter at par and interest.

Improvement and Maintenance Fund—Company covenants to expend or reserve in each calendar year after 1926 for improvements, maintenance and depreciation an amount not less than 9% of annual gross operating earnings of Company derived from mortgaged property. This reserve may be expended by Company under the limitations of the Mortgage for renewals or sinking funds. It may be expended for cost of improvements to properties of Company against which no First Mortgage bonds may be issued.

Security—Secured by a first mortgage on all physical property now owned or hereafter acquired.

Tax Provisions—Company pays Normal Federal Income tax up to 2%; free from personal property tax of State of Pennsylvania not exceeding four mills. Connecticut, Kansas and California taxes not to exceed four mills, Maryland four and one-half mills.

Michigan five mills exemption tax, Kentucky five mills tax, Virginia five and one-half mills tax and Massachusetts income tax not to exceed 6%, refundable.

Legal Opinion—Seibert & Riggs, New York (for the bankers), and Ballard, Spahr, Andrews & Madeira, Philadelphia (for the Company).

Original Offering—First publicly offered ($1,000,000) in October, 1926, at 93 and interest, to yield over 5.45%, by W. C. Langley & Co., New York, and H. M. Payson & Co., Portland, Me.

History and Property—Incorporated June 10, 1907, in Mo.; consolidation of the Pittsburg Ry. & Light Co. and the Joplin & Pittsburg St. Ry. Co. Early in 1910 absorbed the Pittsburg & Kansas City Ry. Owns and operates an electric railway, 96.5 miles in length, with a total trackage of over 100 miles (including sidings and yard tracks), embracing the local street lines in Joplin, Mo., and Pittsburg, Kan., and interurban lines connecting the two cities (about 27 miles apart), also Pittsburg with Mulberry, Girard, Cherokee, Mineral, Weir City, Scammon and Columbus, all except in the cities and towns upon private right of way. Gauge, standard. Rail 50 to 70 lb. T. Motor cars, passenger, 35, express, 8, freight, 60. Car barns, 3. The company has 6 sub-stations, transforming current purchased under long term contract from the Spring River Power Co., (controlled by Empire District Electric Co.,) and Kansas Gas & Electric Co.

Receivership—On Feb. 29, 1924, the Company went into receivership. K. D. Klemm was appointed Receiver by the United States District Court of Western Missouri. On Sept. 16, 1924, under foreclosure proceedings instituted by the trustees of the First Mortgage, M. H. MacLean was appointed receiver, succeeding K. D. Klemm.

Bondholders' Protective Committee—In view of the non-payment of March 1, 1924, interest on company's First Mortgage 5s and the fact that bondholders have the right to enforce their security unless payment is made within sixty days, a Bondholders Protective Committee has been formed consisting of Chester Corey, John W. Esmond, B. C. Lingle, John R. Macomber and William H. Wildes. Deposits of bonds may be made at the Harris Trust & Savings Bank, Chicago, through E. H. Rollins & Sons, New York or Boston, and Harris, Forbes & Co., New York or Boston.

Foreclosure Sale.—The Committee named above purchased the property at foreclosure sale April 17, 1925 for upset price of $350,000. Sale has not yet been confirmed by the Court.

SALT LAKE & UTAH RAILROAD

History and Property—Incorporated Oct. 5, 1912, in Maine. Road was formally opened, Salt Lake City to Provo, Aug. 1, 1914, although trains were placed in operation July 24, 1914. Extension Provo to Springville, about 6 miles was completed and train operation begun in the fall of 1915. Extension Springville to Spanish Fork, about 5 miles completed and train operation begun Jan. 1, 1916. Extension Spanish Fork to Payson, about 8 miles, completed and train operation begun May 20, 1916. Branch from Granger to

Magna, about 9 miles, completed and train operation started Oct. 10, 1917.

The company operates a total trackage of 94.40 miles. 76.10 miles of road are operated including .96 mile operated under lease from Salt Lake Terminal Co. in Salt Lake City, Utah. The remainder, or 75.14 miles of road, owned by the company, extends from Salt Lake City to Payson, Utah, 65.99 miles and Granger, Utah to Magna, Utah, 9.15 miles. Current for propulsion is purchased from the Utah Power & Light Co. and is supplied through four substations which aggregate 2,500 k. w. The shops are at Payson, Utah, and are provided with modern machinery and tools, with individual electric or pneumatic motors.

The rolling equipment consists of the following: All steel equipment: 13 motor passenger cars, 4 passenger trailers, 2 motor express and baggage cars, 1 trailer express and baggage car, 6 electric locomotives, 70 general service gondola freight cars, 14 hopper cars; other equipment: 10 steel underframe box cars, 2 cabooses, 1 line car, 1 reel car, 10 Rodger ballast cars, 5 flat and 23 box cars—total 162 units.

Franchises extend to 1960 in Utah County and in Provo; to 1962 in Salt Lake City and County; to 2010 in Lehi City, American Fork and Pleasant Grove, and to 2012 in Springville, Spanish Fork and Payson; remainder on private right of way.

Owns 50% of the $200,000 outstanding stock (authorized, $1,000,000) of the Salt Lake Terminal Co., the other 50% being owned by the Bamberger Electric R. R. Co. The Terminal Company is operated by these two companies under a fifty-year lease running to Dec., 1963.

Receivership—The Company was placed in receivership on July 24, 1925, Henry I. Moore, of Salt Lake City, and D. P. Abercrombie, Jr., of Boston, being appointed receivers.

Protective Committee—The following committee was organized under a Deposit Agreement, dated June 1, 1927, to protect the interests of holders of Company's First Mortgage 6% Gold bonds, dated April 1, 1914; Five-Year 7% Convertible Gold notes, dated October 1, 1923, and other notes secured by pledge of the First Mortgage bonds, and to attempt to formulate a plan for the reorganization of the Company: Geo. W. Treat, Chrm.; Alexander Berger, F. A. Fisher, J. W. Harding, Herbert K. Hallett, J. W. Hyer and C. H. Sturtevant, with The Atlantic National Bank of Boston as Depositary (Continental National Bank & Trust Co., Chicago, and The International Trust Co. of Denver, Agents for Depositary); Henry R. Guild, Sec., 1 Federal St., Boston, and Herrick, Smith, Donald & Farley, Boston, Counsel.

History—Incorporated in Oct. 1919, in Delaware, and as of Nov. 30, 1919, purchased all the assets of the Marconi Wireless Telegraph Co. of America, including all its stations and patents, excepting certain claims against the U. S. Government and certain private corporations and firms arising from the unlicensed use of the apparatus covered by the patents of the Marconi company. In 1912, the Marconi Wireless Telegraph Co. of America acquired the assets and patents of the United Wireless Telegraph Co. from the parent company, Marconi's Wireless Telegraph Co., Ltd., also the patents of Sir Oliver Lodge.

An agreement was entered into by Marconi's Wireless Telegraph Co., Ltd., with General Electric Company and Radio Corp. of America, by which Marconi's Wireless Telegraph Co., Ltd., secured the sole rights for the whole of the British Empire and a license for other parts of the world other than the United States of America, of all the radio patents and inventions of the General Electric Company and the Radio Corporation of America past, present and future, until 1945, which embraces the Alexanderson High Frequency Alternator. The General Electric Company acquired the shares of Marconi Wireless Telegraph Co. of America formerly owned by Marconi's Wireless Telegraph Co., Ltd., of Great Britain.

The Radio Corporation entered into agreements with the General Electric Company and Westinghouse Electric & Manufacturing Co. concerning present and future patent rights, the manufacture of patented apparatus and devices by the General Electric Co. and the Westinghouse Co. for the Radio Corporation and the exclusive right to the Radio Corporation to sell patented radio apparatus and devices of these two companies.

An arrangement was entered into with the American Telephone & Telegraph Co. by which the Radio Corp. of America acquired the use, in its field of radio telegraphy of recent inventions of great importance.

Company operates in connection with Marconi's Wireless Telegraph Co., Ltd.; The Marconi International Marine Communication Co., Ltd., of London, Eng.; Societe Anonyme Internationale de Telegraphie sans Fil, Brussels, Belgium; Compagnie Generale de Telegraphie sans Fil, Radio France of Paris, France

Societe Italo Radio, of Rome, Italy, and the Gesellschaft fur Drahtlose Telegraphie, m.b.H., of Berlin, Germany, the governments of Sweden, Norway, Holland, Poland, Belgium, Turkey, Venezuela and Japan, and consortium stations near Buenos Aires, Argentine, and Rio de Janeiro, Brazil, in which the Radio Corporation of America owns an interest with English, French and German radio interests.

The Corporation has now in operation direct international radio communication circuits as follows:

Country	Service Opened	Country	Service Opened
Great Britain	Mar. 1, 1920	French Indo-China	Sept. 15, 1926
Japan	Mar. 1, 1920	Holland	Nov. 1, 1926

Sweden	Dec. 1, 1924	Turkey	Dec. 10, 1927
Dutch E. Indies	Jul. 16, 1925		
Brazil	May 3, 1926		

The Corporation owns and operates international radio communication stations located at Rocky Point and Riverhead, L. I., N. Y.; Belfast, Me.; Marion and Chatham, Mass.; New Brunswick and Tuckerton, N. J.; Bolinas and Marshall, Calif., and Kahuku and Koko Head, T. H.

Additional circuits to Canada, Cuba, Spain, Portugal, Czecho-Slovakia, Chile and Liberia are projected for the near future. Stations in Manila owned and operated by **Radio Corp. of the Philippines,** a subsidiary, commenced operation in 1927. They communicate with United States, Hawaii and Hong Kong, Dutch East Indies, French Indo China and Japan. The station at San Juan, Porto Rico, is owned and operated by Radio Corporation of America. The station at Bogota, Colombia, is jointly owned and operated by Radio Corporation of America and Marconi's Wireless Telegraph Co., Ltd. (England).

In Aug. 1921, the Corporation entered into an agreement with the International Radio Telegraph Co. and the Westinghouse Electric & Mfg. Co. By this arrangement, the Radio Corp. of America acquired the radio inventions of the International Co. and those of the Westinghouse Co., the development of which had begun during the War. It is now possible for the corporation to develop, free from the previously existing patent restrictions, both receiving and sending apparatus essential to the furtherance of the art. The Westinghouse Electric & Mfg. Co., in order to better carry out the agreements for co-operation in the scientific development and advancement of the art of radio transmission and reception, purchased a substantial minority stock interest in the Radio Corp. of America.

The Radio Corp. of America continues to enjoy the benefits of the highly developed manufacturing and research organizations of the General Electric Co., American Telephone & Telegraph Co., Western Electric Co., Inc., the Wireless Specialty Apparatus Co. and the Westinghouse Electric & Mfg. Co.

On Dec. 30, 1927, acquired the property and business of the Independent Wireless Telegraph Company and organized a subsidiary, the **Radiomarine Corporation of America** to take over marine radio activities. The Radiomarine Corporation of America operates marine coastal stations at the following points: Chatham, Mass.; New York, N. Y.; Tuckerton, N. J.; Los Angeles, Cal.; San Francisco, Cal.; Galveston, Texas; Chicago, Ill.; Cleveland, Ohio; Buffalo, N. Y.; Duluth, Minn.; East Moriches, N. Y.; New London, Conn.

Contracts have been made for the sale to the Victor Talking Machine Co. and the Brunswick-Balke Collender Co. of "Radiolas" to be used in combination radio-phonograph sets.

During 1926, commercial photoradiogram service was inaugurated between San Francisco and Hawaii and between New York and London. In Jan. 1927, telephone service was established between New York and London by American Telephone & Telegraph Co.; transmission across the ocean uses certain facilities of the Radio Corporation, leased to the Telephone Co.

The stock control of the Canadian Marconi Company passed by sale, during 1927, from Marconi's Wireless Telegraph Company, Ltd., to a British-controlled holding company known as the Canmar Investment Company. The Radio Corporation of America owns a substantial interest in this holding company.

In connection with the development of recording and reproducing of sound, in synchronization with moving pictures on the same film, Corporation in 1927 acquired a substantial interest in the stock of the FBO Pictures Corporation, producer of motion picture films.

CAPITAL STOCK

Authorized, 1,500,000 shares "A" Common stock, without nominal or par value and $25,000,000 7% "A" Pfd. stock (cumulative from Jan. 1, 1924), par, $50; outstanding, 1,155,400 shares Common and $19,779,870 Pfd.

Stock Changes Approved—At special meeting of stockholders held May 6, 1924, the Directors' proposal of Feb. 1, 1924, to exchange the then existing stock into new "A" Common and "A" Pfd. stocks, was approved. Stockholders were requested to exchange their certificates of the original Common and Pfd. stock on the basis of one share of "A" Common stock for five shares of the original Common, and one share of "A" Pfd. stock for ten shares of the original Pfd. stock. Only a small portion of the original stock had not been exchanged for the new stock.

Exchange of Stock—Stockholders of record on Dec. 10, 1919 received the right to exchange Marconi Wireless Telegraph Co. of America stock for stock of Radio Corporation of America on the basis of one share of Pfd. stock of Radio Corporation of par amount equal to the par amount of one share of the Marconi Company, and one share of Common stock of Radio Corporation without par value, for each share of Marconi Company stock.

Stockholders of Marconi Wireless Telegraph Co. of America are entitled to receive from time to time their aliquot share of the proceeds of the reserved claims as may hereafter be distributed in liquidation of the Marconi Company (such distribution will be made only by the issue of Pfd. stock of Radio Corporation).

Preferred Stock Provisions—Pfd. stock has preference for assets and dividends and is redeemable on any dividend date at $55 per share and accrued dividends. Each share of the "A" Common stock represents five votes, each share of the "A" Pfd. ten votes, each share of the old Common or Pfd. stock remaining outstanding, and each fractional one-fifth of the "A" Common or one-tenth of the "A" Pfd. shares represents one vote.

LOWER AUSTRIAN HYDRO-ELECTRIC POWER COMPANY NEWAG

(Newag Niederosterreichische Elektrizitatswirtschafts-Aktiengesellschaft)

History—Incorporated May 17, 1922, by the Austrian Provincial governments of Vienna and Lower Austria. Each of the two provinces had one-half interest in the Lower Austrian Electric Works and agreed to turn over this property to the Company in exchange for 1,000,000 shares (of 1,000 kr. par value) of Common stock in the Company. The properties which were brought into the Company as the result of this arrangement consisted of Wienerbruck water power plant and the St. Poelten Diesel Engine Plant, together with the transmission and distribution lines belonging to these plants and their contracts for the supply of current. On Aug. 1, 1922, the electric power plants of the City of Wiener Neustadt (including water power plants at Mirawerk, Faehrenwald, Ungarfeld and Heidemuehle and the Diesel Engine plant at Wiener Neustadt) together with the existing high tension, transmission and distributing lines were acquired in exchange for 500,000 shares (par value 1,000 kr.) of the Company's Common stock. This exchange was authorized in a resolution of the municipality of Wiener Neustadt, dated July 14, 1922. On Aug. 1, 1922, the plants and high tension and transmission lines of the Traisentaler Electric Works, as well as the Stollhofener water power plant and all the transmission lines of the Stollhofener Electric Works were acquired. The Traisentaler Electric Works received for its properties 62,000 shares (par value 1,000 kr.) and 10,000,000 kr. in bonds, the Stollhofener Electric Works receiving 31,000 shares of Common stock (par value 1,000 kr.) and 5,000,000 kr. in bonds of Newag. These transactions were approved respectively by the stockholders of the Traisentaler Electric Works on Aug. 10, 1922, and by the stockholders of the Stollhofener Electric Works on or about the same date. On Jan. 1, 1924, the Newag acquired from the Wollersdorf Aktiengesellschaft its water power plants Akademie in Wiener Neustadt and Amwasser. The real estate in connection with these plants was leased for 49 years for the nominal rental of 1 gold

crown yearly. This transfer of property was approved by the stockholders of the Woellersdorf Aktiengesellschaft on Jan. 1, 1924.

Company is engaged in producing and transmitting electric power in the province of Lower Austria, Republic of Austria.

Properties—With the exception of the Blumau power station and the Woellersdorf steam plant, which are leased, Company owns the following plants:

Name	H. P. Installed
Ungarfeld	600
Akademie	900
Brunnenfeld, new	1,360
Faehrenwald, new	1,360
Wienerbruck	7,200
Erlaufboden, new	4,900
Mirawerk	1,000
Heide Muhle	120
Amwasser	100

St. Polten	2,800
Wollersdorfer	400
Total	4,560
Steam plant (leased):	
Wollersdorf	4,500
Total owned and leased	29,470

All plants are inter-connected by high-tension transmission lines and can be operated as a single group with interchange of power. For this purpose the "Newag" has over 1,000 miles of high-tension power and distribution lines. All high tension lines are carried by up-to-date or reinforced concrete towers. The main transformer stations are centrally located to the districts served.

The largest stations are the Wienerbruck and Erlaufboden. These plants operate under a head of 500 to 550 feet. Storage is provided by two artificial reservoirs in the mountains. One contains 11,100,000 cubic feet and the other approximately 74,000,000 cubic feet. The storage in the latter can be increased to 111,000,000 cubic feet, which will produce approximately 2,500,000 k.w.h. per annum. The steam plant at Wollersdorf has been secured under a long-time lease. It is equipped with automatic stokers, economizers and superheaters.

Number of communities served, 680; population of territory served, about 500,000; number of electric meters, 1,700. Sales in 1926, 41,002,000 k.w.h., compared with 38,785,000 k.w.h. in 1925.

Owns the entire capital stock (except directors' qualifying shares) and mortgage bonds of the **Mountain States Utilities Corporation,** a West Virginia Corporation. It is contemplated that the foregoing subsidiary will endeavor to acquire other properties and that additional operating subsidiaries will be formed in other states when and if satisfactory opportunities develop for acquiring properties therein. The purchase of several additional properties is under consideration.

The Mountain States Utilities Corporation supplies without competition electric light and power in West Union and Salem, water and ice in Kingwood, water in Philippi and water and ice in Buckhannon; all in West Virginia. Estimated population, 14,000.

CAPITAL STOCK

Authorized, 15,000 shares Common, of no par value, and $500,000 7% Pfd.; outstanding, 10,000 shares Common and $200,000 Pfd.; par of Pfd., $100.

FUNDED DEBT

$300,000 FIRST LIEN AND REFUNDING GOLD BONDS, SERIES "A" 6%; DUE NOVEMBER 1, 1951

Dated November 1, 1926.

Interest Payable May and November 1, at The Pennsylvania Co. for Insurances on Lives & Granting Annuities, Philadelphia, or at The Chase National Bank, New York.

Denominations—Coupon (interchangeable denominations), $500 and $1,000; principal may be registered.

Trustee—The Pennsylvania Co. for Insurances on Lives & Granting Annuities, Philadelphia.

Provisions of Issue—The indenture authorizes the issuance of bonds thereunder in an unlimited principal amount, in one or more series, with interest rates, maturity dates, and other terms and conditions thereof as may be prescribed by the Company, subject only to the limitations of the Trust Indenture. Outstanding, $300,000 Series "A" 6s. Additional bonds of Series "A" as well as bonds of any other series may be issued: (a) Upon deposit with the Trustee of at least an equal amount of mortgage bonds of any subsidiary of which at least 55% of the outstanding voting stock shall have been acquired by the Company and deposited with the trustee, and then only when the annual interest upon all deposited bonds including those which it is proposed to deposit, together with all other income from other sources and the income available to all deposited stock for 12 consecutive calendar months within the previous 15 months shall have been at least 1¾ times the annual interest charges upon the bonds issued thereunder and those which it is proposed to issue. Bonds shall not be issued beyond an amount which, together with any prior lien bonds or other secured obligations outstanding with the public, would exceed 80% of the fair value of the property securing the deposited bonds, (b) to refund an equal amount of First Lien & Refunding bonds of another series.

Callability—Subject to call as whole or in part on any interest date on 30 days' notice prior to Dec. 31, 1932, at 105, and thereafter at ¼ of 1% per year less for each succeeding calendar year except that during 1951 they are redeemable at 100.

Sinking Fund—A sinking fund is established providing for payments upon the amount of Series "A" bonds at the time outstanding as follows: 1% per annum for the years 1928 to 1931 incl.; 1½% per annum, 1932 to 1936, incl.; and 2% per annum, 1937 to 1950, incl., such amounts to be used for the retirement of Series "A" bonds issued thereunder.

Security—Secured by deposit and pledge of all of the outstanding First Mortgage bonds (aggregating $300,000 and constituting the sole funded debt of the issuing company) and all of the capital stock except directors' qualifying shares now issued, of the Mountain States Utilities Corporation.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania Personal Property Tax not exceeding 4 mills and also certain taxes in Maine, Massachusetts, Connecticut, Maryland and District of Columbia refunded upon application within 60 days.

PENNSYLVANIA WATER & POWER COMPANY

History and Business—Incorporated Jan. 13, 1910, and owns and operates at Holtwood, Pa., on the Susquehanna River about 10 miles above the Maryland State Line, a combination hydro-electric and steam-electric power development, consisting of one of the largest low-head water power plants in the country and an adjacent pulverized coal burning steam-electric plant formerly the property of the Holtwood Power Company. All of the assets of the latter, a wholly owned subsidiary, were acquired by the Pennsylvania Water & Power Company in 1927.

The Susquehanna is, next to the St. Lawrence, the largest river flowing into the North Atlantic Ocean and has above Holtwood a drainage area of 26,800 square miles. The Company's water power site is located only twenty miles from tidewater. This location is highly advantageous from the viewpoint of market for power, as many large cities and important industrial centers, as well as some of the richest agricultural districts in the United States, are within easy transmission distance from Holtwood.

The Company, under contract with the Consolidated Gas, Electric Light & Power Company of Baltimore, supplies a large portion of the electric current used in Baltimore, including the street railway requirements of the United Railways & Electric Company. The

Company also supplies practically all of the current used in the City of Lancaster, Pa., and vicinity, under contract with the Edison Electric Company; and in the City of Coatesville, Pa. and vicinity, under contract with the Chester Valley Electric Company. A large portion of the current used in the City of York, Pa., and vicinity is supplied by the Company under contract with the Edison Light & Power Company. The total population served by the distributing companies which are customers of the Pennsylvania Water & Power Company is in excess of 1,000,000.

Properties—The Company's dam at Holtwood was completed and the first generating unit was placed in operation in 1910, and by 1914 eight of the ten main units had been installed. Thus the greater part of the investment was made at pre-war prices. The final installation, consisting of two turbine units of increased size, was placed in operation early in 1924, bringing the total capacity of the plant up to 150,000 horsepower. The dam is a solid concrete overflow type with a length of nearly one half mile, a width at the base of 65 feet and an average height of 55 feet. The power house, which is a continuation of the dam at its easterly end, is approximately 500 feet long and 165 feet wide. In addition to the ten main generating units, it contains step-up transformers with a total capacity of 180,000 kilovolt-amperes, two frequency changers with a capacity of 10,000 kilowatts, and complete switching, control and protective apparatus.

The Holtwood steam plant, adjacent to the hydro-electric plant, has an initial capacity of 30,000 horsepower, but is capable of being increased to an ultimate capacity of at least 135,000 horsepower. It is a pulverized coal burning station of the most modern type. The steam generating units are controlled from the switchboard in the hydro plant, and economies are effected by the combined use of operating and maintenance forces.

The Company owns and operates double circuit steel tower transmission lines of the most up-to-date type radiating from Holtwood to Lancaster, York and Coatesville, Pa., being respectively 16, 23 and 30 miles long, together with terminal step-down transformer stations at Lancaster and York. It also operates two double circuit steel tower transmission lines, each forty miles in length, from Holtwood to Baltimore, Md., a large step-down transformer station located in the industrial section of Baltimore. In addition it owns all the capital stock and bonds of the **Susquehanna Transmission Company of Pennsylvania** and the **Susquehanna Transmission Company of Maryland**, in which are vested the titles to the above transmission lines, which include a right-of-way 100 feet wide owned in fee for the entire distance, the Baltimore substation and also a 10 mile steel tower transmission line (leased to the Consolidated Gas, Electric Light & Power Company) from the substation to the outskirts of the city.

The Company owns extensive properties and flowage rights in connection with the reservoir about eight miles long, formed by the Holtwood dam, and also owns a considerable part of the properties and/or rights for a proposed water power development on the Susquehanna River, immediately above the Holtwood Reservoir, known as the Safe Harbor Project.

Contracts—The Company sells to the Consolidated Gas Electric Light & Power Co. of Baltimore a large part of the electric current used in Baltimore and vicinity for light and power, and also for street railways purposes, as the Consolidated Company supplies the entire requirements of the United Railways & Electric Co. of Baltimore. This contract was renewed on Jan. 3, 1928, for a period of 43 years. The Company also has a contract with the Edison Electric Co. of Lancaster, Pa. under which it supplies nearly all of the electric current used in that city and county. The Company also sells under long term contracts the major part of the power used by the Chester Valley Electric Co. of Coatesville, Pa. and the Edison Light & Power Co. of York, Pa.

The Company has entered into a 50-year agreement with The Susquehanna Power Co., which is constructing a hydro-electric development near Conowingo, Maryland, about 15 miles down the river from Holtwood, whereby the lower company is permitted to flood back into the Company's tailrace in a particular manner. The Company will be compensated for such flooding and in addition will share with The Susquehanna Power Co. the benefits resulting from the gain in power at Conowingo. This arrangement was consummated in lieu of continuing the excavation of the Holtwood tailrace, which on account of the increased capacity of the Holtwood plant has become inadequate, causing a considerable loss in head, which loss will now largely be regained at the Conowingo plant.

The Holtwood Coal Co.—The entire capital stock of this company is owned by the Pennsylvania Water & Power Co. It was incorporated in the State of Pennsylvania for the purpose of the recovering, cleaning, preparation and sale of anthracite river-coal which is carried down by the Susquehanna River and deposited in the reservoir formed by the Pennsylvania Water & Power Co.'s dam.

CAPITAL STOCK

Authorized, 540,000 shares of no par value; outstanding, 429,848 shares. Effective May 31, 1927, the capital stock of the Company was changed from 135,000 shares of $100 par value to 540,000 shares of no par value, the new stock being distributed to stockholders on the basis of four new shares for each share of old stock.

Subscription Privileges—Stockholders of record July 2, 1923, received the right to subscribe at par for $1,274,300 stock to the extent of 15% of their holdings, payable on or before Aug. 6, 1923; stockholders of record July 14, 1924, were offered the right to subscribe at $112.50 a share, for $976,900 additional stock to the extent of 10% of their holdings.

$3,000,000 PENNSYLVANIA WATER & POWER CO. FIRST REFUNDING MORTGAGE GOLD 5½s, SERIES "A"; DUE OCTOBER 1, 1953; CALLED FOR REDEMPTION ON MARCH 1, 1928, AT 106½ AND INTEREST AT NEW YORK TRUST CO., NEW YORK, TRUSTEE

(3)

$6,000,000 PENNSYLVANIA WATER & POWER CO. FIRST REFUNDING MORTGAGE 4½% GOLD BONDS, SERIES B; DUE MARCH 1, 1968

Dated March 1, 1928.

Interest Payable March and September 1, at The New York Trust Co., New York.

Denomination—Coupon, $1,000; principal may be registered.

Trustee—The New York Trust Company, New York.

Provisions of Issue—Authorized, $50,000,000; issued, Series "B," $6,000,000. Additional bonds may be issued only (a) to refund the $11,500,000 First Sinking Fund Gold 5s, due Jan. 1, 1940; (b) upon the basis of 80% of the cost of additional properties, and (c) upon the basis of the acquisition of securities of other corporations in accordance with restrictions contained in the mortgage.

Purpose of Issue—Proceeds were used in the retirement of $3,000,000 5½% First Refunding Gold Bonds, Series "A," of the Company called for payment March 1, 1928, and $2,750,000 6% First Mortgage Gold Bonds, Series "A," of Holtwood Power Co., called for payment March 1, 1928.

Callability—Subject to call as a whole or in part on 30 days' notice at 105 and interest prior to March 1, 1933, the premium decreasing ¼% each year from March 1, 1933, to March 1, 1952, thereafter callable at 100 and interest.

Sinking Fund—As a sinking fund for the retirement of bonds of Series "B," the Company is required to pay to the Trustee on October 1 in each year, beginning with the year 1933, an amount equivalent to 8% of the interest charges upon all bonds of Series "B," then outstanding, according to the definition in the Supplemental Indenture which excludes bonds pledged by the Company as security for short time loans. After the expiration of five years from 1933 the amount payable to the sinking fund is increased to 10% of such interest charges, and after the expiration of a further five-year period, it is increased to 12%. The Trustee may purchase bonds for the sinking fund in the open market at or below the call price, and in the event that bonds cannot be so purchased, the Trustee will redeem bonds by lot for this purpose. Bonds in the sinking fund will be cancelled.

Security—Secured by lien, subject to the lien of the First 5s, due Jan. 1, 1940, described above, on all the Company's property now owned or hereafter acquired (except securities acquired subsequent to Oct. 1, 1923, other than securities made the basis of issue of additional bonds).

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Exempt from Pennsylvania four-mills tax.

Legal Opinion—Simpson, Thacher & Bartlett, New York.

Listed—Baltimore Stock Exchange.

Original Offering—First publicly offered ($6,000,000) in February, 1928, at 99 and interest, to yield over 4.55%, by Minsch, Monell & Co., Inc., New York; Chase & Co., Boston, and Joseph W. Gross & Co., Philadelphia.

INTERNATIONAL LIGHT AND POWER COMPANY, LTD.

History—Incorporated Feb. 25, 1913, in Canada, for the purpose of buying and holding the securities of companies owning gas, electric light, power, water supply, drainage, tramways, and other similar undertakings in South America and elsewhere. Since June 30, 1927, the character of this Company has changed; it has disposed of the properties controlled and is now continuing as an investment Company.

The company acquired all of the capital stock and debentures of the companies owning electric lighting and gas plants and distribution systems in the cities of Caracas, Venezuela, and Parana, Province of Entre Rios, Argentina, and the City of Merida, Mexico, and the tramway system in the city of Parana. The company owned (1) all of the issued capital of $1,063,000 (Canadian currency) Ordinary shares and all of the $823,000 outstanding 12% First Mtge. Debenture stock of the **Venezuela Electric Light Co., Ltd.** (of Canada), which operates in Caracas with a population of 80,000, and (2) the entire issued share capital of $500,000 (Argentine currency) of the **Compania Luz y Fuerza de Parana,** which owns the lighting properties in Parana, Argentine, with a population of 42,000 (this property was sold in 1927, as stated below), and (3) all of the issued share capital of $2,500,000 (Mex. currency) and all the $2,000,000 "obligations" of the **Compania de Electricidad de Merida** operating lighting and power properties in Merida, Mex., with a population of 60,000; and (4) the entire share capital of £75,000 of the **Parana Tramways Co. Ltd.** This latter company owns and operates a tramway system in the city of Parana, Argentine. In connection with this purchase the International Light & Power Co., Ltd., increased its Preference Share capital by $200,000, while a further liability exists for the balance of the purchase price in the form of additional cumulative Preference shares to be issued in 1926, the amount being dependent on the net income derived from the tramways.

In the first half of 1925 Company acquired the share capital of the **South Brazilian Rys. Co., Ltd.** which owns and operates the electric light, power and tramways systems at Curityba, the capital of the State of Parana in South Brazil. The necessary funds were raised by the issue of £128,000 Three-Year 7% Collateral Trust notes. The cost of purchase was £95,000 cash, 1,750 Preference shares of $100 each and 5,350 Ordinary shares of $100 each in the International Light & Power Co., Ltd., inclusive of commissions. This Company has been sold as stated below.

Number of consumers at June 30, 1927: In Caracas, 10,777; in Merida, 6,911; in Parana, 4,735; in Curityba, 6,792. Passengers carried on the Parana tramway system during year ended June 30, 1927, 2,459,903, compared with 2,210,558 in previous year, and on the Curityba tramway, 5,533,344, compared with 5,025,707.

MARCONI'S WIRELESS TELEGRAPH COMPANY, LTD.

Registered July 20, 1897, in Great Britain as Wireless Telegraph & Signal Co., Ltd., to acquire certain patent rights from Guglielmo Marconi, and in 1900 the name was changed as above. In 1900 the Company's maritime rights were sold to the Marconi International Marine Communication Co., Ltd., payment being made in shares, and the Company holds a considerable interest in subsidiary companies formed in other countries (see 1921 Public Utility Manual, page 635).

The Company conducts public wireless telegraph services, and messages are accepted for transmission, via Marconi, to the United States of America, the West Indies, Spain, France, Switzerland, Austria, etc.

After several years of effort Company received from the British General Post Office on Dec. 31, 1925, a general license permitting it to establish wireless telegraph services with all foreign countries outside Europe and with the following European countries: Austria, Bulgaria, Denmark, Finland, France, Greece, Portugal, Russia, Spain, Sweden, Switzerland, Turkey and Yugoslavia.

Fusion of Interests—During March, 1928, announcement was made that Company and Eastern & Associated Cable Companies had provisionally arrived at an arrangement for a fusion of interests through the medium of a holding Company, subject to Governmental approval and to acceptance by stockholders.

Unsuccessful Ventures Written Off Books—At the beginning of 1925 Company had interests, either directly or through its subsidiaries, in 56 other companies—in many cases holding the whole of the capital. Twelve of these companies had no connection with the wireless business, and a substantial part of the writing off was in respect of their operations. The present position is that Company's interest in nine of them has either been disposed of, the concerns have been liquidated, or the losses entirely written off. No further losses can arise in respect of them. The management of the three non-wireless companies which remain have been reorganized with a view to disposing of these companies at the earliest possible moment. They are now either making a small profit or balancing their accounts. There were also five companies which were dormant but had not been liquidated at the beginning of 1925. These dormant companies have now been wound up or are in process of liquidation.

CAPITAL STOCK

Authorized, £499,935 Ordinary Shares, par £1, £3,250,065 Ordinary Shares, par 10s, and £250,000 7% cumulative Participating Preference shares (see paragraph below for stock changes); outstanding, Dec. 31, 1927, £1,625,019 Ordinary shares, par 10s, and £250,000 Preference, par £1.

Recapitalization Plan—On April 7, 1927, stockholders confirmed resolutions passed on March 15, 1927, approving a plan whereby the capitalization of Company was reduced from £4,000,000 divided into 250,000 7% cum. Part. Pref. shares of £1 each and 3,750,000 shares of Ordinary stock of £1 each, to £2,374,954, divided into 250,000 shares of 7% cum. Part. Pref. stock of £1 each, 499,935 Ordinary shares of £1 each, and 3,250,038 Ordinary shares of 10s. each, such reduction being effected by cancelling capital to the extent of 10s. per share on each of the 3,250,038 Ordinary shares of £1 each, which had been issued and were fully paid up and had not been forfeited, and by cancelling each of the 27 Ordinary shares of £1 each which had been forfeited. The stockholders also voted that on such reduction of capital taking effect the stock of Company be increased to its former amount of £4,000,000 by the creation of 3,250,092 new Ordinary shares of 10s. each. The British Court on Nov. 11, 1927, approved the above capital readjustment whereupon it was put into effect.

Preference Stock Provisions—The Participating Preference shares are preferred as to assets, are entitled to 7% cumulative dividends and, after Ordinary shares have received a 10% non-cumulative dividend, share ratably with Ordinary shares in surplus profits remaining.

Annual Meeting—In 1927, on December 22, at London, Eng.

THE WEST CHESTER STREET RAILWAY COMPANY

(The Chester Valley Lines)

History and Properties—Incorporated August 4, 1890, in Pennsylvania. Acquired capital stock of **The Coatesville Electric Light, Heat and Power Company** and **The Chester Valley Electric Light, Heat and Power Company,** which properties were leased in 1911 to the Chester Valley Electric Company. Franchises perpetual. The Company's railway lines operate between and through the City of Coatesville and the Borough of Downingtown, West Chester and Kennett Square.

In 1923, the Company acquired entire capital stock of motor bus company known as The Peoples Transportation Corporation. Operations of latter Company were extended by merger and new acquirements, lines ultimately reaching Reading, Pottstown, Norristown, Paoli, Valley Forge, West Chester, Kennett Square, Avondale, West Grove, Chester and various other points in southeastern Pennsylvania also Wilmington, Delaware. In 1927 there was a voluntary financial reorganization of the latter Company and its assets were transferred to a new corporation, **Chester Valley Bus Lines, Inc.** All necessary approval was granted by the Public Service Commission.

Total length of railway lines, 38 miles. Rails, 70, 90 and 103 lb. "T." Passenger cars, 14; service cars, 3; flat cars, 3; snow plow, 1.

Protective Committee—In July, 1927, a Security Holders Protective Committee was organized. The Committee submitted a Plan for the Readjustment of securities (outlined below) of The West Chester Street Railway Co. to security holders. In February, 1928, a large majority of all classes of securities had deposited under the plan. Time for deposit of securities was extended to May 31, 1928. Committee: O. Howard Wolfe, Chrm.; John T. Collins, Jr., Edmond W. Palmer and Lawrence J. Morris, Philadel-

phia, Pa., with Eric H. Biddle, Sec., 20 South High St., West Chester, Pa. Depositaries: Philadelphia-Girard National Bank, Philadelphia, Pa., and The National Bank of Chester County, West Chester, Pa.

PLAN OF READJUSTMENT OF SECURITIES, DATED SEPTEMBER 15, 1927

PARTICIPATING SECURITIES

The securities of Company which may be deposited under and participate in the Plan are as follows: First Mortgage 5% Gold bonds, due Aug. 1, 1932; First Lien and Collateral Trust Sinking Fund Gold bonds, due Oct. 1, 1939; Secured promissory notes; 7% Participating cumulative Preferred stock; Common capital stock.

NEW SECURITIES

Class "A" Stock—This stock will be authorized to an amount to be provided for in the charter of the Old Company (as amended) or the New Company to be formed, not to exceed 25,000 shares, the shares to be of a par value of $50, or if the Readjustment Committee shall so determine for a small par value, or without par value. The Class "A" stock is to bear non-cumulative dividends at rate of $2.50 a share per annum, provided no dividends shall be paid on Class "B" stock until there shall have first been paid the dividend on the Class "A" stock as above stated, and provided further, that no dividends shall be paid on the Common stock unless dividends shall have been paid in an amount equal to the full non-cumulative rate for five consecutive years on all Class "A" stock outstanding.

Class "A" stock to be redeemable in whole or in part, at $52.50 a share on such terms as may be determined by the Board of Directors; and Class "A" stock shall have preference over Class "B" stock and Common stock as to assets on liquidation to an amount of $50 per share. There shall also be provided in Class "A" certificates to be issued that no prior liens shall be placed on the property of the Corporation, without the unanimous consent of the voting trustees, if any, nor upon dissolution of the voting trust, unless the same shall be consented to by three-fourths of the holders of said Class "A" stock. Holders of Class "A" stock will have the same voting rights as holders of Common stock, to wit: one vote for each share held.

A sinking fund shall be created for the purpose of retiring Class "A" stock, and commencing on or before June 30, 1933, there shall be deposited in a special fund a sum equivalent to 2% of the gross earnings of the railway property for the preceding year, including dividends received from the subsidiaries. The money so deposited shall be used to purchase or redeem Class "A" stock at price not exceeding $52.50 per share, stock so purchased to be cancelled.

Before any dividends shall be paid on Common stock there shall have been retired by sinking fund or otherwise, at least $25,000 Class "A" stock. When above conditions have been complied with and dividends have been paid on Class "A" and Class "B" stock as herein stated, then the Board of Directors may, at its option, declare a dividend on the Common stock, not to exceed 50 cents per share in any year, and provided further, that if in any one year more than $25,000 Class "A" stock is retired, any amount in excess of said $25,000 shall be applied towards the amount to be retired in any suceeding year or years and these provisions shall remain in full force and effect as long as any Class "A" stock shall remain outstanding, and provided further that, whenever in any one year, there shall have been declared and paid a dividend of $2.50 per share on Class "A," $3 per share on Class "B" and 50 cents per share on Common stock, any additional amount declared as dividends during the same year shall be divided equally share for share upon Class "A," Class "B" and Common stocks.

Class "B" Stock—This stock will be authorized to an amount not to exceed 17,500 shares, the shares to be of par value of $50, or, if the Readjustment Committee shall so determine, for a smaller par value, or without par value. Class "B" stock shall be junior to the Class "A" stock and after a dividend has been paid in any one year of $2.50 per share on Class "A," Class "B" shall be entitled to receive a non-cumulative dividend of $3 per share. Upon liquidation or dissolution of Company, Class "B" shall be entitled to receive after Class "A" stock has been paid in full as above stated, the sum of $50 per share, and shall be redeemable, in whole or in part, at a price of $52.50 per share, and on such terms as may be determined by the Board of Directors of the New Company at the time of the creation thereof. No prior liens shall be placed on the property of Company except Class "A" stock, without unanimous consent of the voting trustees, if any, nor upon dissolution of the voting trust, unless consented to by three-fourths of holders of Class "B." Holders of Class "B" stock will have the same voting rights as holders of Class "A" and Common stock, to wit: one vote for each share held.

No dividends shall be paid on Common stock unless dividends shall have been paid at full non-cumulative rate for three consecutive years on all Class "B" stock.

Common Stock—Common stock will be authorized to such an amount as the Readjustment Committee may deem advisable, not to exceed 50,000 shares, the shares to be of a par value of $20, or, if the Readjustment Committee shall so determine, without par value or such par value as it may fix. Said Common stock shall be junior to Class "A" and Class "B" stock and shall only be entitled to receive dividends after dividends have been paid on the Class "A" and Class "B" stock as heretofore stated, and shall only be entitled to share in the assets upon liquidation or dissolution after Class "A" and Class "B" stocks have been paid in full. Holders of Common stock shall be entitled to one vote for each share held.

Voting Trust—The Readjustment Committee shall have power, in its discretion, to create a voting trust or voting trusts for all or any part of the Class "A" and/or Class "B" and/or Common stock of the Old Company (as amended) or of the New Company, and to cause such stock or any part thereof to be deposited thereunder, for the purpose of providing for representation of public authorities or of holders of any class of stock on the Board of Directors, such voting trust or trusts to be for such period or periods and to contain such provisions as the Readjustment Committee may prescribe.

PEOPLES TELEPHONE CORPORATION

History—Incorporated in May, 1925, in Pennsylvania, as successor to the Peoples Telephone Co. of Butler, organized in 1923 (see 1926 Public Utility Manual, page 1997). On Jan. 1, 1926, took over the local property of the Bell Telephone Co. of Pennsylvania in Butler County. Operates 12 exchanges, located at Butler, Bruin, Chicora, Conoquenessing, Eau Claire, Evans City, Foxburg, Nixon, North Washington, Parker, Prospect and West Sunbury, connecting 8,182 telephones as of Dec. 31, 1927.

This corporation is one of a group of four independent telephone companies associated for mutual protection and improvement, the other three companies being Meadville Telephone Co., Meadville, Pa.; Home Telephone Co., Ridgway, Pa., and Jamestown Telephone Corp., Jamestown, N. Y. While having no financial connection one with the other, these companies have an inter-related management, with the resources, such as electrical experts, technical equipment, etc., of one immediately available to the other companies in time of need.

Telephone Securities Company—This company was organized in Pennsylvania by the above associated companies, which jointly own all its capital stock. It acts as a clearing house for the securities of these companies, buying the securities of stocks and bond holders who desire to sell and selling them to those who desire to buy. Officers: John H. Wright, Pres.; M. N. Heizner, V-P.; L. C. Wright, Sec., and Frank A. McClung, Treas. Directors: The above and C. E. Lockhart, H. M. Dickson, E. W. McGill, Wm J. Maddox, and Daniel Younkins. Headquarters of the company are at Butler, Pa.

COUNTY GAS COMPANY

(Atlantic Highlands, N. J.)

History—Incorporated March 15, 1922, in New Jersey, as a reorganization of the Standard Gas Co. sold at receiver's sale.

The predecessor company had previously absorbed the Atlantic Highlands Gas Co. and the Freehold Gas Light Co. The present company consolidated the Borough Gas Co. on Aug. 14, 1922.

Company supplies the Boroughs of Atlantic Highlands, Highlands, Matawan, Keyport and Rumson, the Townships of Middletown, Freehold, Raritan, Marlboro and Matawan, and the Town of Freehold, including all territory along the Raritan Bay from Highlands to Keyport. Franchises in part are perpetual while others expire in 1960. Generating capacity, 1,800,000 cu. ft. daily. Miles of mains about 170, number of meters about 9,200.

CAPITAL STOCK

Authorized, $700,000 Common, par $25, and 6,500 shares $6 cumulative Pfd., of no par value; outstanding, $135,000 Common and 4,800 shares Pfd. The authorized capital stock was changed from $135,000 Common, par $25, and $60,000 7% cumulative Pfd., par $50, in January, 1928,, the 7% Pfd. stock being retired.

Preferred Stock Provisions—Pfd. stock has preference for assets and dividends and in the event of liquidation, dissolution or in any distribution except by redemption, the Pfd. stock is entitled to receive $105 per share and accrued dividends. Pfd. stock is subject to redemption in whole or in part on any dividend date on 30 days' notice at $105 per share and accrued dividend. No stock preferred as to dividends and/or assets to the $6 cumulative Pfd. stock may be created without the consent of the holders of 70% of the $6 cumulative Pfd. stock outstanding. No holder of the $6 cumulative Pfd. stock shall have any pre-emptive rights to subscribe to any stock of any class or to any bonds convertible into stock whether at present or hereafter authorized. Pfd. stock has no voting power except in the event of four quarterly dividends being in arrears when holders of Pfd. stock shall after thirty days have full voting rights.

Transfer Agent—Stock transferred at Company's office.

Registrar—The Pennsylvania Company for Insurances on Lives & Granting Annuities, Philadelphia.

Tax Provisions—Free from New Jersey property tax. Pennsylvania four mills personal property tax refundable upon proper application.

Legal Opinion—Roberts and Montgomery, Philadelphia (for the Company) and Rawle & Henderson, Philadelphia (for the Bankers).

Original Offering—First publicly offered (a block of $6 cumulative Pfd.) in Jan., 1928, at $96 per share and accrued dividends, to yield over 6.25%, by Parsly Bros. & Co., Walter Stokes & Co. and Rufus Waples & Co., Philadelphia.

Annual Meeting—First Monday in May at Atlantic Highlands, N. J.

Dividends—Pfd. dividends payable quarterly, F, M, A & N 1. No dividends paid on Common to date.

FUNDED DEBT

(1)

$600,000 FIRST MORTGAGE GOLD BONDS, 5% SERIES "A"; DUE JANUARY 1, 1952

Dated April 1, 1927.

Interest Payable April and October 1 at The Pennsylvania Company for Insurances on Lives and Granting Annuities, Philadelphia.

Denomination—Coupon, $1,000; principal may be registered.

Trustee—The Pennsylvania Company for Insurances on Lives and Granting Annuities, Philadelphia.

Provisions of Issue—Authorized amount, not limited; issued, 5% Series "A," $600,000. Directors of the Company may, from time to time, authorize the issuance of additional bonds under the terms of the mortgage in one or more series and in such amounts and bearing such rates of interest and having such maturity dates, redemption provisions, sinking funds and other provisions as are permitted by the mortgage.

Additional bonds may be issued in accordance with the terms of the mortgage for a principal amount not in excess of 75% of the cost or fair value, whichever is less, of gas and/or electrical plants and property in New Jersey to be acquired by the Company, and for permanent extensions, additions, betterments and improvements and other capital expenditures, made subsequent to April 1, 1927, provided that net earnings of the Company as defined in the Indenture, for 12 consecutive months out of 15 preceding months shall have been at least 1¾ times the annual interest charges on all First Mtge. bonds and prior lien bonds (if any), then outstanding, together with those proposed to be issued. Mortgage provides that the aggregate amount of obligations secured by lien on after-acquired property prior to lien of mortgage shall not exceed 25% of the total amount of bonds outstanding under the mortgage, including any bonds then applied for.

Mortgage contains provision for the modification of the terms thereof, or of any supplemental mortgage, with the written consent of the holders of 85% of the outstanding bonds, provided that no such change shall, without consent of the holders, alter any of the terms and provisions of the bonds with reference to the amount, time, place or medium of payment of the principal or interest thereof or the redemption price or dates thereof or the amounts payable to the sinking fund for the benefit of the bonds of the 5% Sinking Fund Series "A."

Purpose of Issue—Proceeds were used in part to provide for the redemption of $296,600 First Mortgage 7% Series "A" and 6% Series "B" bonds previously outstanding, to pay off current indebtedness and to reimburse the Company for expenditures already made and to be made, including gas main extensions, and other improvements and for general corporate purposes.

Callability—Subject to call as a whole or in part on any interest date on not less than 30 days' notice, upon payment of the principal and a premium of 5% of the principal if redeemed on or before April 1, 1937; thereafter a premium of 4% if redeemed on or before April 1, 1947; and thereafter at successively reduced premiums of ½ of 1% for each year commencing October 1, 1947, in each case with accrued interest.

Sinking Fund—Company agrees to pay annually to the Trustee as a sinking fund, beginning Feb. 1, 1929, a sum of money equal to 1% of the principal amount of the bonds of this series outstanding at the time of such payments. The moneys in the sinking fund are to be applied by the Trustee toward redemption of bonds of this series unless the same can be purchased for cancellation at or below the then current redemption price, as provided in the mortgage.

Security—Secured by a first mortgage on the entire mortgageable property of the Company now owned, and subject to then existing prior liens (if any), on property acquired after April 1, 1927, for which additional bonds may be issued under conservative restrictions.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Present Pennsylvania and Connecticut personal property taxes not exceeding $4.00 annually per bond, the present Maryland securities tax not exceeding $4.50 annually per bond and the Massachusetts income tax, not exceeding $3.00 annually per bond, refunded upon application.

Legal Opinion—Roberts & Montgomery, Philadelphia (for the Company), and Dickson, Beitler & McCouch, Philadelphia (for the Bankers).

Original Offering—First publicly offered ($600,000) in July, 1927, by W. H. Newbold's Son & Co., Philadelphia; price not stated.

MONTREAL COKE & MANUFACTURING COMPANY

History—Incorporated in 1927 under the laws of the Province of Quebec. Company has purchased a plant site over 70 acres in extent adjoining the gas plant of Montreal Light, Heat & Power Co., at Ville LaSalle, near the city of Montreal. On this site Company is constructing and will own and operate a modern coke and gas plant including 59 Koppers combination coke ovens and a by-product plant for the recovery of tar and ammonium sulphate, together with all necessary auxiliary equipment. Plant is expected to be ready for operation not later than July 1, 1928. Company has also leased the gas manufacturing plant of Montreal Light, Heat & Power Co. at Ville LaSalle. Properties to be operated by the Company have a total annual capacity of approximately 450,000 tons of coke and 9,000,000,000 cu. ft. of gas and resultant by-products. Company has a marketing agreement for its gas with Montreal Light, Heat & Power Consolidated.

Control—All the Common stock of Company is owned by Montreal Light, Heat & Power Consolidated and by The Koppers Company of Delaware, through a wholly owned subsidiary.

CAPITAL STOCK

Authorized, 100,000 shares, of no par value and $5,000,000 6% cumulative Preferred, par $100; outstanding, May 14, 1927, 100,000 shares Common and $2,000,000 Pfd. All the Common stock is owned by Montreal Light, Heat & Power Consolidated and by The Koppers Company of Delaware, through a wholly owned subsidiary. The $2,000,000 Pfd. stock was subscribed for in equal amounts by these two companies.

FUNDED DEBT

$4,000,000 20-YEAR FIRST MORTGAGE SINKING FUND GOLD 5½s, SERIES "A"; DUE JUNE 1, 1947

Dated June 1, 1927.

Interest Payable June and December 1, in U. S. gold coin, at Agency of Royal Bank of Canada in New York, and at Royal Bank of Canada, Montreal and Toronto in Canadian gold coin.

Denominations—Coupon, $500 and $1,000; principal may be registered. Fully registered bonds in denomination of $1,000 and authorized multiples thereof.

Trustee—Montreal Trust Co., Montreal.

Provisions of Issue—Authorized, $10,000,000; issued and outstanding, $4,000,000 Series "A" 5½s. The remaining $6,000,000 of bonds may be issued in any one or more series and in accordance with the provisions of the Trust Deed to the extent of 75% of the actual cost or fair value (whichever is less) of additional property, and then only when average annual net earnings of the Company, as defined in the Trust Deed, for the two preceding years are more than twice annual interest on all the bonds then outstanding, including those proposed to be issued.

Purpose of Issue—The proceeds from the sale of these bonds and of the $2,000,000 Pfd. stock, subscribed for by the two controlling companies, were used for the construction and equipment of Company's plant and for working capital and other corporate purposes. The entire proceeds of these bonds will be deposited with the Trustee and may only be paid to the Company against construction certificates and otherwise in accordance with the provisions contained in the Trust Deed.

Callability—Subject to call as a whole or in part, on any interest date, on 60 days' notice, at 103 and interest to and including June 1, 1934; thereafter at 102 and interest to and including June 1, 1941, and thereafter at 101 & interest.

Sinking Fund—Provision is made for an annual cumulative sinking fund commencing June 1, 1932, which is calculated to be sufficient to retire at or before maturity all bonds of Series "A" issued.

Security—Secured by a first specific mortgage and charges on all of Company's real and immovable properties and on above-mentioned lease and gas sales contract. Additionally secured by a floating charge on all other assets. Fixed assets of Company on completion of present construction program, exclusive of working capital, are estimated to have a value of not less than $5,500,000. Company covenants that upon completion of plant it will have net current

assets of not less than $800,000 and that, so long as any bonds remain outstanding, it will not redeem any of its capital stock, nor pay any dividends on Common if and so long as its net current assets are ess than 20% of the principal amount of bonds then outstanding, or such net current assets would by such redemption of stock or payment of dividends be reduced to an amount equal to less than 20% of the principal amount of bonds then outstanding.

Legal Opinion—Brown, Montgomery & McMichael, Montreal.

Original Offering—First publicly offered ($4,000,000 Series "A" 5½s) in May, 1927, at par and interest to yield 5½%, by Wood, Gundy & Co., New York, etc.

THE MELBOURNE ELECTRIC SUPPLY COMPANY, LIMITED

History—Incorporated Aug. 17, 1899, in the United Kingdom, as the Electric Lighting & Traction Co. of Australia; name changed in July, 1908. Company supplies electricity for light and power in the suburban districts of Melbourne, Australia, and also electricity and street railway service in the City of Geelong, about 50 miles from Melbourne. The City of Melbourne Corporation supplies electricity within the limits of the city proper to a population of 105,000 (1926). The suburban population is 807,000, the total metropolitan population thus being 912,000. Of this population the Company serves 530,000, occupying an area of approximately 116 sq. miles. The City of Melbourne Corp's electric operations are conducted under statutory powers, which restrict them to the area of the city proper, as the Company's operations are restricted to specified suburban areas, thus eliminating competition between the two existing undertakings.

At Melbourne the Company owns an electric power station having a generating capacity of 16,500 kilowatts. In addition the Company purchases electrical energy in bulk delivered at its distribution centers from the State Electricity Commission of Victoria. The present maximum load of the undertaking is 37,200 kilowatts. Company's distributing systems in Melbourne and Geelong cover 1,172 miles of streets.

In Geelong the Company owns an electric power station of 10,500 k.w present capacity. Here the distributing system covers 123 miles of streets and serves a population of about 36,500.

Franchises—The Company operates in Melbourne under franchises or Orders in Council granted under the Victorian Electric Light & Power Act, 1896. Under these the Company has the right to supply electric light and power to the majority of the important suburbs of Melbourne. On November 13, 1925, Company started operations under a new franchise. Under its provisions operations will be continued until such time as the purchase of the Company's Melbourne and Geelong undertakings will be completed and which purchase may at the option of the Government take place on Aug. 31, 1930, Feb. 28, 1933 or Aug. 31, 1935, the Company itself having the option of demanding that purchase shall take place on Aug. 31, 1930, if at that date for any reason it so desires.

Annual Meeting—First Monday in March.

Stock Pool—In Feb., 1927, the directors of Company in circular to stockholders stated that they had approved a trust agreement under which stockholders could deposit their stock. Circular states: "Directors feel that the trend in public utilities indicates that shareholders should protect themselves against the possibility that control of Company might pass without each shareholder having an opportunity to secure for his holdings an adequate price. Such prices, available to all, cannot be assured at present, inasmuch as purchasers are free to obtain majority control by acquiring scattered holdings and disregarding the minority stock not sold." The agreement under which stock may be deposited runs until Dec. 31, 1931, subject to extension to Dec. 31, 1936, or in case of sale of Company meanwhile the trust may be terminated earlier. In the agreement the three trustees are authorized either to sell all, but not less than all, the deposited Common stock at not less than $60 a share, or to sell all of the deposited stock at such price as may be approved by three-fourths in interest of the deposited stock.

The designated trustees of the pool are: Simeon B. Chase, Frederick O. Dodge and James E. Osborn. Any Common shareholder may become a party to the agreement by depositing his shares thereunder. Shares may be deposited by delivering the same endorsed in blank to B. M. C. Durfee Trust Co., in Fall River, or Boston Safe Deposit & Trust Co. in Boston, Mass. Upon deposit of shares duly endorsed as aforesaid, the agent of the trustees will issue a Common stock trust Ctf. or Ctfs., representing the same number of shares and registered in the same name as the shares deposited. These stock trust Ctfs. may be transferred, sold or pledged in the same manner as the stock Ctfs. held.

Dividends—1880 to 1898, 6%; 1899 to 1906, 7%; 1907 to date, 8%; payments quarterly, J, A, J & O. An extra dividend of 1% (25 cts.) was paid Jan. 3, 1927.

THE CONNECTICUT COMPANY

History—Incorporated in Conn. to operate the electric railways in Conn. previously controlled by the Consolidated Railway Co. That company was on May 31, 1907, legally merged in the New York, New Haven & Hartford R. R. Co., and its bonds and those of its constituent companies were assumed by the "New Haven" company (see details under the statement of that company in the Steam Railroad Volume).

On June 30, 1909, absorbed the Columbia Traction Co., and on Feb. 28, 1910, purchased and absorbed substantially all the various street railway properties in the State of Connecticut of the New York, New Haven & Hartford R. R. Co.

In March, 1910, the Housatonic Power Co. took over all the gas, water and electric light interests of the New York, New Haven & Hartford R. R., located in Connecticut.

The lines owned and operated, including those leased from the Connecticut Ry. & Lighting Co. and West Shore Ry. Co., cover virtually the entire State of Connecticut, serving the following cities and towns: Cities of New Haven, Hartford, Bridgeport, Waterbury, Meriden, New Britain, Middletown, Stamford, Norwalk, Rockville, Derby, Shelton, Ansonia, New London, Norwich, Willimantic, Milford, and towns of East Haven, Branford, North Haven, Wallingford, Hamden, Orange, Southington, Plainville, Farmington, Portland, Middlefield, Cromwell, Rocky Hill, Wethersfield, West Hartford, Bloomfield, Windsor, Stafford, East Hartford, East Windsor, South Windsor, Manchester, Vernon, Glastonbury, Greenwich, Stratford, Huntington, Fairfield, Westport, Darien, Naugatuck, Watertown, Middlebury, Thomaston, Torrington, Winchester, Beacon Falls, Seymour, Che-

NEW YORK POWER AND LIGHT CORPORATION

(Controlled by Mohawk Hudson Power Corporation)

History and Property—Incorporated in Oct., 1927 in New York, as a consolidation of the Adirondack Power & Light Corporation, Troy Gas Company, Cohoes Power and Light Corporation, Municipal Gas Company of the City of Albany, Fulton County Gas and Electric Company, and Adirondack Electric Power Corporation (see statement of these Corporations in the 1927 Public Utility Volume, pages 661 to 669). Also acquired the electric and gas property formerly owned by the Eastern New York Utilities Corporation.

Basis of Exchange of Stock—The manner of distributing the shares of the new consolidated corporation among the stockholders of the constituent corporations was as follows:

Each holder of one share of 8% Pfd. stock of Adirondack Power & Light Corp. received one share of the 8% Pfd. stock of the new consolidated corporation.

Each holder of one share of 7% Pfd. stock of Adirondack Power & Light Corp. received one share of the 7% Pfd. stock of the new consolidated corporation.

Each holder of one share of $6 Pfd. stock of Adirondack Power & Light Corp. received one share of the $6 Pfd. stock of the new consolidated corporation.

Each subscriber to one share of the $6 Pfd. stock of Adirondack Power & Light Corp. received one share of the $6 Pfd. stock of the new consolidated corporation on payment in full of the subscription price for such $6 Pfd. stock of Adirondack Power & Light Corp.

Each holder of one share of Com. stock of Adirondack Power & Light Corp., other than Municipal Gas Co., received ½ share of the $6 Pfd. stock of the new consolidated corporation.

Each holder of one share of the capital stock of Troy Gas Co., other than Municipal Gas Co., received one share of the $6 Pfd. stock of the new consolidated corporation.

Each holder of one share of Pfd. stock of Adirondack Electric Power Corp., other than Adirondack Power & Light Corp., received one share of 7% Pfd. stock of the new consolidated corporation.

Each holder of one share of the Com. stock of Adirondack Electric Power Corp., other than Adirondack Power & Light Corp., received ½ share of the $6 Pfd. stock of the new consolidated corporation

Each holder of one share of the capital stock of Municipal Gas Co. of Albany received one share of the Com. stock of the new consolidated corporation.

Subsidiaries—Company controls Blue Hill Light and Power Corporation, Port Henry Heat, Light and Power Company and Adirondack Realty Holding Corporation, through ownership of Common stock. During January, 1928, Company acquired the stock of Ridgefield Electric Co., and Washington Electric Light & Power Co., both of Connecticut and the stock of Granville Electric Co. (Vermont) and Spring Brook Power Co. in New York.

Property, Etc.—The territory served includes the following communities: Albany, Troy, Schenectady, Amsterdam, Watervliet, Oneida, Cohoes, Saratoga Springs, Glens Falls, Gloversville and Hudson, N. Y. In addition, electric service is supplied in 158 other cities and towns and gas service in 19 cities and towns. Power is also sold under long term contracts to distributing companies and to electric railways in the vicinity. Estimated population served, 750,000.

The generating capacity of the Company's electric plants is 275,080 k.v.a., and gas plants have a daily capacity of 23,750,000 cu. ft. Electricity is transmitted over a comprehensive inter-connected system of high-tension lines aggregating more than 800 miles. Distribution is through 12,700 miles of lines to 168 communities.

Franchises—Of the total number of electric and gas franchises over 85% are unlimited as to duration; in the thirteen largest cities, which include nearly 70% of the population served, all of the electric franchises and all but three of the gas franchises are without limit as to duration; of the remaining franchises in system the great majority run for long periods of time.

Control—Company is controlled through ownership of its entire Common stock by the Mohawk Hudson Power Corporation.

Provisions of Issue—Authorized amount unlimited; issued, $7,000,000 5½s, of which $227,000 redeemed to Dec. 31, 1927.

Additional bonds may be issued under this mortgage in one or more series, in such amounts, and bearing such rates of interest and having maturity dates, and such other provisions within the limitations of the mortgage as the directors may from time to time determine. Additional bonds of the present series, as well as bonds of any other series subsequently authorized, may be issued only for the purposes and under the restrictions provided in the mortgage, which include the following:

(a) To refund in whole or in part at or before maturity an equal principal amount (1) present underlying bonds outstanding; (2) bonds of this or other series issued under this mortgage; (3) underlying bonds secured by closed mortgage or mortgages on property hereafter acquired by the company.

(b) For not in excess of 75% of the cost or fair value, whichever is less, of physical plants or properties hereafter acquired by the company, and of permanent additions, extensions, betterments and improvements to the property of the company, now owned or hereafter acquired, provided that net earnings of the company for the twelve consecutive calendar months out of the fifteen next preceding calendar months, shall have been not less than 1¾ times the annual interest charges on all First & Refunding Mtge. bonds and underlying bonds then outstanding together with those proposed to be issued.

The mortgage contains provisions permitting the modification or alteration thereof or of any Supplemental Indenture in any particular, with the assent of the company and of the holders of not less than 85% of the aggregate principal amount of outstanding bonds not including any bonds owned by the company; provided that any such modification or alteration shall not permit (a) the extension of the maturity of any bonds or the reduction in rate of interest thereof, or any other modification in the terms of payment without the consent of the holder thereof, or (b) the creation of any mortgage lien ranking prior to or on a parity with the lien of the First & Refunding Mortgage as to any property covered thereby.

Callability—Subject to call as a whole or in part and for the sinking fund on any interest date at not less than 30 days' notice at a premium of 6% on or before Feb. 1, 1934; thereafter at a premium of 5% on or before Feb. 1, 1944; said premium to be reduced by ½ of 1% commencing Aug. 1, 1944, with a like additional reduction commencing on Aug. 1 of each year thereafter, the bonds being redeemable at par on Aug. 1, 1953; in each case with accrued interest.

Sinking Fund—A sinking fund is provided, beginning Nov. 1, 1924; payable semi-annually on May and Nov. 1, of a sum equal to ½ of 1% of the total amount of bonds of this series outstanding, the monies to be applied to the purchase and cancellation of bonds of this series at or below the redemption price existing at the next ensuing interest date, or, if not so purchasable, to their call by lot at such redemption price on such interest date. All bonds so purchased or redeemed by the sinking fund are to be cancelled.

Security—A first mortgage on all property, subject to $5,000,000 underlying (closed) mortgage bonds.

Legal Opinion—Morgan, Lewis & Bockius, Philadelphia.

Legal for Savings Banks in Maine.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to refund the Pennsylvania State tax not exceeding four mills on bonds held by residents of Pennsylvania; the State tax in Connecticut up to four mills annually; the Maryland Security tax not exceeding 4½ mills per annum; and the Massachusetts Income tax not exceeding 6% per annum on income derived from the bonds; but will not refund more than one such State tax on the same bond for the same year.

UTICA GAS AND ELECTRIC COMPANY

(Controlled by Mohawk Hudson Power Corporation)

History and Properties—Incorporated May 10, 1902, in New York State, as a consolidation of the Equitable Light & Power Co. Subsequently merged various other companies (see 1926 Public Utility Manual, page 1619). In 1926, merged Central New York Power Co., Canastota, N. Y., and Newport Electric Light & Power Co. The Company does the entire gas business and practically all the electric business in Utica, Little Falls, Ilion, Herkimer, Mohawk, Frankfort, and numerous towns and communities. It serves with electricity only, Newport, and many other places in the upper Mohawk valley. Is interconnected with New York State Gas & Electric Co., Northern New York Utilities Corp. and New York Power & Light Corp. (the latter also a unit in the Mohawk Hudson System).

The company owns generating plants with 82,200 k.w. capacity of which 32,200 k.w. is in hydro plants and 50,000 k.w. in steam plants. The Harbor Point steam plant with 30,000 k.w. capacity was completed in 1926. The plants and their capacities are as follows:

Hydro Plants:	Trenton Falls	28,800 k.w.
	Dolgeville	1,900 "
	Little Falls	1,200 "
	Newport	300 "
Steam Plants:	Harbor Point	30,000 "
	Washington Street	20,000 "

The company's gas manufacturing plants have an aggregate daily manufacturing capacity of 9,500,000 cu. ft., of which total 3,000,000 cu. ft. is represented by a plant completed in 1926.

OTTAWA LIGHT, HEAT AND POWER COMPANY, LIMITED

History—Incorporated May 28, 1906, by Letters Patent, Dominion of Canada, as the Consolidated Light, Heat & Power Co.; name changed to present title on June 14, 1909. Owns the entire capital stock of the Ottawa Electric Co., and the Ottawa Gas Co., except directors' qualifying shares. One share of stock of the Ottawa Light, Heat & Power Co., Ltd., was given in exchange for one share of either the Electric Co. or the Gas Co.

The Ottawa Electric Co. supplies electric light and power in Ottawa, Hull and vicinity and owns three hydro-electric plants having an aggregate installed capacity of nearly 13,000 h. p. and a steam plant of 6,300 h.p.; also purchases under a 10-year contract a minimum of 15,000 h.p. The Ottawa Gas Co. does the entire gas business in Ottawa and vicinity. See appended statements.

The subsidiary operating companies are incorporated by special Acts of the Dominion Parliament, under which they are vested with valuable franchises which are without time limit. The Companies operate without competition except for a municipally owned electric distributing system which owns no generating station and purchases its power wholesale.

CAPITAL STOCK

Authorized, $10,000,000 (increased from $5,000,000 Nov. 10, 1927); outstanding, $3,500,000 Common and $1,500,000 6½% cumulative Pfd.; par, $100.

Preferred Stock Provisions—Preferred shares have preference for assets and dividends. They carry voting power and are redeemable, in event of liquidation or voluntary winding-up, at 100 and accrued dividend, or at option of the Company, on any dividend date on 60 days' notice, at 105 and accrued dividend.

Transfer Agent—National Trust Co., Ltd., Montreal.

FUNDED DEBT

$3,225,000 5% REFUNDING MORTGAGE AND COLLATERAL TRUST SINKING FUND GOLD BONDS, SERIES "A;" DUE OCTOBER 1, 1957

Dated October 1, 1927.

Interest Payable April and October 1 in Canadian gold coin or its equivalent at the Bank of Montreal, Ottawa, Montreal, Toronto, Winnipeg, Vancouver, Quebec, Halifax and St. John; in United States gold coin, or its equivalent, at the agency of the Bank of Montreal, New York, or in pounds sterling at the Bank of Montreal, London, England, at the rate of $4.86 2/3 to £1.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—The Royal Trust Co., Montreal, Que.

Provisions of Issue—Authorized, $6,000,000; issued, $3,225,000. Of the unissued bonds, $775,000 principal amount are being held in escrow to retire bonds of subsidiaries at maturity. The remaining $2,000,000 principal amount may be issued from time to time for the corporate purposes of the Company in the discretion of its directors when secured by pledge and deposit of bonds of subsidiary companies, as more fully stated in the Trust Deed. Further bonds in addition to the $6,000,000 principal amount now authorized may be issued from time to time but only for principal amounts not exceeding 75% of the cost or fair value, whichever is less, of additional physical properties of a permanent nature acquired or constructed by the company or either subsidiary (in which latter case bonds of such subsidiary company of a fixed principal amount at least equal to the principal amount of the Refunding Mortgage and Collateral Trust Sinking Fund Gold bonds proposed to be issued must be deposited with the Trustee as additional collateral security for the said Refunding Mortgage and Collateral Trust Gold bonds) subsequent to the date of the last issue of the additional $2,000,000 of bonds above referred to, and then only when the consolidated net earnings as defined in the Trust Deed shall have been at the rate of not less than 1½ times the annual interest charges on bonds then outstanding and on those proposed to be issued.

Purpose of Issue—Proceeds were used in the retirement of 6% Refunding Mortgage and Collateral Trust Bonds due 1953 of the Ottawa Light, Heat & Power Co., Ltd. and 6% Refunding Mortgage bonds due 1939 of The Ottawa Gas Co.; toward the funding of capital expenditures already made or incurred, including the cost of a ten-story modern stone, brick and concrete office building, a new sub-station and other additions and equipment; and the balance for the corporate purposes of the Company.

Callability—Subject to call as a whole or in part, on any interest date, at 105 up to and including Oct. 1, 1932; thereafter at 104 up to and including Oct. 1, 1937; thereafter at 103 up to and including Oct. 1, 1942; thereafter at 102 up to and including Oct 1, 1947; thereafter at 101 up to and including Oct. 1, 1952; thereafter at par until maturity; in each case with accrued interest to date of redemption.

Sinking Fund—Company shall pay to the Trustee as a cumulative annual sinking fund for the redemption of First Mortgage bonds on the first day of October in each year, commencing Oct. 1, 1928, a sum equal to 1% of the aggregate principal amount of bonds previously issued under this mortgage, together with a sum equal to the interest on bonds previously redeemed through the sinking fund or otherwise. The sinking fund is to be used by the Trustee for the purchase of bonds in the open market. Should sufficient bonds not be so acquired, the Trustee shall call bonds to exhaust the sinking fund at the redemption price then in effect.

Security—These bonds are the direct obligation of the Company and are secured by a specific mortgage and pledge of all the Company's holdings of bonds and shares of its subsidiaries as follows: The entire issued capital stock of The Ottawa Electric Co., amounting to $3,000,000, and of The Ottawa Gas Co., amounting to $2,000,000 (except directors' qualifying shares); $3,182,500 of The Ottawa Electric Co.'s 5% Refunding and General Mortgage Bonds due 1957, and $878,800 of The Ottawa Gas Co.'s 5% General & Refunding Bonds due 1957. These bonds are also secured by fixed and specific mortgage and charge on all real, immovable and leasehold properties which may be acquired by the Company and all additional bonds and other securities and shares of stock of the subsidiary companies and of any other companies which may hereafter be owned or controlled by the Company, and by floating charge on all other assets of the Company, both present and future. The Company covenants that so long as any of these bonds are outstanding, it will not permit the Ottawa Electric Co. and/or The Ottawa Gas Co. (1) to issue any additional capital stock without providing for its deposit as additional security for these bonds; and (2) to create any bonds, debentures, notes, or other se-

curities secured by mortgage, lien or charge upon their respective undertakings, properties and assets except to the Ottawa Light, Heat & Power Co., Limited, and that it will forthwith deposit any such securities with the Trustee to be held as security for these bonds from time to time issued under the provisions of the Trust Deed.

Legal Opinion—Geo. F. Henderson, Esq., K. C., Ottawa (for the Company) and Victor E. Mitchell, Esq., K. C., D. C. L., Montreal (for the Bankers).

Original Offering—First publicly offered ($3,225,000) in Nov., 1927, at 99 and interest to yield over 5.05% by Royal Securities Corp., Ltd., Montreal, Toronto, New York., etc.

THE OTTAWA ELECTRIC COMPANY

(Controlled by Ottawa Light, Heat and Power Company, Limited)

History and Properties—Incorp. in July, 1894 in Can.; consolidation of the Ottawa Electric Light Co., Chaudiere Electric Light & Power Co., and the Standard Electric Co. of Ottawa. **Franchise**, perpetual, except for a municipally owned electric distributing system. The Ottawa Electric Co. supplies electric light and power in Ottawa, Hull and vicinity.

Practically the entire power requirements of Company are generated by hydro-electric plants located at the Chaudiere Falls of the Ottawa River, only a short distance from the business centre of Ottawa. The development of the Chaudiers Falls in the City of Ottawa is controlled jointly by four users of power therefrom and the right to use the water in proportion to the individual developments is leased from the Government at a nominal price. The Ottawa Electric Company controls over 30% of the power developed from this source.

Company's three hydro-electric plants have an aggregate installed capacity of nearly 13,000 h. p. Two of the plants are located on crown lands held by the Company under renewable leases and the third upon land held by Company under a lease which does not expire until 1992. The Company also owns a modern steam-power station of 6,300 h. p. installed capacity which is held for reserve purposes and is only operated

in case of shortage of water or other emergency. In addition, the Company purchases under contract a minimum of 15,000 h. p. and surplus power from other local producers.

The overhead electrical distribution system includes approximately 1,150 miles of wire and the underground system consisting of about 18.2 miles of conduit extends throughout the business district of the city.

Company also owns real estate in the centre of the business district of the city, including a modern nine story office building in which are located the offices of the Company.

Current is distributed to more than 25,000 customers including the Canadian Pacific Railway, the Canadian National Railways and Dominion Government buildings.

THE NORTHERN CONNECTICUT POWER COMPANY

History—Incorporated in Connecticut and pursuant to the provisions of the Agreement of Merger and Consolidation, dated January 29, 1926, and filed in Connecticut on April 1, 1926, merged The Connecticut River Company (see 1925 Manual, page 190), The Northern Connecticut Light and Power Company (see 1925 Manual, page 304), The Thompsonville Water Company (see 1925 Manual, page 435), The Stafford Springs Aqueduct Company (see 1925 Manual, page 435), and The Somers Electric Company.

Prior to the consolidation, The Northern Connecticut Power Co. acquired $91,900 7% Pfd. stock, $251,100 6% Pfd. stock, and $134,600 Common stock of The Northern Connecticut Light & Power Co.; all the 250 shares of no par value Common stock of The Somers Electric Co.; and $150,000 7% Pfd. stock and all the $500,000 outstanding Common stock of The Connecticut River Co. The necessary funds to provide for the purchase of these stocks were obtained through the issue of $1,100,000 First and Refunding Mortgage 5½% Gold bonds, due 1946.

The Connecticut River Co. prior to consolidation, acquired $115,400 Common stock of The Northern Connecticut Light and Power Co. and also called for payment its own outstanding First Mortgage 6% Gold bonds, due Jan. 15, 1934.

The Somers Electric Co. prior to consolidation, acquired $149,750 Common stock and $34,150 6% Pfd. stock of The Thompsonville Water Co. and also all the $50,000 Common stock and $48,800 6% Pfd. stock of The Stafford Springs Aqueduct Co.

The outstanding Pfd. stocks of The Northern Connecticut Light and Power Co., The Connecticut River Co., The Thompsonville Water Co. and The Stafford Springs Aqueduct Co., (not held by the constituent companies) were called for redemption, The Light Company Preferred stock (both classes) at $110 per share and accrued dividends, The River Company, Pfd. stock at $105 per share and accrued dividends, and The Water Company and The Aqueduct Company Pfd. stocks at $30 per share and accrued dividends.

The holders of the Common stock of The Thompsonville Water Co. received three shares of Common stock of The Northern Connecticut Power Co. for each share held.

The Northern Connecticut Power Co. assumed the $247,000 outstanding First Mortgage Sinking Fund 5% Gold bonds of The Northern Connecticut Light & Power Co.

The Northern Connecticut Power Co. owns and operates properties which supply electric light and power, water and gas to a territory situated on both sides of the Connecticut River between Hartford, Conn., and the Massachusetts line, serving an estimated population of about 40,000. In addition to its developed properties, Company owns water rights, franchises and necessary adjacent lands for hydro-electric development of the Connecticut River in the vicinity of Windsor Locks, Conn., making possible the future installation of 34,000 h.p. additional capacity.

The gas properties consist of about 56 miles of mains with necessary storage tanks and other equipment for the distribution of gas which is purchased from the Springfield Gas Light Co. and The Hartford Gas Co.

During September 1927, the Connecticut Public Utility Commission authorized the acquisition by Company of the Windsor Locks Water Co.

The water properties consist of 7 reservoirs and 3 tanks with storage capacity of 70,350,000 gallons and 62.3 miles of mains.

Business—The number of meters, Dec. 31, 1927, was 9,973 (6,035 electric and 3,938 gas), compared with 9,347 (5,585 electric and 3,762 gas) in 1926. Number of water customers Dec. 31, 1927, 3,160. Sales for the year ended Dec. 31, 1927, were 88,807,700 cu. ft. of gas, 4,451,753 k. w. h. of electricity and 264,475,050 gallons of water.

CAPITAL STOCK

Authorized, 25,000 shares Common of no par value and 12,000 (increased from 10,000 shares in Sept. 1927) shares $6.50 cumulative Pfd. of no par value; outstanding, Dec. 31, 1927, 25,000 shares of Common and 10,629 shares of Pfd. Pfd. stock has preference for dividends and assets and in dissolution or liquidation is entitled to receive $100 per share and accrued dividends; it is subject to call as a whole or in part on any dividend date upon 30 days' notice at $105 per share and accrued dividends.

Preferred Stock Offered—10,000 shares $6.50 cumulative Pfd. stock of no par value were publicly offered in June, 1926, at $98½ and dividend, to yield about 6.60%, by E. H. Rollins & Sons, and J. G. White & Co., Inc., New York, etc. During October 1927 Company offered and sold to customers 1,000 shares of Pfd. stock at $100 per share.

Annual Meeting—Third Friday in October.

Dividends—Initial quarterly dividend of $1.62½ on Pfd. stock was paid July 1, 1926, which quarterly rate paid to date. On Common $1 per share was paid in 1927. Payments on both classes last days of M, J, S & D.

THE AMERICAN SUPERPOWER CORPORATION

(Of Delaware)

History—Incorporated Oct. 26, 1923, in Delaware, with broad powers to acquire and hold securities of electric power and light and other companies, to construct, operate or lease power stations and transmission lines and to act as fiscal agent for electric power and light properties.

The Corporation has acquired as diversified permanent investments common stocks of a number of successful and progressive companies in the electric light and power business. The primary source of its earnings is the dividends on these stocks. In addition, it has received fees in connection with the underwriting of offerings of additional stocks of certain of the companies in which it is interested, and has sold at substantial profits certain of its holdings. While the corporation is not limited as to the character of the investments that it may make, it is primarily interested in the development of the electric power and light industry.

Holdings—The American Superpower Corporation owns (Jan. 23, 1928) substantial interests in the following companies.

American & Foreign Power Co., Inc.
American Gas & Electric Co.
American Power & Light Company.
Brooklyn Edison Company, Inc.
Columbia Gas & Electric Corp.
Commonwealth Power Corporation.
Consolidated Gas Electric Light & Power Co. of Baltimore.
The Detroit Edison Company.
Electric Bond & Share Securities Corp.
Electric Power & Light Corporation.
Penn-Ohio Edison Co.
Penn-Ohio Securities Corp.
Public Service Corporation of N. J.
Southeastern Power & Light Company.
The United Gas Improvement Co.
The United Light and Power Company.
United Illuminating Co. (of New Haven).
Utility Shares Corp.
Waterbury Gas Light Co.

It also has holdings in several other companies.

CAPITAL STOCK

Authorized, 1,000,000 shares (no par value) Common stock Class "A," 1,500,000 shares (no par value) Common stock Class "B," 400,000 shares (no par value) $6 cumulative First Pfd. stock (no par value) and 400,000 shares (no par value) $6 cumulative Preference stock. To be outstanding upon completion of changes in capitalization including those to be voted on April 16, 1928, 521,862 shares Class "A" Common, 814,188 shares Class "B" Common, 250,000 shares First Preferred and 267,210 shares Preference stock.

Class "A" and Class "B" Common stocks are alike in all respects except that the Class "B" stock has the sole voting power.

Stock Increase—At general meeting of stockholders on March 9, 1928, an increase in the Class "A" stock from 600,000 to 1,000,000 shares was authorized and an increase in First Preferred stock from 200,000 to 400,000 shares.

Participating Preferred Stock Redemption—All the $6,847,950 7% cumulative Participating Preferred stock was called for payment on April 16, 1928 at $30 per share (par value $25 per share) and accrued dividends

Subscription Privilege—To obtain the funds necessary for the retirement of the Participating Preferred stock each Common stockholder (both Class "A" and Class "B") of record February 20, 1928, was given the right to subscribe for new Class "A" Common stock to the extent of one-fourth of his holdings of Common stock at a price of $33 per share. Right expired March 6, 1928. Offering was underwritten.

New Preference Stock—Common stockholders at the annual meeting on April 16, 1928, will be asked to authorize the creation of a new class of Preference stock, junior to the First Preferred stock, which shall bear cumulative dividends at rate of $6 per share per annum and be callable at $107.50 per share. Directors propose then to forthwith distribute approximately 267,210 shares of such stock to the Common stockholders pro rata on the basis of one share of Preference stock for each five shares of Common stock, Class "A" or Class "B." The new Common stock subscribed for on or before March 6, 1928 will receive its pro rata share of Preference stock.

First Preferred Stock Provisions—This stock is entitled to cumulative dividends of $6.00 per share per annum payable quarterly. Preferred as to dividends and assets over any other stock of the Corporation. Redeemable as a whole or in part, at the option of the Corporation at any time upon sixty days' notice at $110 per share and accumulated dividends. Upon dissolution or liquidation, whether voluntary or involuntary, the First Preferred stock shall be entitled to receive out of the assets of the Corporation $100 per share and accumulated dividends before any payments are made to any other stock of the Corporation. The First Preferred stock has no voting power except upon failure of the Corporation to pay when due four successive quarterly dividends, in which case entire voting power rests in the First Preferred stock so long as such failure to pay dividends continues; but such voting power ceases upon subsequent payment by the Corporation of all such accumulated and unpaid dividends, subject, however, to renewal on similar failure to pay dividends.

Transfer Agent (All Classes)—Central Union Trust Co. of New York.

Registrar (All Classes)—New York Trust Co., New York.

Legal Opinion (First Pfd. stock)—Winthrop & Stimson, New York.

FUNDED DEBT

(1)

$3,400,000 FIRST MORTGAGE COLLATERAL GOLD BONDS, 25-YEAR 5½% SERIES OF 1928; DUE FEBRUARY 1, 1953

Dated February 1, 1928.

Interest Payable February and August 1 at Illinois Merchants Trust Co., Chicago, or at The Chase National Bank of the City of New York.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—Illinois Merchants Trust Co., Chicago, Ill.

Provisions of Issue—Authorized amount, not limited; issued, 25-Year 5½% Series of 1928, $3,400,000. Additional bonds may be issued in one or more series with interest rates, maturity dates, redemption fund provisions and other terms and conditions to be determined as new series are created. Additional bonds may be issued par for par against the deposit with the Trustee of First Mortgage bonds of subsidiary corporations which have been issued for not more than 80% of the cash cost or fair value, whichever is less, of additions, extensions and improvements to the properties of such subsidiary corporations. Such additional bonds may only be issued, however, when consolidated net earnings, as defined in the Trust Indenture, for twelve consecutive calendar months within the fifteen calendar months immediately preceding the application for issuance of such additional bonds shall be equal to at least twice the interest requirements for one year on all outstanding bonds and those proposed to be issued.

Purpose of Issue—Proceeds of these bonds provided part of the purchase price of the capital stock and funded debt of subsidiary corporations acquired by National Gas & Electric Corp. or was used to reimburse the Corporation for expenditures made for such purposes, or applied to other corporate requirements.

Callability—Subject to call in whole or in part at any time on 60 days' notice at 105 during the years 1928 to 1932, inclusive; 104 during the years 1933 to 1937, inclusive; 103 during the years 1938 to 1942, inclusive; 102 during the years 1943 to 1947, inclusive; 101 during the years 1948 to 1951 inclusive and 100 thereafter; accrued interest to be added in all cases.

Sinking and Improvement Fund—Beginning Jan. 1, 1930, the Trust Indenture provides for a Sinking and Improvement Fund which will require the payment by the Corporation annually of a sum equal to not less than 1% of the greatest principal amount of 25-Year 5½% Series of 1928 bonds at any time outstanding, such sum to be applied, at the Corporation's option, (1) to the purchase of bonds of this series at not exceeding their prevailing call price or to their retirement by call at that price, or (2) to investment in permanent additions, extensions and improvements to the Company's property and/or to the property of any subsidiary, the amount so invested to be certified to the Trustee, but such additions, extensions and improvements not to be the basis for the issuance of additional bonds.

Maintenance, Renewal and Depreciation Reserve—The Corporation covenants to cause each subsidiary company to create a maintenance, renewal and depreciation reserve and to credit yearly to such reserve at least 10% of the gross operating revenues of each manufactured gas and water company, and 12½% of the gross operating revenue of each electric light and power property, natural gas property and other public utility properties. All expenditures for maintenance and renewals will be charged to such accounts and any portion of such accounts not exhausted by such charges will be credited to depreciation reesrve.

Security—Secured by deposit and pledge with the Trustee of First Mortgage bonds of subsidiary companies, which have been approved by the regulatory bodies in the various states wherever required and which constitute the entire funded debt of such companies, in an aggregate principal amount equal to at

least 100% of the total amount of First Mortgage Collateral Gold bonds outstanding. Further secured by deposit and pledge with the Trustee of the entire outstanding voting stocks, except Directors' qualifying shares, of such subsidiary companies with the exception of small minority stock interest of two subsidiaries, funds for the acquisition whereof have been placed by the Corporation in deposit. The Trust Indenture provides that no funded debt shall be sold or disposed of by any subsidiary corporation for any purpose whatsoever unless such funded debt shall be acquired forthwith by the National Gas & Electric Corp. and pledged as security for the First Mortgage Collateral Gold bonds. The Corporation also covenants that no subsidiary corporation will be permitted to incur any current liability in excess of its current assets unless such excess is acquired by the Corporation and pledged with the Trustee as security for the First Mortgage Collateral Gold bonds. Corporation also covenants that it will not acquire public utility properties other than manufactuerd gas and electric properties in excess of 30% of the fair value of the combined properties, including the properties to be acquired.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania, Vermont and Connecticut four mills taxes, District of Columbia and Michigan five mills taxes and the Massachusetts Income Tax on the interest not exceeding 6% of such interest per annum, refunded upon request within 60 days after payment.

Legal Opinion—Cutting, Moore & Sidley, Chicago (for the Bankers) and Dickinson & Smith, Chicago, (for the Corporation).

Listed—Chicago Stock Exchange.

Original Offering—First publicly offered ($3,400,000) in Feb., 1928, at 98½ and interest to yield over 5.60% by Spencer Trask & Co., New York; Nichols, Terry & Co., Inc., and William L. Ross & Co., Inc., Chicago; Fenton, Davis & Boyle, Grand Rapids, Mich., and Edgar, Ricker & Co., Milwaukee, Wis.

DUKE-PRICE POWER COMPANY, LIMITED

History and Properties—Incorporated in July, 1924, in Canada. Company has completed installation consisting of 450,000 h.p. in ten hydro-electric units of 45,000 h.p., each located in the Province of Quebec on the Saguenay River, at a point known as the Grand Discharge, about eight miles below Lake St. John. The power station building will permit the installation of another two such units making the ultimate capacity 540,000 h.p. Lake St. John, with its 385 square miles of surface area and 30,000 square miles of drainage area, forms a natural impounding reservoir which permits the storage of sufficient water to operate the plant at high capacity throughout the entire year.

The Company has 50-year power contracts which require the payment to it of $2,055,000 in 1927, $2,330,000 in 1928, $2,605,000 in 1929, and $2,880,000 in 1930 and annually thereafter. In addition, the Company has power contracts running from 10 to 25 years which require the payment to it in 1927 of approximately $800,000 and annually thereafter a minimum amount of $864,000. Any renewals or replacements of these contracts will undoubtedly be at substantially increased rates. Beyond these existing contracts, the Company will have available a substantial amount of part-time power for which there will be a demand and which at generally prevailing rates should when sold produce more than $400,000 additional annual income.

CONTRACTS

Company has firm contracts for sale of 330,000 h.p. as follows:

Company	Amount	Period
*Aluminum Company of Canada	100,000 h.p.	50 yrs.

Franchises—Original gas franchise was granted in 1816 and original electric franchise was granted in 1881. The franchises for both gas and electricity are unlimited as to time. No other company can enter the territories served without the consent of the Public Service Commission of Maryland.

Electric Properties—The Company's system includes four generating plants, viz., the large modern steam generating plants and power stations at Westport, Gould St. and Pratt St., Baltimore, and the water power development at Ilchester, Md. The equipment of these stations has an aggregate capacity in excess of 295,000 h.p. The initial unit of the new "Gould Street" pulverized fuel burning station was put into operation in December, 1926. This first unit has a capacity of 48,000 h.p. in one turbo-electric generator. The second 48,000 h.p. unit is now nearing completion. This station has an ultimate capacity of 192,000 h.p., and embodies the latest developments in steam and electric engineering. The company also has 24 sub-stations in its system including three sub-stations completed, and placed in operation in 1927.

In addition to its generating plants, the company has available a capacity of more than 100,000 h.p. from the hydro-electric development of Pennsylvania Water & Power Co. at Holtwood, Pa., on the Susquehanna River, 40 miles from Baltimore, and, by a long-term contract, has the exclusive use of the output of this development in the State of Maryland including the supply of all power used by the street railways system of Baltimore and vicinity. This supply of hydro-electric power (supplemented with steam-electric power) has resulted in economies in operation and insures uninterrupted service and continuous current throughout the entire system.

Gas Properties—The manufacture of gas is at present concentrated at the company's Spring Gardens plant, which has a daily capacity of 67,000,000 cu. ft. This plant occupies a tract of 57 acres of land provided with both railroad and deep-water facilities. The equipment here is of modern Lowe carburetted water gas type apparatus, and the buildings are of brick and steel. The works have ample capacity, and are equipped with reserve generators. The company also has an advantageous contract under which it purchases by-product coke oven gas from the Maryland plant of the Bethlehem Steel Co. for a substantial part of its output. The gas distribution system is in excellent condition, only about 3% of the total output being unaccounted for.

or before Jan. 10, 1927; or $10 a share with subscription and $25.26 a share on Feb. 15, 1927; or $10 a share with subscription, $10 a share on Feb. 15, 1927 and $15.34 a share on March 10, 1927. Under the second and third methods, adjustment was made for the allowance of interest and the accrual of dividend. In April, 1927, employees subscribed for 31,361 shares Common stock, including 1,361 of the 84,155 above mentioned, at $40 per share, on installment payment basis.

Preferred Stock Provisions—Has preference as to assets and dividends and is subject to redemption, the Series "D," Series "E" and 5% Series "A" at $110 per share and accrued dividends. By sole vote of the Common stock, any authorized but unissued Pfd. stock may be classified or reclassified into one or more series, which may differ from existing series in the following but no other respects: (1) the rate and/or payment periods of the fixed preferential dividends thereon, (2) convertibility into other stocks, bonds or securities, (3) prices and times, if any, of redemption, and (4) participation, if any, in dividends in excess of the fixed preferential dividends thereon or in distribution of assets in excess of the fixed preferential distribution thereof. The Board of Directors may classify or reclassify authorized but unissued Pfd. stock into series which may differ from existing series only in the first three respects above mentioned.

Pfd. stock shall have no voting powers except that (a) Pfd. stock shall have full voting powers (one vote for each share of Common and four votes for each share of Pfd.) with respect to any proposed amendment of charter of Company (except amendments reclassifying authorized but unissued Pfd. stock), any proposed consolidation, sale, lease or exchange of all the Company's property and assets as an entirety, including its good will and franchises, or any proposed dissolution, and no such amendment, consolidation, etc. shall be made without consent of two-thirds of all shares of Pfd. stock outstanding, and (b) whenever Company shall fail to pay full dividends on Pfd. stock and such failure shall continue for one year, the Pfd. stock shall then have full voting powers (one vote for each share of Common and four votes for each share of Preferred) until all such dividends have been paid in full, when sole voting power reverts to Common. At no time shall Pfd. stock be issued and outstanding as to number of shares in excess of ¼ the number of shares of Common stock issued and outstanding and not held or owned by Company. Pfd. stock may be issued in different series, the fixed preferential dividends upon which shall in no case exceed 8% per annum. At no time shall any Pfd. stock be issued unless net earnings over and above operating expenses (including allowance for depreciation and other reserves), fixed charges and any other deductions from or charges against income ranking prior to dividends on Pfd. stock, for 12 successive calendar months ending within the 60 days immediately preceding such issuance of Pfd. stock, shall have been at least twice the annual dividend requirements of Pfd. outstanding and that proposed to be issued.

Public Offering—Series "D" 6% Pfd. stock first publicly offered ($1,000,000) in June, 1925, at 100½ and dividend to yield 5.97%, by Spencer Trask & Co., New York, etc., and Chase & Co., Boston. Since February, 1927, $1,741,300 additional Series "D" has been sold by the Company at prices ranging from 105 to 111. $2,151,800 Series "E" 5½% Pfd. stock has been sold by the Company since Nov. 1, 1927 at prices ranging from 100 to 106. In addition $732,000 Series "A" bonds, $1,000 Series "E" bonds, $36,000 Series "F" bonds, and $467,500 bonds of a retired series, have been cancelled by sinking fund.

Of the remaining authorized bonds, $28,073,000 are reserved to refund underlying issues, $5,407,500 Series "F" bonds are held by the Trustee and are issuable at any time upon application to and authorization from the Public Service Commission of Maryland, and $35,025,500 may be issued for additions and improvements to the properties (and, to a limited extent, for the acquisition of additional securities or stocks of controlled companies) at a rate not exceeding 80% of the cost of such additions, improvements or securities.

The Series "A" bonds were issued, $10,000,000 to retire two short term note issues of $5,000,000, each due Aug. 1, 1922. Subsequent to the sale of the bonds, $1,263,000 additional were issued in conversion of a like par value of one of these note issues, thus releasing that sum of cash for additions and extensions to property. The $5,000,000 Series "E" bonds were issued to provide a portion of the funds required by the redemption on Dec. 1, 1922, of $5,000,000 Series "B" 7½% bonds at 110 and interest.

Of the $16,000,000 Series "F" bonds, $9,000,000 were issued to provide funds to refund $8,532,500 Series "D" 6½% bonds, which were called for payment at 110 and interest on Aug. 1, 1925, and for additions and extensions to property, and $7,000,000 to provide for the redemption of entire issue of Baltimore Electric Co. of Balto. City 5% bonds, due June 1, 1947, and entire issue of 5% Preferred stock of that Company, and for additions and extensions to property.

Callability—Series "A" bonds are subject to call as a whole or in part upon sixty days' notice at 107½ prior to Feb. 1, 1929, at 105 during the next 15 years and at 102 during the last 5 years before maturity with accrued interest in each case.

Series "E" bonds are subject to call as a whole or in part upon sixty days' notice at 107½ on or prior to Sept. 1, 1932, at 105 during the next 10 years and at 102½ during the last 10 years before maturity with accrued interest in each case.

Series "F" bonds are subject to call as a whole or in part at any time on 60 days' notice at 105 on or prior to June 1, 1935, at 104 during second 10 years, at 102½ during third 10 years, at 101 during next 8 years and at 100 during last 2 years before maturity; plus accrued interest in each case.

Sinking Fund—Annual sinking fund equal to 1% of largest amount of bonds outstanding, during each yearly period, commenced Aug. 1, 1923; funds are to be applied to the purchase (at not more than the redemption price) or call of bonds, which bonds so acquired are to be cancelled and not reissued. $467,500 Series "D" bonds, which issue has now been fully retired, $732,000 Series "A," $1,000 Series "E" and $36,000 Series "F," or a total of $1,236,500 had been cancelled by sinking fund to March 1, 1928.

Security—A lien on entire property of Company, and through deposit under No. 5 of stock of subsidiary companies, on entire properties of such subsidiary companies, subject to the above described (Nos. 1, 2, 3, 4 and 5) prior liens. Additionally secured by deposit under First Refunding Mortgage of $1,155,000 General Mortgage 4½% bonds (No. 5).

Tax Provisions—Company pays the interest on these series without deduction for any tax or taxes not in excess of 2% of any such interest payment which it may be required or permitted to pay thereon or to retain therefrom under any present or future law of the United States or any state, county or municipality therein.

Legal Opinion—Haman, Cook, Chesnut & Markell, Baltimore (for the Company); Ropes, Gray, Boyden & Perkins, Boston, and Venable, Baetjer &

Howard, Baltimore (for the bankers), and White & Case, New York (for the Trustee).

Legal for Savings Banks in Maine, Rhode Island, New Hampshire and Vermont.

Original Offering—Series "F" bonds offered ($9,000,000) in June, 1925, at 100½ and interest, and ($7,000,000) in November, 1926, at 101½ and interest, by Alexander Brown & Sons, Baltimore, Brown Brothers & Co., Lee, Higginson & Co., Jackson & Curtis, and Spencer Trask & Co., New York.

History—Incorporated June 5, 1905, in Maryland, as Baltimore Terminal Co.; present title adopted March 31, 1911, on which date the property, rights, franchises, etc., of the former Washington, Baltimore & Annapolis Electric Ry. (sold under foreclosure March 20, 1911) were acquired (see Manual for 1910, page 2329, or apply to our Information Department), with the exception of the property of the Washington, Berwyn & Laurel Electric R. R. In Feb. 1921, the Maryland Public Service Commission approved the merger of the Annapolis Short Line R. R. Co. with the Washington, Baltimore & Annapolis Electric R. R. The transaction necessitated the divorcing of the Short Line from the other properties of the Maryland Electric Rys.; the taking over by the Washington, Baltimore & Annapolis of the total stock of the old Annapolis & Chesapeake R. R., progenitor of the Short Line, amounting to $7,000; the issuing of $1,000,000 new stock by the Short Line; an operating agreement between the Short Line and Washington, Baltimore & Annapolis for the use of the latter's tracks between Shipley's Station and Baltimore by the Short Line and finally the taking over of all the properties of the Short Line by the Washington, Baltimore & Annapolis, the latter assuming the $1,000,000 First Mortgage bonds of the Short Line. The Washington, Baltimore & Annapolis Electric R. R. Co. also assumed and guaranteed $732,000 15-year Sinking Fund bonds dated Jan. 1, 1921, and $240,000 7% Car Trust bonds dated Jan. 1, 1921, issued by the Annapolis Short Line.

Property—Line of road extends from Baltimore to Washington, with branch to Annapolis, built entirely on private right of way except in cities, where franchises extend to 1956. Also a line of railroad formerly known as the Annapolis Short Line, which is connected with the Baltimore and Washington line at Shipley, Md., running on the north side of the Severn River to Annapolis; both lines use same passenger and freight terminals at Annapolis and Baltimore. The total trackage owned is equivalent to 133 miles of single track, of which all but 1.33 miles in the streets of Annapolis and 0.872 mile in the city of Baltimore are on private right of way. The company also owns extensive freight and passenger terminals in the heart of the City of Baltimore, and passenger, freight and express terminals in Washington, D. C., and Annapolis, Md.; also a modern car barn and machine shops located at Naval Academy Junction. Enters Washington over tracks of Washington Ry. & Electric Co. Owns entire capital stock of The Annapolis and Chesapeake Bay Power Company, (see statement appended). Power purchased from Potomac Electric Power Co. Other subsidiaries are Terminal Real Estate Company and Maryland Development and Realty Company of Anne Arundel County. Population served, over 1,300,000.

Dividends—Dividends on Pfd. regularly paid; on Common, 8% each in 1924, 1925, 1926 and 1927. Payments on both classes quarterly J, A, J & O 15.

FUNDED DEBT

$500,000 FIRST MORTGAGE 5½% GOLD BONDS, SERIES B; DUE JULY 1, 1947

Dated July 1, 1927.

Interest Payable January and July 1 in Chicago or Omaha, Neb.

Denominations—Coupon, $100, $500 and $1,000, interchangeable; principal may be registered. Coupon and registered bonds interchangeable.

Trustee—Peters Trust Co., Omaha, Neb.

Provisions of Issue—Authorized amount, not limited; issued, Series "B," $500,000.

Mortgage securing these bonds provides that additional bonds of this series, or bonds of other series, maturing within 20 years from date of issue and having such other provisions as directors at the time of issuance may determine, may be issued, (a) par for par against the deposit of cash or against the deposit or discharge of underlying bonds, or to refund pay or cancel bonds of other series which may be issued under the Mortgage; (b) to the extent of 75% of the actual cost of additions and improvements, and to the extent of 75% of expenditures for/or of the fair depreciated value (whichever is less) of purchased property, as defined in the Mortgage, provided that the total amount of bonds issued under the Mortgage in respect of such purchased property, together with the principal amount of all mortgage indebtedness upon the property so acquired, outstanding in the hands of the public, shall not exceed 75% of the actual expenditures for/or fair depreciated value of such property, whichever is less. Bonds issued on account of additions or betterments or purchased property or for refunding purposes, may not be issued unless the net earnings as defined in the Mortgage, during the period of 12 months embraced within the 14 months next preceding the date of issuance, shall have been at least two times the annual interest charges on all bonds then issued and outstanding and those then proposed to be issued, and on all bonds, if any, then outstanding in the hands of the public prior in lien on any part of the property of Company or of property being acquired.

Purpose of Issue—Proceeds were used to retire the First Gold 7s of Company, due Jan. 1, 1934, to retire the 8% Pfd. stock; for partially reimbursing the Treasury for expenditures made and to be made on account of additions and improvements to the properties, and for other corporate purposes.

Callability—Subject to call as a whole or in part on 30 days' notice on any interest payment date at the following prices and accrued interest; on or before July 1, 1929, at 105; after July 1, 1929, but on or before July 1, 1938, at 104½ less ½ of 1% per annum for each full year elapsed after July 1, 1929; on and after Jan. 1, 1939 at 100.

Sinking Fund—None provided.

Maintenance and Renewal Fund—Mortgage provides that Company shall deposit with Trustee in a special trust fund on the first day of April in each year, commencing with April 1, 1928, an amount in cash equivalent to 12½% of its gross earnings from the operation of its properties during the preceding calendar year, less the amount actually expended during such year for—(a) the making of repairs, renewals and replacements; (b) the making of extensions or acquisitions of property on account of which Company would otherwise be entitled to issue additional bonds. The money so deposited may be withdrawn—(a) for the making of repairs, renewals and replacements; (b) for the making of extensions or acquisitions of property on account of which Company would otherwise be entitled to issue additional bonds; or (c) for the redemption or the purchase and cancellation at not to exceed par and interest of any bonds issued and secured by the mortgage, or of bonds or other evidence

of indebtedness secured by prior lien. After Jan. 1, 1930, the percentage of gross earnings specified in the Mortgage shall be subject to revision by agreement between Company and Trustee, as therein provided.

Security—Secured by a first mortgage on all the property, rights and franchises of the Company now owned or hereafter acquired, subject to underlying bonds, if any, on hereafter acquired property.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Exempt from Personal Property tax in Nebraska. Company agrees to refund upon application within 60 days, the present Kansas 5 mills tax to holders resident in Kansas who have paid such tax.

Legal Opinion—Chapman, Cutler & Parker, Chicago.

DUKE POWER COMPANY

History—Incorporated May 1, 1917, in New Jersey as the Wateree Electric Company; name changed to the present title Nov. 18, 1924. Company owns what was formerly known as the Southern Power System in the States of North Carolina and South Carolina, which was built up by the late James B. Duke and associates. Southern Power Company, incorporated in 1905 and Great Falls Power Company (N. J.) incorporated in 1909, were merged into the Company on Dec. 3, 1927. The Company owns the following subsidiaries:

Southern Public Utilities Company
Wateree Power Company
Western Carolina Power Company
Catawba Manufacturing & Electric Power Company
Catawba Power Company

Properties—The Company owns a group of properties furnishing the electric light and power used in the manufacturing and industrial territory in the central section of North Carolina, including Charlotte, Winston-Salem and Greensboro, and in the western section of South Carolina, including Greenville, Spartanburg and Anderson. This territory is commonly known as the Piedmont section of the Carolinas.

In addition to its physical properties the company owns, among its more important subsidiaries, all of the capital stock of the Southern Public Utilities Company.

The total population served by Duke Power System is estimated to be in excess of 1,500,000.

The plants of the Company and its subsidiaries comprise one of the largest hydro-electric power systems in the United States. These include 16 major hydro-electric generating stations and 6 steam electric generating stations with a total installed capacity of 849,905 h.p., of which 616,465 h.p. is hydro-electric and 233,440 h.p. is steam. Over 85% of this total generating capacity is directly owned by the Company. The Company, through its subsidiary, Western Carolina Power Company, is now completing a hydro-electric plant on Catawba River, known as Oxford Shoals, of a rated installed capacity of 48,300 h.p. Reservoirs on the Catawba River have an available storage capacity of forty billion cubic feet. Over 3,800 miles of equivalent three wire circuit high tension transmission lines, together with over 300 sub-stations, completely interconnect the system.

The transmission lines of the Duke Power System interconnect with the Georgia Power Company at Tallulah Falls, Ga., Tallassee Power Company at Badin, N. C., Carolina Power & Light Company at Wateree Station, S. C. and near Raleigh, N. C., and Broad River Power Company at Union, S. C. These companies are, in turn, connected with the transmission lines of all the major power companies in the states of Georgia, Alabama, Tennessee and South Carolina thus making the interchange of power possible.

SOUTHERN PUBLIC UTILITIES COMPANY

(Controlled by Duke Power Company)

History and Properties—Incorporated March 7, 1913, in Me., for the purpose of acquiring public service properties in North and South Carolina. Owns and operates electric power and lighting plants and lines, and also owns and operates gas, water works and electric street railway lines, in eighteen cities and

towns, serving a district 300 miles by 75 miles in what is known as the Piedmont section of North and South Carolina, having a population of about 180,000. The company now owns the following properties:

Charlotte, N. C.—The electric light, gas and street railway properties.

Greenville, S. C.—The electric light, gas and street railway properties.

Winston-Salem, N. C.—The electric light, and street railway properties.

Anderson, S. C.—The electric light, water and street railway properties.

Also the electric light properties in towns of Thomasville, Belmont, Mount Holly, China Grove, Bessemer City, Hickory, Paw Creek, Hoskins, and Reidsville, N. C.; and Chester, Greer, Fort Lawn, York and Clover, S. C.

The above properties were formerly owned by the following companies, all of which have ceased to operate: Charlotte Power Co., Charlotte Gas & Electric Co., Charlotte Electric Ry. Co., all of Charlotte, N. C.; Greenville Gas & Electric Light & Power Co., Greenville Traction Co., Greenville, S. C.; Fries Manufacturing & Power Co., Winston-Salem Power Co., Winston-Salem, N. C.; Anderson Water, Light & Power Co., Anderson, S. C.; Chester Power Co., Chester, S. C., and the Thornton Light & Power Co., Hickory, N. C.

The company acquired with the above properties the hydro-electric plant of the Anderson Water, Light & Power Co., situated near Anderson on the Seneca River at Portman Shoals, having an installed capacity of 12,000 h.p.; a long term lease of the Savannah Power Company's plant, situated on the Savannah River near Anderson at Gregg Shoals, having an installed capacity of 1,500 h.p.; the hydro-electric plant of the Fries Manufacturing & Power Company, situated on the Yadkin River near Winston-Salem, N. C., having an installed capacity of 1,800 h.p.; a 3,500 h.p. hydro-electric power plant on the Saluda River near Greenville and a steam plant located at Anderson, S. C., with an installed capacity of 1,300 h.p.

In Dec. 1923, purchased a new hydro-electric plant with an installed capacity of 100,000 h.p., situated at Mountain Island, near Charlotte, N. C. This plant is leased to Southern Power Co.

The Company supplies several cotton mills with power from its hydro-electric plants located near Anderson, S. C., Greenville, S. C., and Winston-Salem, N. C.

The Company purchases a large part of its power requirements from the Southern Power Co., under contract running until 1944.

The gas plants of Company have a rated daily capacity of 3,230,000 cu. ft., together with over 100 miles of gas mains in Charlotte, N. C. and Greenville, S. C. The street railway system in Charlotte, Winston-Salem, Greenville and Anderson, consists of 70 miles of track. The water works in Anderson, S. C. has 26 miles of mains.

Control—Control of the Southern Public Utilities Co. was acquired by Duke Power Company through an exchange of 1.4 shares of stock of the latter Company for each share of stock of Southern Public Utilities Co. in Nov., 1925.

CAPITAL STOCK

Authorized and outstanding, $10,827,500; par, $100. Practically all owned by Duke Power Company.

CONSOLIDATED WATER COMPANY OF UTICA, N. Y.

History—Incorporated Nov. 13, 1899, in N. Y.; consolidation of Utica Water Works Co., New Hartford Water Co., West Canada Water Co. and Whitestown Water Works Co., located in Utica, N. Y., and suburbs. Subsequently purchased the Whitesboro Water Works Co. Franchise perpetual. Population served 130,000. Storage capacity over 20,000,000,000 gallons; distribution capacity 14,000,000 gallons daily. Miles of mains, 261. Meters, 20,118. Controls practically all the available sources of water supply for the city of Utica and adjacent towns. The system is operated by gravity, making it unnecessary to maintain pumping stations.

CAPITAL STOCK

Authorized, 140,000 shares Class "A," 35,000 shares Class "B" stock, both classes of no par value, and $2,500,000 7% cumulative First Pfd. stock, par $100; outstanding, Dec. 31, 1927, 120,000 shares Class "A," 30,000 shares Class "B" and $600,000 Pfd. Transfer office, Utica, N. Y. Annual meeting, last Thursday in January.

Capitalization Changes.—Stockholders on Dec. 31, 1925, authorized the conversion of the then outstanding 5% Pfd. and Common stock into Class "A" and Class "B" stock without par value. Stockholders received four shares of Class "A" stock and one share of Class "B" stock for each share of 5% Pfd. and Common stock then held by them. The 7% Pfd. stock remained unchanged. The Class "A" stock is entitled to a cumulative preference dividend of $1.50 per share per annum, and is also entitled to share, as a class, equally with the Class "B" stock in any dividends declared after the Class "B" stock has received $2 per annum. A plan has been devised under which a limited number of Class "A" shares will be offered to all customers of Company for subscription at $25 per share.

Dividends—Dividends on Pfd. stock regularly paid quarterly, F, M, A & N 1. Initial dividend on the old $100 par Common in 1911, 1%; 1912, 2%; 1913, 1%; none in 1914; 1915, 2%; 1916, 3%; 1917, 4%; 1918, 5%; 1919, 6%; 1920, 6%; 1921, 6%; 1922, 6%; 1923, 6%; 1924, 6%; 1925, 6%. Initial dividend on Class "A" stock of 37½ cts. a share paid March 1, 1926, and at same rate since to date; payments quarterly, M, J, S & D 1.

FUNDED DEBT

(1)

$1,023,000 **First Mortgage 5s**; dated 1899; due Jan. 1, 1930; int. Jan. and July 1, at The Equitable Trust Co. of New York. Coupon (principal and interest may be registered), $1,000. New York Trust Co., Trustee. Authorized and issued, $2,500,000, of which $1,477,000 exchanged for a like amount of First Refunding Gold 5½s, Series "A" bonds, to Dec. 31, 1927. Secured by first lien on all property. First publicly offered ($2,000,000) in 1899, by Redmond & Co., New York. Company pays Normal Federal Income Tax up to 2%

(2)

$504,000 **Gold Debenture (now Second Mtge.) 5s**; dated Jan. 1, 1906; due Jan. 1, 1930; int. Jan. and July 1, at The Equitable Trust Co. of New York. Coupon, $1,000; principal may be registered. Utica Trust & Deposit Co., Utica, N. Y., Trustee. Authorized and issued, $1,500,000, of which $996,000 exchanged for a like amount of First Refunding Gold 5½s, Series "A" bonds, to Dec. 31, 1927. Secured by second mortgage on all properties. Subject to call at 105 on 60 days' notice. Company does not pay Normal Federal Income Tax.

(3)

$2,428,000 FIRST REFUNDING 5½% GOLD BONDS, SERIES "A," DUE JULY 1, 1965
$490,000 FIRST REFUNDING 5½% GOLD BONDS, SERIES "B," DUE APRIL 1, 1960

Dated April 1, 1925.

Interest Payable—On Series "A," January and July 1, and on Series "B," April and October 1, at the Citizens Trust Co. of Utica, N. Y. and The Equitable Trust Co. of New York.

Denominations—Series "A," Coupon, $1,000 only; Series "B," Coupon, $500 and $1,000. Both issues registerable as to principal.

Trustee—Citizens Trust Company of Utica, N. Y.

Provisions of Issue—Authorized amount of mortgage $10,000,000, of which $4,000,000 Series "A" 5½s, and $1,000,000 Series "B" 5½s, have been certified and authenticated. Of the Series "A" bonds $2,473,000 ($45,000 retired by sinking fund), were issued in exchange for $1,477,000 First Gold 5s, due Jan. 1, 1930, and $996,000 Gold Debenture (now Second Mortgage) 5s, due Jan. 1, 1930. The remaining $1,723,000 unissued Series "A" bonds were originally issuable in exchange for a like amount of First 5s, due Jan. 1, 1930, and Gold Debenture 5s, due Jan. 1, 1930, described above, but this privilege was withdrawn July 14, 1927. Of the Series "B" bonds $500,000 ($10,000 retired by sinking fund) were issued to refund Company's floating debt, the greater part of which was due to the cost of construction, during 1924, new 30 and 24-inch transmission mains, northerly from the city of Utica. The unissued $500,000 Series "B" 5½s may be issued for the construction of additions, etc., to the plant and property.

Additional bonds may be issued from time to time in one or more series having such maturity dates, interest rates, etc., as may be determined at the time of issue to refund bonds of Series "A" or Series "B" or any other Series issued hereunder; also for the full amount of expenditures for additions, etc., until the aggregate amount of bonds outstanding, plus the amount of prior funded debt of Company shall be twice the amount of the outstanding capital stock, but not more than $7,000,000; when bonds outstanding exceed the aforesaid amount, bonds may be issued only to the extent of 66 2/3% of the amount of such expenditures.

Callability—Subject to call in whole or in part, at 103 and accrued interest at the option of the Company on any interest date upon 60 days' published notice.

Sinking Fund—A sinking fund is provided for both Series "A" and "B" bonds on a basis of 1% per annum on all bonds ever issued. Money paid into the sinking fund shall be applied from time to time to purchase the bonds of Series "A" and "B" in the open market at a price not exceeding 103%, or applied to the redemption of bonds of such series at 103% if the company so elects.

Security—These bonds are secured by a first refunding mortgage on all the properties of the Company, including ten reservoirs and 261 miles of mains, which properties have been valued at over $10,500,000, after allowing for depreciation and obsolescence. As soon as all the First Mortgage 5s and the Debenture 5s are converted into the $4,000,000 First Refunding Mortgage 5½% 1965 Series "A," this mortgage will become a first mortgage on all property of the Company.

Legal Opinion—Miller & Hubbell (for the bankers) and Dunmore, Ferris & Dewey (for the Company).

Original Offering—First publicly offered ($500,000) in April, 1925, by Mohawk Valley Investment Corporation, Utica, N. Y.

PECOS VALLEY POWER & LIGHT COMPANY

History—Incorporated April 8, 1927, in Texas. Within three months it constructed and is now operating a power system comprising a power station of 12,000 k.w. in two units and more than 143 miles of transmission and distribution lines, serving the West Texas oil fields. Company has long term contracts with six oil companies for their entire electric power requirements in the territory served and in addition is supplying electric power to several others.

The power plant of the Company is centrally located in the oil fields of Western Texas on the Pecos River. It is a modern oil-burning plant of permanent type of construction in a brick, steel and concrete building, delivering power over three 66,000-volt transmission lines, having an aggregate length of 99 miles and four step-down substations of an aggregate capacity of 12,000 k.v.a. to be increased as required, which supply 44 miles of 13,200-volt distribution lines. The generating capacity of the station when present construction is completed will be 18,000 k.w., consisting of three 6,000 k.w. turbo generators and 22,500 k.v.a. in transformers. The plant is operated with one unit reserved as a spare. The plant was originally laid out for an ultimate capacity of 24,000 k.w. with provision for additional capacity if required. However, to supply the potential market, capacity considerably in excess of 24,000 k.w. will be required.

CAPITAL STOCK

Authorized, 200,000 shares Common, and 10,000 shares $7 Preferred, both of no par value; outstanding, 110,000 shares Common and 10,000 shares Preferred. Sufficient Common shares are held in Company's treasury for delivery upon exercise of stock option warrants of bondholders.

Voting Trust—All outstanding Common stock is held in a voting trust.

Transfer Agent—The New York Trust Co., New York.

Dividends—None paid to May 1, 1928.

FUNDED DEBT

(1)

$1,750,000 FIRST MORTGAGE TEN YEAR 6½% GOLD BONDS, SERIES "A"; DUE MAY 1, 1937

Dated May 1, 1927.

Interest Payable May and November 1, at The New York Trust Co., New York.

Denominations—Coupon, $500 and $1,000, interchangeable denominations.

Trustee—The New York Trust Co., New York.

Provisions of Issue—Authorized, $5,000,000; issued, $1,750,000 Series "A" 6½s. The mortgage provides that additional bonds in excess of an additional $1,250,000 principal amount, which it is estimated will provide funds to complete Company's 24,000 k.w. plant, shall be issued only in an amount not exceeding 75% of the cost or fair value of additions, betterments or improvements and only if net operating revenue available for interest charges shall be not less than twice the amount of interest charges on the bonds issued and to be issued. Bonds hereafter issued may be of the same or different series and of the same or different rates of interest and maturities.

Option Warrants—The bonds are accompanied by stock option warrants exercisable at any time on or before May 1, 1933, and detachable after May 1, 1928, entitling the holder to purchase Voting Trust Certificates for Common stock of the Company in the ratio of ten shares for each $1,000 principal amount of bonds at the following prices: On or before May 1, 1929, at $10 per share; thereafter and on or before May 1, 1931, at $12.50 per share; thereafter and on or before May 1, 1933, at $15 per share.

Purpose of Issue—Proceeds of the $1,750,000 Series "A" bonds and a small amount of bonds which may be issued later, together with proceeds of junior financing which has been underwritten, it is estimated, will provide sufficient funds to insure the completion of the system to 18,000 k.w. capacity and provide working capital.

Callability—Subject to call as a whole or in part on any interest date on 45 days' notice at 105 and interest up to and including May 1, 1928, and thereafter at 105 and interest less ½ of 1% for each twelve months or part thereof elapsed after May 1, 1928.

Sinking Fund—The mortgage provides for a sinking fund, commencing November 1, 1928, payable semi-annually, consisting of a minimum annual payment sufficient to acquire 3% of the greatest principal amount of bonds of Series "A," at any time theretofore issued, and in addition thereto, an annual payment for the benefit of all bonds outstanding of all series ratably as provided in the mortgage, of 25% of the net earnings of the Company in each year after deduction of interest charges, minimum sinking fund payment and Federal taxes. The minimum sinking fund payments will be applied to the acquisition of bonds for the sinking fund, but the additional sinking fund payments from net earnings may be invested in additions, betterments and improvements. Bonds will be kept alive in the sinking fund. In lieu of cash payments, the Company may tender bonds at cost, but in no case at a price greater than the redemption price. This sinking fund is estimated by the engineers to be sufficient to retire the bonds of Series "A" by maturity.

Security—The bonds are secured by a direct First Mortgage on the power station, rights of way and other fixed property of the Company as defined in the mortgage. It is estimated by Ford, Bacon & Davis, Inc.,, that with the system limited to 18,000 k.w. capacity the properties and business of the Company will have a value of $4,000,000.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania and Connecticut personal property taxes of four mills each, Maryland State Tax of 4½ mills, and Massachusetts Income Tax not to exceed 6% refundable upon timely and proper application.

Legal Opinion—Kellogg, Emery, Inness-Brown & Cuthell, New York.

Original Offering—First publicly offered ($1,750,000 Series "A" 6½s) in May, 1927, at 99 and interest, to yield over 6.60%, by Bauer, Pond & Vivian, New York; Pearson, Erhard & Co., Boston, Mass.; Warren A. Tyson & Co., Inc., Philadelphia.

(2)

$1,000,000 FIFTEEN-YEAR 7% GOLD DEBENTURES; DUE JULY 1, 1942

Dated July 1, 1927.

Interest Payable January and July 1, at Guaranty Trust Co. of New York.

Denominations—Coupon, $500 and $1,000.

Trustee—Guaranty Trust Co. of New York.

Provisions of Issue—Authorized and issued, $1,000,000. Proceeds were used to provide funds for the installation of an additional 6,000 k. w. unit and to provide additional working capital.

Callability—Subject to call as a whole or in part on any interest date on not less than 45 days' notice at 107½ and interest up to and including July 1, 1928, and thereafter at 107½ and interest less ½ of 1% for each 12 months or part thereof elapsed after July 1, 1928.

Sinking Fund—The indenture provides for a sinking fund commencing Nov. 1, 1928, payable annually, consisting of a sum in cash equal to 5% of the net earnings of Company for the 12 months, terminating on the preceding Sept. 30, after deduction of all interest charges and requirements of the "minimum sinking fund" on the First Mortgage bonds of the Company and Federal taxes. Payments will be applied to the acquisition of Debentures for sinking fund at not exceeding the redemption price on the next succeeding interest payment date. In lieu of cash payments, Company may tender Debentures at the redemption price.

Security—A direct obligation of Company, issued under an indenture which provides among other things that Company will not create any mortgage, pledge or lien (other than purchase money mortgages, pledges of quick assets contracted in the ordinary course of business, and the indenture securing Company's First Mortgage bonds), upon any property of the Company, without securing these Debentures equally and ratably, with bonds or other obligations issued under such new mortgage, pledge or lien.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania and Connecticut personal property taxes of four mills each, Maryland Securities tax of 4½ mills and Massachusetts Income tax not to exceed 6% refundable upon timely and proper application.

Legal Opinion—Kellogg, Emery, Innes-Brown & Cuthell.

Public Offering—First publicly offered ($500,000) in January, 1928, at par and interest by Bauer, Pogue, Pond & Vivian, New York.

Management—Ford, Bacon & Davis, Inc., 115 Broadway, New York, are engineers and managers of the properties. G. I. Rhodes, a V-P. of that Corporation, is President of Company.

NIPPON ELECTRIC POWER COMPANY, LIMITED

(Nippon Denryoku Kabushiki Kaisha)

History and Properties—Company received a license to conduct an electric power and light business in Japan on October 16, 1919. Since that date it has steadily increased its generating capacity and its business and at the present time it is the owner of and is operating four hydro-electric plants with a combined present generating capacity of 83,360 k.w. and a steam plant with a present generating capacity of 100,000 k.w. and with a reserve steam turbine unit of 40,000 k.w. under construction. The Company is at present primarily a wholesaler of power, its principal customers being Toho Electric Power Company, Limited; Great Consolidated (Daido) Electric Power Company, Limited; Kyoto Electric Light Company, Limited; Hokuriku Cooperative Electric Company, Limited, and the Osaka Municipal Electric Bureau. In addition it sells power at wholesale to large industrial consumers and conducts a small distribution business.

The Company's generating stations and the markets for its power in the Osaka and Nagoya districts in the western and central portions of Honshu, the principal island of the Empire of Japan, are inter-connected by a comprehensive transmission system consisting of over 700 circuit miles of lines, the principal portion of which is carried on steel towers. Power is distributed through six major substations and six local substations.

A transmission line, 374 circuit miles in length, connecting the Company's system with the Tokio district in the eastern portion of the Island of Honshu, has recently been completed but has not yet been placed in operation. When this line is in operation the Company will have an inter-connected system reaching into practically every important market for power on the principal island of the Empire and will be in a position to supply interchange facilities for the various markets.

Concessions for water rights for the generation, and franchises for the transmission, distribution and sale of electric light and power are granted under the general supervisory power of the Imperial Japanese Government. All of the franchise extend beyond the maturity of Company's First Mortgage bonds of the initial series due Jan. 1, 1953, and none of the concessions for water rights, which may pursuant to law be extended, expire before 1940, subject to the usua

rights of revocation or purchase of properties retained by the Imperial Japanese Government. The Company covenants in the Indenture to file all necessary applications to secure the extension of all concessions relating to the mortgaged properties beyond the maturity of the bonds. Concessions and franchises cannot be mortgaged or pledged in Japan but the Company will deposit with the trustee assignments in blank of all rights of this character pertaining to the mortgaged property and pursuant to law in case of enforcement of the Mortgage these rights may be transferred with the mortgaged properties.

The Imperial Japanese Government has been advised of the proposed mortgaging of the properties to secure these bonds and has given formal assurance that if the properties are purchased by the Imperial Government or by municipalities the lien of the Mortgage will be recognized.

Subsidiaries—In addition to its physical properties, Company has substantial holdings in stocks of subsidiary companies. It owns substantially all of the outstanding capital stock of the Kansai Electric Power Company, Limited, which owns valuable undeveloped water power concessions on the Masuda River. The Kansai Electric Power Company, Limited, owns in turn practically all of the outstanding capital stock of the Toyo Aluminum Company, Limited, which has recently (December 1927) completed construction of a hydro-electric generating plant on the Kurobe River, known as the Yanagawara Plant. This plant has a present generating capacity of 50,700 k.w. In addition the Toyo Aluminum Company, Limited, has valuable undeveloped water power concessions on the Kurobe River. The Company also owns a majority of the outstanding capital stock of Shogawa Hydro-Electric Company, Limited. This company is now constructing a hydro-electric plant on the Sho River, to be known as the Komaki Plant, which it is expected will be completed before 1930 with an initial installed generator capacity of 72,000 k.w. In addition, the Company has substantial interests in several small electric companies.

CAPITAL STOCK

Amount paid in, $37,500,000.

FUNDED DEBT

$9,000,000 FIRST MORTGAGE 6½% GOLD BONDS; DUE JANUARY 1, 1953

Dated January 2, 1928.

Interest Payable January and July 1 at Harris, Forbes & Co., New York, in U. S. gold coin.

Denomination—Coupon, $1,000.

Trustee—Mitsui Bank, Limited, Tokio.

Authenticating Agent—Harris Trust & Savings Bank, Chicago.

Provisions of Issue—The Indenture under which these bonds were issued authorizes the issuance of a total of $50,000,000 bonds, or the equivalent thereof in other currencies. Additional bonds of the series due 1953 or of other series having such rates of interest, maturity dates and other provisions as may be determined by the Company, and as may be permitted by the Indenture, may be issued from time to time subject to the restrictions thereof.

A total of $11,000,000 bonds, or the equivalent thereof in other currencies if of a series other than the initial series, in addition to the initial issue of $9,000,000, may be issued at any time upon the basis of the properties of the Company to be mortgaged for the security of these bonds, existing as of Nov. 30, 1927, provided: (a) Company shall have subjected to the lien of the Mortgage for the equal benefit and security of all bonds isuued or to be issued under the Indenture, the Kamegaya Plant free and clear of all prior or equal liens and shall have deposited with the Trustee all water power concessions and franchises requisite for the operation thereof, together with assignments thereof in blank; and (b) net earnings of the Company (as defined in the Indenture) for twelve successive months out of the 16 months immediately preceding the month in which the application for the issuance of the additional bonds is filed shall have been at least three times the annual interest charges on all secured funded debt of the Company, including the bonds to be issued. The remaining $30,000,000 of bonds, or the equivalent thereof in other currencies, will be issuable, from time to time for not exceeding 50% of the cost or fair value, whichever is less, of additions to the electric properties of the Company constructed or acquired subsequent to Nov. 30, 1927, provided that (a) the same shall have been subjected to the lien of the Mortgage free and clear of all prior or equal liens for the equal benefit and security of all bonds issued or to be issued under the Indenture; (b) net earnings of the Company for 12 successive months out of the 16 months immediately preceding the month in which the application for the issuance of the additional bonds is filed shall have been at least three times the annual interest charges on all secured funded debt of the Company including the bonds to be issued; (c) the Company shall merge or consolidate with itself Toyo Aluminum Company, Limited; (d) the Company shall merge or consolidate with itself Kansai Electric Power Co., Ltd., or deposit and pledge with the Trustee all of the shares of stock in said Kansai Electric Power Co., Ltd., then owned by the Company; and (e) the Company shall subject to the lien of the Mortgage free and clear of all prior or equal liens for the equal benefit and security of all bonds issued or to be issued under the Indenture the Yanagawara Plant of Toyo Aluminum Co., Ltd., acquired by the Company on such merger, the Tokio transmission line and any other property located in or in the vicinity of Tokio and used in connection therewith, and shall deposit with the Trustee all water power concessions and franchises requisite for the operation of such properties, together with assignments in blank thereof

The Company will covenant in the Indenture not to declare or pay any dividends or make any other distribution upon its stock except out of earnings accruing subsequent to Sept. 30, 1927.

Callability—Subject to call as a whole or in part on any interest date upon 30 days' notice at 102 and interest if redeemed on or prior to Jan. 1, 1933 and at 100 and interest if redeemed thereafter.

Sinking Fund—Company will pay, as a sinking fund, on the 15th day of October in each year commencing Oct. 15, 1928, an amount sufficient to redeem at par and interest on the next succeeding interest date the following percentages of the aggregate amount of First 6½s due 1953 outstanding on Oct. 1, 1928: 2% annually, Oct. 15, 1928 to 1932 inclusive; 3% Oct. 15, 1933 to 1937 inclusive; 4% Oct. 15, 1938 to 1942, inclusive; 5% Oct. 15, 1943 to 1947, inclusive; 6% Oct. 15, 1948 to 1952 inclusive.

Security—Secured by a first mortgage lien created under the laws of Japan on practically all of the Company's directly owned mortgageable property excepting the Kamegaya Plant, a transmission line now utilized for transmitting another company's power and the Tokio transmission line which had recently been completed but which had not been placed in operation to February, 1928. Company covenants in the Indenture to subject to said first mortgage lien all additions to the mortgaged property. As further security Company agreed to deposit with the Trustee its water power concessions and franchises relating to the mortgaged properties, together with assignments thereof in blank, and to pledge all its more important power contracts, including the contract for the purchase of power from the Yanagawara Plant of the Toyo Aluminum Co., Ltd. and the contracts for the sale of power to the Toho Electric Power Co., Ltd., Great Consolidated (Daido) Electric Power Co., Ltd., and Kyoto Electric Light Co., Ltd.

Valuation—The reproduction cost less depreciation as of Sept. 30, 1927 of the physical properties upon which these bonds are secured by a first mortgage lien is estimated at $38,430,000 and the Company covenants in the Indenture to subject to said first mortgage lien as soon as the necessary requirements therefor according to Japanese law can be completed as further security for these bonds additional physical property having an estimated valuation as of Sept. 30, 1927 on the same basis, of $2,933,000. The estimated reproduction cost, less depreciation, of the entire physical property owned by the Company as of Sept. 30, 1927, including construction in progress to that date and the Kamagaya Plant, was $53,300,000. The estimated reproduction cost of the property of the subsidiary companies as of Sept. 30, 1927 totaled $18,150,000.

Tax Provisions—Interest payable without deduction for any Japanese taxes of any nature when held by non-residents of Japan.

Legal Opinion—All legal matters in connection with this issue were to be passed upon for the bankers by Sullivan & Cromwell, New York, except as to matters of Japanese law which were to be uassed upon by Dr. S. Kishi, Tokio, Japan, and for the Company by Dr. G. Matsumoto, Tokio, Japan.

IOWA SOUTHERN UTILITIES COMPANY

History and Properties—Organized under the laws of the State of Delaware in 1923. The company owned and operated the electric light property at Creston, Cromwell, Lorimor, Talmage and Thayer, and wholesaled current to Orient, Prescott, Tingley, Ellston and Arispe; and in March, 1923, it purchased all of the physical assets, subject to a First Mortgage issue of $1,765,100, of the Iowa Southern Utilities Co., a corporation oganized under the laws of the State of Maine in 1905 under the name of the Centerville Light & Traction Co., which name was changed to the Iowa Southern Utilities Co. in 1916 (see 1923 Public Utility Manual, page 470). The company later acquired all of the properties of the Centerville, Albia & Southern Ry. Co. (see 1916 Manual, page 136).

In 1924, the Company leased property at Grinnell, Iowa, from the Iowa Light, Heat & Power Co., for a definite rental on a monthly basis for a period of 22½ years. In Jan., 1926 this property was purchased.

On January 1, 1925, the property purchased from the United Utilities Corporation (formerly The Burlington Railway & Light Co.) was transferred to Iowa Southern Utilities Co., subject to the outstanding bonds.

On June 1, 1925 purchased the properties of Iowa Gas & Electric Co. (see 1925 Manual, page 201, or apply to our Information Department), subject to the outstanding bonds. On the same date purchased the street railway at Ottumwa, Iowa, from the Ottumwa Railway and Light Co., the electric and steam heating properties at Ottumwa from the Northern States Power Co., and the electric properties at Lamoni, Davis City, Pleasanton, Kellerton and Grand River. On Aug. 1, 1926, the gas property at Burlington and West Burlington was purchased from the Burlington Gas Light Co.

Iowa Southern Utilities Company of Delaware operates electric light and power properties serving directly and indirectly 131 communities in an extensive area in the southern part of the State of Iowa, including Centerville, Albia, Mystic, Numa, Brazil, Cincinnati, Exline, Moulton, Blakesburg, Rathburn, Allerton, Leon, Decatur City, Leroy, Garden Grove, Humeston, Derby, Van Wert, Weldon, Mt. Ayr, Diagonal, Shannon City, Clearfield, Lenox, Blockton, Benton, Malloy, Redding, Creston, Newton, Chariton, Russell, Lacona, Lucas, Murray, Truro, Osceola, Burlington, Ottumwa, Wapello, Morningsun, Columbus Junction, Washington, Grinnell, Mt. Pleasant, Sigourney, Brooklyn, Malcom, Newburg, Kellogg, Kilduff, Lineville, Searsboro, Peru, New Virginia and Lamoni. Estimated population served, 200,000.

The Company also operates an electric railway conducting a freight and passenger business between Centerville, Mystic and Albia, and the street railway lines in Burlington and Ottumwa (purchased June 1925). Also the gas business in Centerville, Osceola, Washington, Mt. Pleasant and Burlington, and the steam heating business in several communities.

The main generating system of the company is located at Centerville, which is the geographical and business center of the territory served. The Iowa Southern Utilities Co. of Delaware's transmission lines radiate from Centerville, and at present comprise 1,00 miles of modern high grade construction. The property consists of 29.64 miles of electric railway, 3 district steam heating systems, 5 gas works, electric light and power station with installed capacity of 21,000 k. Miles of gas mains, 123. Number of gas meters, 9,63 Electric meters, 48,168. Prices: Gas, $1.75; electricity 12 cents, maximum.

CAPITAL STOCK

Authorized, 100,000 Common shares of no par value and $15,000,000 cumulative Pfd. (par. $100); outstanding, 100,000 Common shares and $5,750,000 Pf The unissued Pfd. stock is issuable in series of 1,00 shares each bearing a dividend rate of either 6%, 6½% or 7%, as the Board of Directors may determine.

Stock Increase—At stockholders' meeting held De 21, 1926, it was unanimously approved to increase the authorization of Pfd. stock of Company from $5,00,000 to $15,000,000, the new stock containing all of the same provisions as are in the old stock. The Common stock authorization was increased from 10,000 to 10,000 shares of no par and it was also voted to exchange the old Common stock for the new Common stock on the basis of ten shares of new stock for each one share of the old stock.

Preferred Stock Provisions—Pfd. stock has preference for assets and dividends and is redeemable

whole or in part at option of the Company on any dividend date on 30 days' notice at $115 per share and accrued dividends. No stock having superior preference to this cumulative Pfd. stock shall be issued without the consent of 75% in amount of the outstanding cumulative Pfd. stock. No additional cumulative Pfd. stock shall be issued (1) unless the net earnings available for Pfd. stock shall have been at least 2 times the annual dividend requirements on the Pfd. stock outstanding and that proposed to be issued (2) unless the net earnings available for interest charges shall have been at least 1¼ times the interest requirements on the funded debt and the annual dividend requirements on the Pfd. stock outstanding and that proposed to be issued.

No cash dividends on the Common stock shall be paid in excess of $100,000 per annum until the Company shall have accumulated a surplus from its net earnings at least equal to the dividend requirements for a period of two years on all Pfd. stock outstanding, but, if and when the amount of the Company's surplus from its net earnings shall have reached an amount equal to the dividend requirements for a period of two years on all its Pfd. stock outstanding, then no cash dividends shall thereafter be declared or paid on the Common stock which shall reduce its surplus below that amount.

In addition to these rights and preferences, the First and Refunding Mortgage provides that before the payment of any dividends on the Common stock the Company shall set aside in a "depreciation fund" a sum amounting to 5% of its annual gross earnings.

THE CENTRAL KANSAS POWER COMPANY

History and Property—Company is a reorganization and change of name as of June 11, 1924 of The Rocky Ford Milling & Power Company (incorporated June 20, 1917) for the primary purpose of acquiring and developing electric light and properties in central and western Kansas. Owns and operates a complete system for the generation, transmission and distribution of electric power and light, serving a population of about 10,250 in the towns of Hays, Russell, Collyer, Gorham, Ogallah, Fairport Oil Fields, Fairport, Quinter, Victoria, Wakeeney and Walker. The electrical generating plants in Hays, Quinter and Wakeeney, Kan. have a total generating capacity of 2,940 KVA. Company also owns distributing systems and sub-stations in towns of Walker, Hays, Ogallah, Wakeeney, Quinter, Collyer, Fairport Oil Fields, Russell, Victoria and Gorham, and over 120 miles of transmission lines connecting these towns with Russell.

CAPITAL STOCK

Authorized, 8,000 shares Common of no par value and $1,200,000 Pfd., par, $100; outstanding Dec. 31, 1927, 1,500 shares Common and $181,200.

Annual Meeting—Second Tuesday in February.

Dividends—Pfd. dividends are regularly paid quarterly, J, A, J & O 15. On Common $6 per share in 1925; $8 per share in 1926; $2 per share in 1927.

FUNDED DEBT

$385,000 FIRST MORTGAGE GOLD BONDS, SERIES OF 6s; DUE MARCH 1, 1946

Dated March 1, 1926.

Interest Payable March and September 1 at Peters Trust Co., Omaha, Neb.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustee—Peters Trust Co., Omaha, Neb.

Provisions of Issue—Authorized amount of Mortgage, unlimited. Issued $385,000 Series of 6s, due 1946 to retire Two-Year 5½% First Mortgage Gold bonds, due September 1, 1926, and for other corporate purposes.

Additional bonds of this or subsequent series may be issued for refunding purposes, for the acquisition of additional public utilities properties or for permanent extensions or additions to Company's property up to 75% of the cost or fair value, whichever is less, of such new properties, providing net earnings for the preceding 12 months shall have been at least equal to twice the annual interest requirements, on the Company's bonded debt, including bonds then proposed to be issued. Future issues of bonds may be of various series, bearing different rates of interest, with different call features, and for different maturities not exceeding twenty years from date of issue, etc., and bonds of one series may be issued to refund bonds of an earlier issue.

Callability—Subject to call on any interest date, at 103 and interest up to Sept. 1, 1927; at 102 and interest in 1928 and 1929; at 101 and interest in 1930 and 1931, and at par and interest thereafter. Subject to call at any time during the last six months before maturity on 30 days' notice at par and accrued interest.

Maintenance and Depreciation—Company covenants to deposit with the Trustee on the first day of April in each year, commencing April 1, 1927, an amount in cash equal to 12½% of its gross earnings from the operation of its properties during the preceding calendar year, less the amounts actually expended during such year for maintenance and repairs and for renewals and replacements of property. The money so deposited may be withdrawn: (1) For further maintenance, repairs, renewals and replacements; (2) to pay for extensions and additions to the properties, which shall not be made the basis for issuing First Mortgage bonds; (3) for the retirement of outstanding bonds.

Security—Secured by a direct first mortgage upon all real estate, electrical machinery and the entire transmission and distribution system of the Company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to refund, upon application, the present Kansas 2½ mill tax to holders resident in Kansas who have paid such tax.

Legal Opinion—Stout, Rose, Wells & Martin, Omaha, Neb.

Original Offering—First publicly offered ($300,000) in February, 1926, at 99 and interest, to yield about 6.10% by Peters Trust Co. and Omaha Trust Co., Omaha, Neb. $85,000 additional bonds were offered in Nov., 1927, at par and interest by Peters Trust Co., Omaha, Neb.

History—Incorporated May 16, 1903, in Maine, to construct and operate telephone lines. Company furnishes local and long distance telephone service without competition in City of Saint Paul and throughout the southern part of the State of Minnesota, with a total estimated population of over 1,000,000. Prior to July 1, 1918, the Company operated in parts of Minnesota, Wisconsin and North Dakota in competition with subsidiaries of the American Telephone & Telegraph Co. On that date an agreement with The Northwestern Telephone Exchange Co. (Bell System) became effective, which provides for an exchange of property and a division of the operating territory, thus eliminating competition between the two companes. As a consequence, The Tri-State Telephone & Telegraph Co., acquired all the property in St. Paul and the southern part of Minnesota, formerly owned by The Northwestern Telephone Exchange Co. This transaction received the approval of the Railroad and Warehouse Commission of Minnesota and the Attorney General of the United States. The agreement between the two companies renders the long distance lines of the American Telephone & Telegraph Co. available for all subscribers of the Tri-State Company, thus affording nation-wide telephone service.

Development—The Company operates, 5,864 miles of pole lines and 33 local exchanges including service in City of Saint Paul, the capital of the State. Its toll lines are connected with all locally owned companies in its territory. The Company connects with the associated Bell companies for service to other parts of the State and United States. On Dec. 31, 1927, there were in this territory about 208,590 telephones connected directly with this system, of which this Company owns and operates 105,360.

Franchises—Company operates under indeterminate permits under the jurisdiction of the Minnesota RR. & Warehouse Commission, which has control over rates and service.

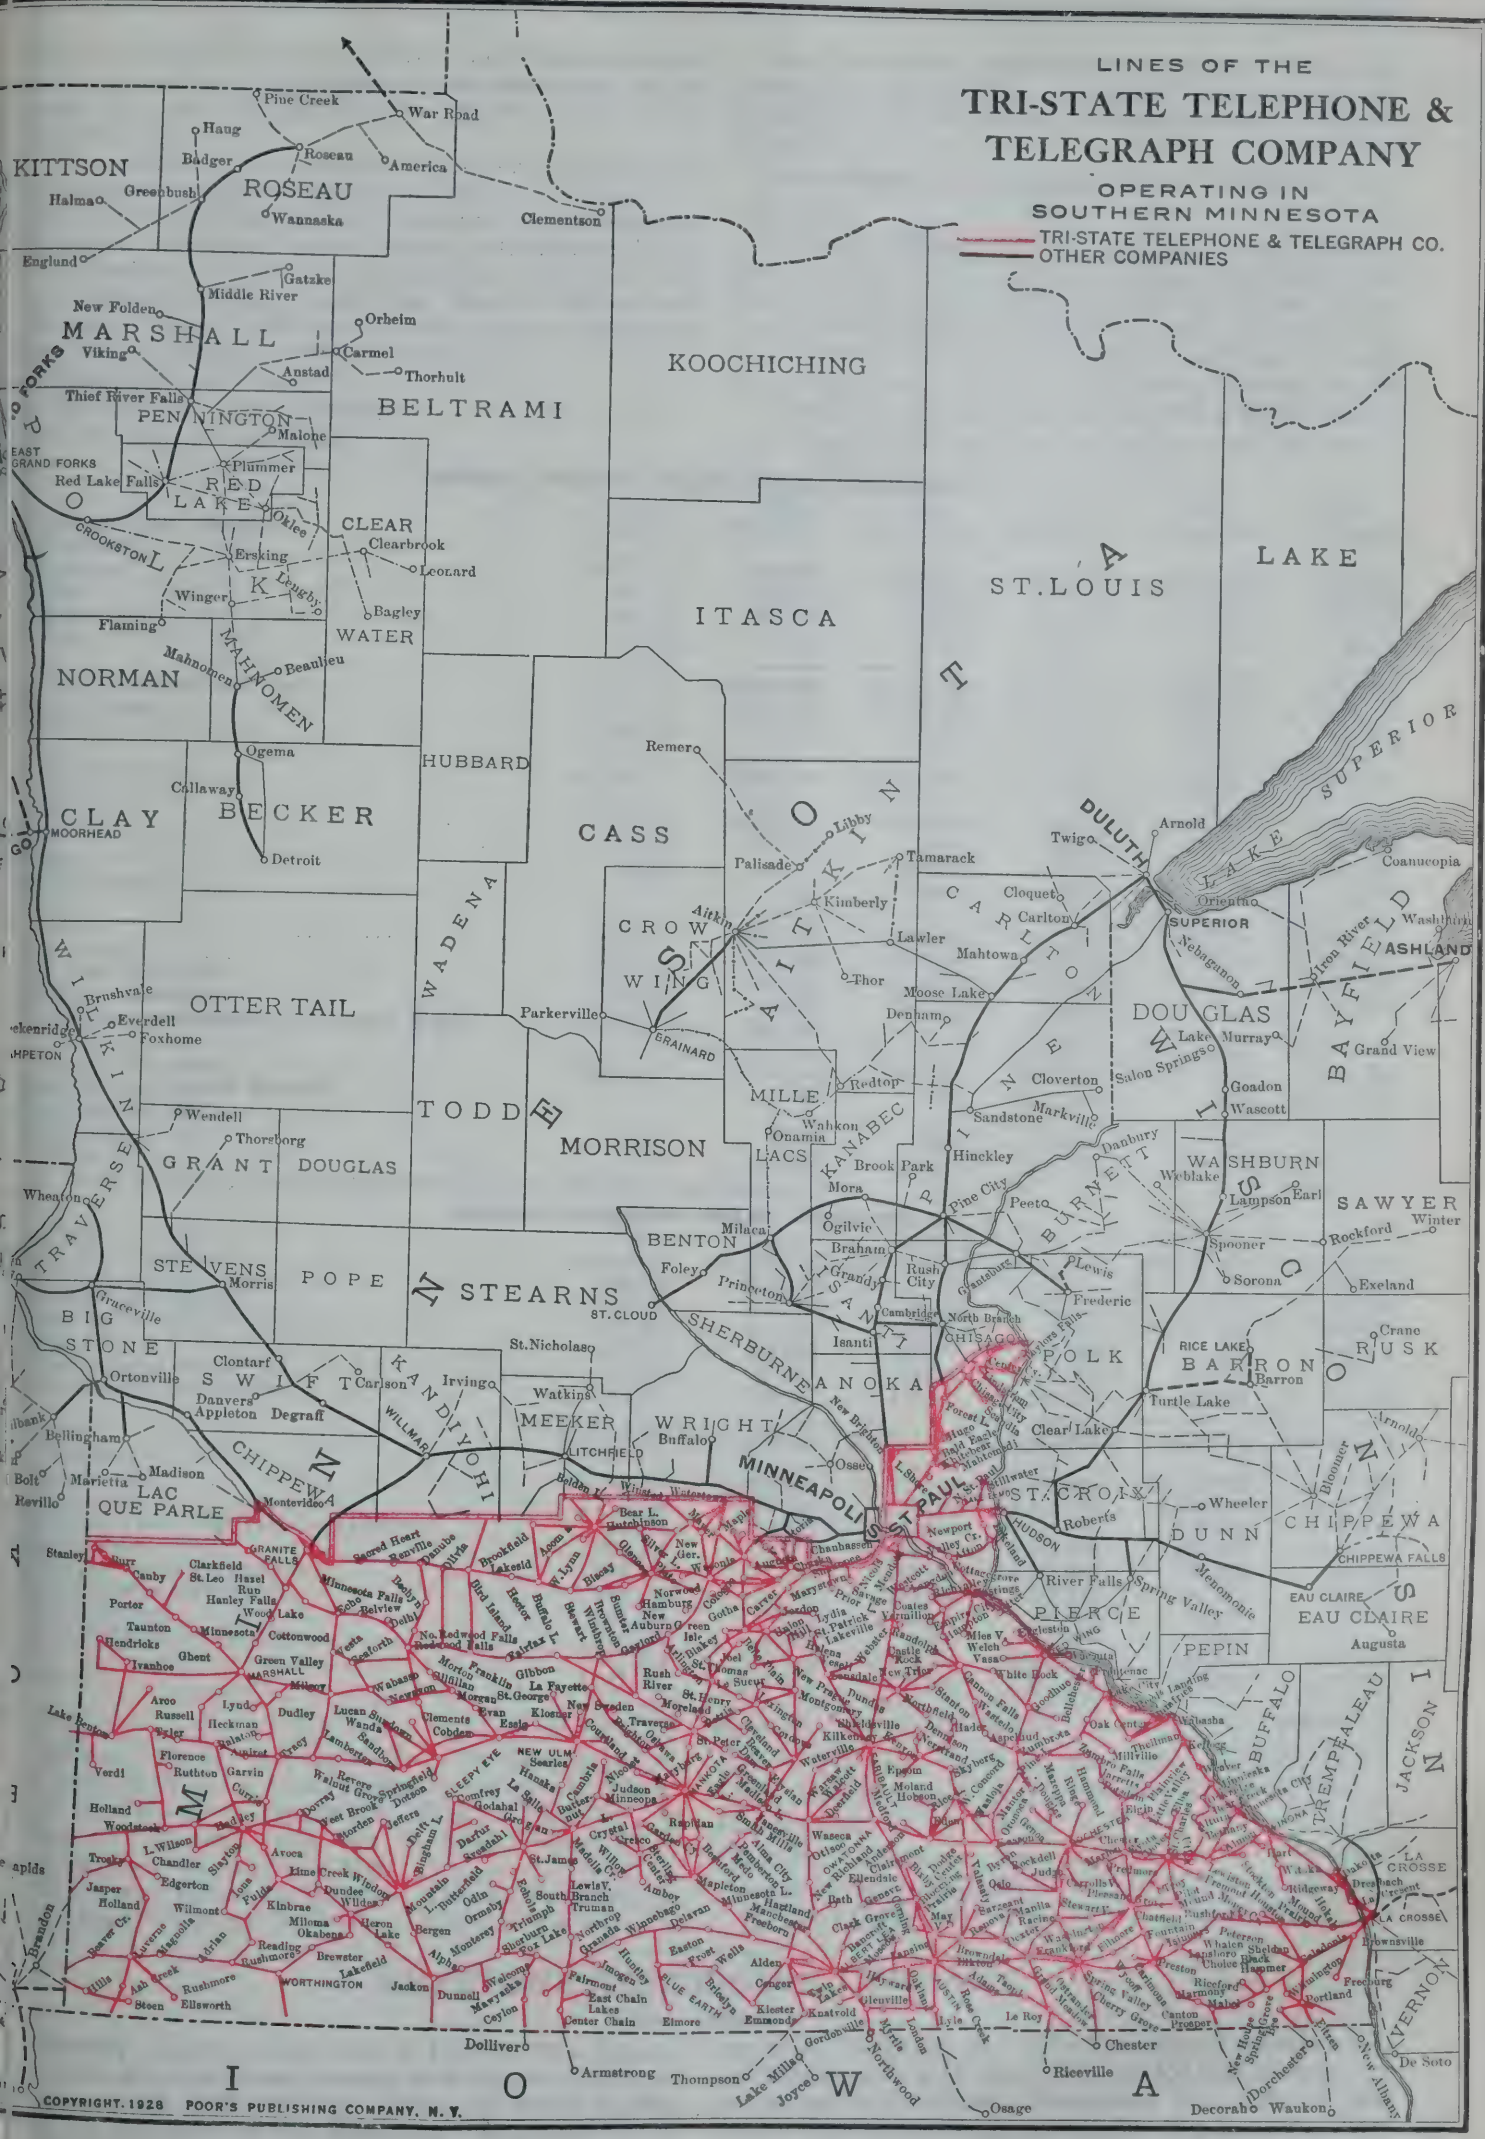
FUNDED DEBT

$5,000,000 THE TRI-STATE TELEPHONE & TELEGRAPH CO. FIRST & REFUNDING (NOW FIRST) GOLD 5½s, SERIES "A"; DUE MAY 1, 1942

Dated May 1, 1922.



Interest Payable May and November 1, at Harris Trust & Savings Bank, Chicago, at Merchants Trust Co., Saint Paul, Minn., and Harris, Forbes & Co., New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustee—Harris Trust & Savings Bank, Chicago.

Provisions of Issue—Authorized issue of bonds is not specifically limited in the mortgage, but provision is made that the amount of the First and Refunding Mortgage bonds and underlying bonds shall not, at any time, exceed the amount of the Company's total paid in capital stock, plus its accrued surplus. Authorized $6,000,000 Series "A" 5½s; issued, $5,000,000. Under the terms of the mortgage $1,000,000 additional of Series "A" bonds may be certified upon application of the company. The requirements of the mortgage will insure that the proceeds of these bonds will be expended upon the property and for the development of the business.

Under the carefully guarded provisions of the mortgage, bonds in excess of the Series "A" bonds above mentioned may be issued for the retirement of underlying bonds and for not over 75% of the cost of additional property, when the net earnings of the company for the preceding year shall have been at least one and three-fourths times the annual interest charge on the Company's bonded debt, including First and Refunding Mortgage bonds then proposed to be issued. Bonds may be issued in series of different maturities

NEW HAMPSHIRE POWER COMPANY

History and Properties—Incorporated in Oct., 1923, in N. H., and as of Jan. 1, 1924, purchased all the properties, rights and franchises of the following hydro-electric power companies in central New Hampshire: Antrim-Bennington Electric Light & Power Co., Canaan-Enfield Electric Co., Contoocook Electric Light Co., Lake Sunapee Power Co., Hills-

boro Electric Light & Power Co., Newport Electric Light Co., and Sunapee Electric Light & Power Co. As of Aug. 1, 1924, purchased the Bradford Electric Light Co. In 1926 acquired the Bristol Electric Light Co., and the Pittsfield Light & Power Co.

The company serves with electricity, without competition, Newport, Sunapee, New London, Warner, Contoocook, Henniker, Hillsborough, Antrim, Bennington, Canaan, Enfield, Bristol, Hebron, Alexandria, Bridgewater, Pittsfield, London, Canterbury, New Hampshire, and other neighboring communities. Population served varies from about 25,000 in winter to 30,000 in summer. The electric systems include six generating plants on the Contoocook, Warner, New Found and Sugar Rivers having an installed generating capacity of approximately 3,000 h.p. capable of producing 8,000,000 k.w.h. per annum, with about 70 miles of transmission lines, 180 miles of distribution lines and substations serving over 5,100 customers.

CAPITAL STOCK

Authorized 13,500 (increased from 6,000 in 1926) Common shares of no par value, and $2,000,000 8% cumulative Pfd., (issuable in Series); par, $100; outstanding 13,500 Common shares and $370,000 Pfd. Series "A." Stock control is held by New Hampshire-Vermont Power Co., which in turn is controlled by Hydro-Electric Development Syndicate. The latter company was organized by various interests.

Preferred Stock Provisions—Series "A" Pfd. stock has preference for assets and dividends, and is redeemable as a whole or in part at option of Company, at 115 and accrued dividend; stock so redeemed shall not be reissued. Upon dissolution or liquidation the holders of preferred stock will be entitled to $100 per share plus accumulated and unpaid dividends in preference to any distribution on the Common stock.

The preferred stockholders have no right to subscribe to any additional issue of capital stock, Pfd. or Common.

Whenever and as often as dividends on Pfd. stock are unpaid in an amount equal to the full dividend for 12 months, the Pfd. stockholders are entitled to vote. They are entitled also to vote as to the authorization of stock of a class preferred to this Pfd. stock or changing the provisions of this Pfd. stock (not including any right to vote as to any increase of the amount authorized or issued of this Pfd. stock) and as to the authorization of any mortgage on the real estate or general assets of the Company and as otherwise expressly provided by law. Whenever the Pfd. stock is entitled to vote, each share of Pfd. stock entitles the holder to one vote at all stockholders' meetings. Voting rights continue as long as any dividend on the Pfd. stock is in arrears and no longer.

The Company has agreed that it will not issue any additional Pfd. stock unless all accumulated Pfd. stock dividends have been paid or set apart for payment, nor unless the net earnings of the Company for 12 consecutive calendar months out of the next preceding 15 calendar months have been at least 1¾ times the aggregate dividend requirements on the Pfd. stock then outstanding and on the stock to be issued; provided, however, that, if at the time of any proposed issue of Pfd. stock the Company is party to a contract or contracts for the sale of power or water, the Company may issue said proposed stock to such an amount that the net income of the Company from all sources, including the net earnings from said contracts, for the 12 calendar months next following the time of such issue and thereafter as estimated by an independent engineer, will be equal to or in excess of 2¼ times the dividend requirements on the Pfd. stock at the time outstanding and on the additional stock so proposed to be issued.

Transfer Agent—Old Colony Trust Co., Boston.

Annual Meeting—First Tuesday in March.

Legal Opinion (Pfd. Stock)—Tyler, Tucker, Eames & Wright, and, Ropes, Gray, Boyden & Perkins, Boston.

Original Offering—First publicly offered (2,500 shares Pfd.) in March, 1924, at $100 and accrued dividends to yield 8%, by Blake Brothers & Co., New York and Boston.

Dividends—Pfd. dividends regularly paid quarterly J, A, J & O 1, to stock of record on the 15th day of the preceding month. None on Common.

FUNDED DEBT

$826,000 FIRST MORTGAGE GOLD 6s, SERIES "A"; DUE DECEMBER 1, 1943

Dated December 1, 1923.

Interest Payable June and December 1, at American Trust Co., Boston.

Denominations—Coupon, $100, $500 and $1,000, interchangeable; principal may be registered.

Trustee—American Trust Co., Boston.

Provisions of Issue—Authorized issue, $10,000,000. Additional bonds may be issued in one or more series bearing such rates, due dates, etc., as the directors may determine, but no series may mature later than 30 years from its initial date. As more fully provided in the indenture, additional bonds may be issued to a par amount not exceeding 75% of the cost or fair value whichever is less of physical property acquired subsequent to March 1, 1924. No additional bonds may be issued unless net earnings for 12 consecutive months out of the 15 months next preceding such proposed issuance shall have been at least twice the annual interest on all First Mortgage bonds outstanding together with those to be issued. The Indenture also includes provisions covering the maintenance and upkeep of the property and does not permit the issuance of bonds for securities or the acquisition of street railway property.

Callability—Subject to call at 105 and interest during the first ten years, 103 and interest during the next five years, 102 and interest during the next three years and thereafter at par and interest.

Sinking and Improvement Funds—The mortgage provides that beginning May 1, 1925, the Company shall pay to the Trustee an amount equal to 1% of the highest amount of bonds at any time previously outstanding thereunder. This fund is increased to 2% on May 1, 1926, and continues annually, on May 1 thereafter at this rate during the life of the Series "A" bonds. The entire amount of the first payment, on May 1, 1925, must be used exclusively for the retirement of First Mortgage bonds and at least half of each succeeding annual payment is to be used for the call pro rata, or purchase at not exceeding the current redemption price of all bonds at the time outstanding under this First Mortgage. All bonds acquired through the action of this fund are to be cancelled forthwith. The remainder of the fund may be also so used unless the Company elects to employ it in making additions and improvements to its physical property which, however, may not thereafter be made the basis for issuing additional First Mortgage bonds of any series.

Security—A first mortgage on all the physical property, rights and franchises of the Company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to refund (when paid and claimed by the holders) the Massachusetts and New Hampshire income taxes not to exceed 6% and the Connecticut and Pennsylvania Personal Property Taxes up to four mills.

Legal Opinion—Ropes, Gray, Boyden & Perkins, Boston, Mass.

Original Offering—First publicly offered ($600,000) in Feb., 1924, at 94½ and interest, yielding about 6.50%, by Coffin & Burr, Inc., New York, Boston, et

HONOLULU RAPID TRANSIT COMPANY, LIMITED

History and Properties—Incorporated Aug. 30, 1898, in Hawaii, as Honolulu Rapid Transit & Land Co.; name changed as above in 1922.

Owns and operates 37.042 miles of track for passenger and freight service in Honolulu. Gauge, 4 ft. Rail, 85-lb. girder and 122-lb. girder. Motor cars, 78; motor passenger buses, 9; other cars, 7; power station, 1; d.c. generators, 3; capacity, 1600 k. w. One rotary converter of 1,500 k.w. capacity installed and held in reserve. Revenue passengers carried in 1927, 16,642,251 (16,064,834 rail and 577,417 bus) compared with 16,664,183 (16,306,252 rail and 357,931 bus) in 1926 and 17,436,122 (17,085,078 rail and 351,044 bus) in 1925.

Franchise—Company operates under an indeterminate franchise passed by the Legislature of the Territory of Hawaii April 26, 1921, ratified by Congress, and made effective by acceptance of stockholders Feb. 16, 1922. The franchise provides that, in addition to Territorial and Federal Property and In-

come Taxes, there shall be paid to the City and County of Honolulu annually a franchise tax of 2½% of the gross revenue from railway operation. This tax has been discontinued by Act of Legislature for a period of four years from Jan., 1925. The rate of fare to be fixed from time to time, with the approval of the Public Utilities Commission of Hawaii, so that the revenue will be sufficient to meet cost of operations and taxes, plus a fair return on the property of the Company actually used for public utility purposes. Provides for purchase by the City and County of Honolulu at any time, on six months' notice, at a fair value. No capital expenditure may be made from earnings. Extensions and improvements may be ordered by the Public Utilities Commission, providing that revenue is sufficient to pay operating costs and a fair return on the total property of the Company including such additions and extensions.

(2)

$5,519,000 TEXAS ELECTRIC RAILWAY FIRST & REFUNDING MORTGAGE GOLD 5s; DUE JANUARY 1, 1947

Dated January 1, 1917.

Interest Payable January and July 1, at Harris Trust & Savings Bank, Chicago, or at option of the holder, at the Agency of the Company in the City of New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—Harris Trust & Savings Bank, Chicago.

Provisions of Issue—Additional First & Refunding bonds may be issued for only 75% of the cost of extensions and additions to the Company's properties, provided net earnings for the twelve months preceding have been at least twice the annual interest charges on all bonds outstanding, and those proposed to be issued. Provision for the refunding of divisional underlying bonds, at par, is made in the mortgage securing this issue. In addition to the $5,519,000 outstanding bonds (which includes $75,000 held in injuries and damage reserve fund) $52,000 were held in treasury, Dec. 31, 1927, and an issue of $500,000 6s due Jan. 1, 1947, was also held in the treasury.

Callability—Subject to call on any interest date up to and including Jan. 1, 1942, at 105 and interest, and thereafter at 102½ and interest, upon 30 days' published notice.

Improvement and Sinking Fund—The mortgage provides that beginning with April 1, 1921, and on each April 1 thereafter, there shall be deposited cash equal to 1% of the First and Refunding 5s and underlying bonds outstanding on the previous Dec. 31, after making allowance for underlying sinking fund payments made during the preceding year. This money may be withdrawn for the cost of extensions and additions against which no First and Refunding 5s shall be issued, or, at the option of the Company, for the retirement of First and Refunding Mortgage or underlying bonds.

Maintenance and Renewal Fund—Under the terms of the mortgage the Company agrees to expend or set aside annually for maintenance and repairs or for renewals and replacements of its property, the following amounts. 14% of gross earnings in 1920, and 15% in 1921 and each year thereafter.

Any part of this fund not used for such purposes may be expended for extensions and additions to the properties, such expenditures, however, not to be used as the basis for issuing First and Refunding Mortgage bonds.

Security—A direct first lien on 183.45 miles of road, comprising the lines from Dallas to Corsicana, and from Dallas to Waco, and city lines in Waco, Waxahachi and Corsicana. Also a lien on 84.55 miles, subject only to the outstanding divisional bonds on the lines from Dallas to Denison.

Tax Provisions—Company does not pay Normal Federal Income Tax.

Original Offering—First publicly offered ($4,804,000) in Jan., 1917, at 95.50 and interest, yielding 5.38%.

History—Incorporated Feb. 12, 1855, in Ill., under special perpetual charter (amended in 1865), which authorizes company to manufacture, distribute and sell illuminating gas in Chicago and to own all property necessary thereto; to increase its capital stock from time to time at pleasure, and to mortgage or lease any of its properties or franchises. In Aug., 1897, absorbed Chicago Gas Light & Coke Co., Consumers Gas Co., Equitable Gas Light & Fuel Co., Illinois Light, Heat & Power Co., Chicago Economic Fuel Gas Co., Lake Gas Co. and Suburban Gas Co. In 1897 the Mutual Fuel Gas Co. was purchased, and in 1898 was merged into People's Co., as was also the Hyde Park Gas Co. In Jan. 1899, acquired the Calumet Gas Co. In 1907, leased the property of the Ogden Gas Co. until 1945. In 1907, also leased the property of Universal Gas Co., until 1944. In 1913, made agreement with Ogden Gas Co. and Universal Gas Co., whereby for a cash amount all the rentals under the Universal lease and half the rentals under the Og-

den lease were commuted, beginning with 1914, besides which the People's Co. on the expiration of the leases will succeed to the title, and to the property of Ogden and Universal companies.

The Company distributes gas to the entire City of Chicago through over 3,500 miles of transmission and distribution mains, the main artery of the system consisting of a high pressure main four feet in diameter extending 34 miles from the northern limits of the City to the southern boundary. With the acquisition of the Chicago By-Product Coke Co. as of Feb. 1, 1928, having 105 modern coke ovens and a combined coke oven gas and water gas capacity of 65,000,000 cubic feet per day, the Company's plants have a conservative total daily capacity of 150,000,000 cubic feet, while an additional 70,000,000 cubic feet of gas per day is available for purchase under contracts. Gas storage capacity now aggregates 88,000,000 cubic feet.

Refund Suit—The Supreme Court of Illinois entered final judgment Oct. 22, 1927, on the Agreed Case submitted in the so-called refund suit. The Agreed Case was entered into for the purpose of determining the legal issues in the litigation resulting from the seventy cent gas ordinance of 1911 in advance of an expensive trial on the merits. The Supreme Court sustained every contention made by the Company and thus ended all claims for refunds and terminated this litigation.

Rate Reduction—Effective April 1, 1928, the basic price for gas under the general rate (Class 1) was reduced from 95 cents to 90 cents per 1,000 cubic feet. In addition a new optional service charge rate was placed in effect for general gas service (as Class 5) and new industrial rate (as Class 6).

Plant Purchased—Pursuant to the option contained in the contract with The Koppers Company of Feb. 2, 1920, the Peoples Gas Light & Coke Co. purchased and took over as of Feb. 1, 1928, the coke oven and water gas plants on Crawford Avenue owned by the Chicago By-Product Coke Co. The purchase price was approximately $21,000,000. Of this sum $13,000,000 was represented by the First and Refunding Mortgage bonds of the Chicago By-Product Coke Co. which the Peoples Gas Light & Coke Co. has assumed and agreed to pay. The remainder of the purchase price was paid in cash.

Plants provide facilities for the manufacture of gas, coke and the principal coal by-products and include a combined water-gas plant and by-product coke plant situated on 160 acres in Chicago. The plants were placed in operation Oct. 6, 1921 (the first gas being received Oct. 10, 1921) with an initial daily capacity of 30,000,000 cu. ft. of gas in addition to coke and other by-products. These plants have at present a combined daily capacity of 65,000,000 cu. ft. and were so planned that they can be readily expanded to a daily capacity of more than 100,000,000 cu. ft.

Subsidiary Companies—In order to segregate the non-utility properties of the company, The People Gas Subsidiary Corporation was organized in 1927 which is wholly owned by Peoples Gas Light & Coke Co. The Peoples Gas Subsidiary Corporation in turn owns the Peoples Gas Stores, Inc., which holds title to the Peoples Gas Building in Chicago, and the People Gas By-Products Corporation which owns and operates a light oil refining plant.

Gas for House Heating Increases Yearly

The above chart shows how the sales of gas for House Heating have increased during the last few years. Indications are that they will continue to grow for many years to come.

An active campaign for this business was inaugurated in Chicago in 1923 when a special rate for House Heating was established. New installations have been added to our lines at the rate of approximately 500 per year. Home owners have accepted gas as a heating fuel because of its cleanliness, convenience, adaptability, and because the source of supply is constant and dependable.

History—Incorporated in Ill.; consolidation as of pt. 17, 1907, of the Chicago Edison Co. and the Commonwealth Electric Co., the latter company having rmerly been owned in the same interest as the Chi-go Edison Co. (For plan of consolidation see Man-l for 1914, page 2147, or apply to our Information epartment).

Does practically all the central station electric light-g and power business of Chicago, Ill., serving a pulation of 3,100,000. The old franchise of the hicago Edison Co. was granted in March, 1887, and extended for 25 years. The franchise of the Commonwealth Electric Co. was granted in 1897 for 50 years. On March 24, 1908, the Chicago City Council passed an ordinance providing that 3% annually of the gross receipts during the life of the franchise of the old Commonwealth Electric Co. be paid to the City, and providing that the franchise be extended to include all of the subsidiary companies. It has been the policy of the company to reduce its rates as fast as possible. The latest rate reduction was Aug. 1, 1923, from 9 cents to 8 cents (net) per kilowatt-hour

as the primary or maximum rate. This company has the record of going through the war and after-war period without increasing its rates to customers or reducing its dividend rate to stockholders.

During 1925 Company entered into an interchange energy contract with the Public Service Company of Northern Illinois and the Northern Indiana Gas & Electric Company. By the terms of this contract the **capacities of the three companies are pooled against their combined maximum load. Electrical energy is interchanged from one system to another depending on conditions of load throughout the territory covered by the three companies.**

Not only is the great "pool of power" in and around Chicago now inter-connected, but the Chicago District itself forms a part of the great super-power inter-connection embracing parts of Wisconsin, Illinois, Indiana, Michigan and Kentucky, and is connected with territory in Ohio and Pennsylvania.

Property—The company has six generating stations and 97 substations in service and 10 substations under construction. The principal generating stations now in operation are the Fisk Street of 230,000 kilowatts capacity; Quarry Street of 84,000 kilowatts capacity; Northwest of 165,000 kilowatts capacity; Calumet of 187,000 kilowatts capacity, and Crawford Avenue of 324,000 kilowatts capacity.

During 1924 the first electrical generating unit of 60,000 kilowatts was put into service at Crawford Avenue station. A second unit, rated at 50,000 kilowatts, was put in service March 20, 1925, a third, of 51,000 kilowatts, in May, 1925, and a fourth unit of 75,000 k.w. capacity, Aug. 1, 1926, a fifth unit of 88,000 k.w. capacity was put in service in Aug., 1927, making the total generating capacity of the station 324,000 kilowatts, compared with the 230,000 kilowatts for the Fisk Street Station. Work on the installation of another group-unit (No. 6), rated at 100,000 kilowatts, was progressing at Crawford Avenue Station, at the end of 1927. These are very large turbo-generator group units, and their installation is illustrative of a growing tendency to install large units in large generating stations. Inter-connections of large systems and large stations make it possible to utilize the economies of these large generating units. When group-unit No. 6 is added to the Crawford Avenue Station, its total rating will be 424,000 kilowatts and still further additions to a total capacity of 1,000,000 kilowatts are anticipated in the future.

The Crawford Avenue station is not only the largest but it is also the most efficient of the Company's generating stations; and it produced about 33% of all the energy generated by the Company during 1927. The Calumet station and the more efficient units in other generating stations produced another 33% of the energy generated, with the result that, for the first time in the history of the Company, the consumption of coal in all stations has averaged less than two pounds per kilowatt-hour of energy generated.

At Dec. 31, 1927, Company's total generating and **storage-battery capacity (using the rating developed as a result of the interchange energy contract referred** to above) was 1,042,365 kilowatts, compared with 965,000 kilowatts on Dec. 31, 1926.

The physical properties include 12,540 miles of overhead conductors, 7,600 miles of underground conduit, 3,400 miles of cables, 373 acres of real estate in **the City of Chicago, and (through subsidiary companies) coal rights in 54,030 acres of coal land in Illinois and Indiana estimated to contain over 400,000,000 tons of coal.**

State Line Generating Co.—This company, controlled jointly by the Commonwealth Edison Co., the Public Service Co. of Northern Illinois (through its Subsidiary Corporation), the Northern Indiana Public Service Co., and the Interstate Public Service Co., is constructing an electric generating station located on a 90-acre tract of ground on Lake Michigan just east of the Illinois-Indiana line. A turbo-generator of 200,000 k.w. capacity is under construction as the first unit of the station, and it is expected that the above four companies will absorb its total output. This plant will have, eventually, a generating capacity of 1,000,000 kilowatts, according to present plans.

Commonwealth Subsidiary Corporation—In Dec. 1926, this corporation was formed by the Commonwealth Edison Co. to take over, hold and manage as agent for the latter, securities and accounts carried on the books of the Commonwealth Company at a total value of over $29,401,100. These assets did not constitute a part of the utility business. All the 294,02 shares (except 9 directors' qualifying shares) are owned and will continue to be owned by the Company. The Board of Directors of the Subsidiary Corporation, in personnel, is identical with the Board of the Commonwealth Company, and all officers of the former are also officers of the latter.

Chicago and Illinois Midland Ry. Co.—The Commonwealth Edison Co. controls this company (see Railroad and Bank Section), which on Feb. 13, 192 was authorized by the Interstate Commerce Commission to acquire control of the Springfield, Havana & Peoria RR., formerly a part of the old Chicago, Peoria & St. Louis RR. Co.

Chicago Rapid Transit Co.—Control of Chicago Rapid Transit Co. (see appended statement) is held by Commonwealth Edison Company through the ownership of Voting Trust Certificates representing a majority of Common stock.

CHICAGO RAPID TRANSIT COMPANY

(Controlled by Commonwealth Edison Company)

(See Accompanying Map)

History—Incorporated Jan. 9, 1924, under the Railroad Law of Illinois for a term of fifty years, renewable for periods of fifty years each. Under this franchise, the Company has the right to conduct its business indefinitely in the City of Chicago and other communities served, subject to all lawful regulations by public authorities. There are a number of municipal ordinances to predecessor companies which either extend to various dates from 1930 to 1957, or are without limit as to time.

Chicago Rapid Transit Company was formed by consolidation of The Metropolitan West Side Elevated Ry. Co., Northwestern Elevated R. R. Co. and South Side Elevated R. R. Co. on Jan. 9, 1924, and on Jan. 31, 1924, it acquired title to the properties of the Chicago & Oak Park Elevated R. R. Co. through purchase at foreclosure sale for $2,600,000, subject to $5,156,362.59 first mortgage bonds, equipment notes and other mortgages, and the Court required the Chicago Rapid Transit Co. to pay the remaining unpaid liabilities of the Receiver of the Chicago & Oak Park Elevated R. R. Co. After the sale on Jan. 5, 1924, of collateral pledged under the Secured Gold Notes of Chicago Elevated Railways, the Plan of Reorganization dated July 14, 1923, was declared operative on Feb. 18, 1924, approximately 97% of the said Secured Gold Notes and more than 90% of the Ten-Year 6% Debentures having been deposited under the Plan (for organization, etc., of Chicago Elevated Railways, see 1923 Public Utility Manual, page 805).

The original elevated lines began operation as follows: The South Side Elevated in 1892; the Oak Park Elevated in 1893; the Metropolitan West Side Elevated in 1895 and the Northwestern Elevated in 1900. At midnight Nov. 2, 1913, began through-routing of north and south elevated trains, using the Loop for that purpose and free transfer stations were established between said trains and trains of Metropolitan and Oak Park Companies.

The Chicago Rapid Transit Co. provides rapid transit facilities for the City of Chicago and the suburbs of Evanston, Niles Center, Wilmette, Oak Park, Cicero, River Forest, Forest Park, Berwyn, Maywood, Bellwood and Westchester, which have a total population of approximately 3,426,800 as of Dec. 31, 1927, all but 15% being within walking distance of the elevated lines.

Two interurban lines, the Chicago, Aurora & Elgin R. R. reaching Aurora and Elgin to the West and Chicago North Shore & Milwaukee R. R. reaching Milwaukee to the North, operate their trains over the tracks of the Chicago Rapid Transit Co. on a favorable rental basis and constitute a source of additional income for the company.

Territory Served—The territory now served by the elevated lines extends from Wilmette on the north to Sixty-third Street on the south, a distance of 24 miles. On the north, the Ravenswood branch extends from Belmont Avenue northwest to Kimball and Lawrence Avenues. The Niles Center division operates westward from Howard Avenue to Niles Center. On the south, branches run to Englewood and Normal Park, Kenwood and the Union Stockyards. On the west, lines run from the Loop to Forest Park on the Lake Street Division; to Westchester; Oak Park Avenue in Berwyn, and to Logan Square and to Humboldt Park, on the Metropolitan Division. Service was extended westward from Forest Park to Maywood, Bellwood and Westchester, October 1, 1926. The distance from the Loop to Westchester is approximately 14½ miles.

Fares—The following table shows the various changes in rates of fare and dates these changes became effective:

Date When Fare Change Became Effective	City Fare & West of City Limits Cash.	Ticket.	North of City Limits Local Through	Ticket Rate.

February 1, 1920	8 cts.	2 tickets 15 cts.	6 cts.	12 cts.
August 4, 1920	10 cts.	4 tickets 35 cts.	7 cts.	13 cts.
September 18, 1922	10 cts.	3 tickets 25 cts.	*7 cts.	13 cts., 2 for 25 cts.
Weekly pass. riders pay per week		$1.25		$2.00
School book of 50 rides		2.50		4.00
Children 7 to 12 years 3 cts.			3 cts.	

*Beginning Oct. 1, 1926, these rates also apply west of Desplaines Avenue.

In Feb., 1928, the Company filed with the Illinois Commerce Commission new fare schedules providing for a straight ten-cent fare with the three-for-a-quarter tickets and the $1.25 unlimited ride weekly passes abolished.

Mileage, Equipment, Etc.—The Company operates 229.54 miles of single track (197.33 being main track), of which 170.55 miles are owned and 58.99 miles are under lease or contract. Mileage is largely on its private right-of-way except where streets are crossed. The equipment includes 1,202 motor passenger cars, 628 trailer passenger cars, 42 service cars and 2 electric locomotives, a total of 1,874.

$11,242,000 CHICAGO RAPID TRANSIT CO. FIRST & REFUNDING MORTGAGE 6½% GOLD BONDS, SERIES DUE 1944, DUE JULY 1, 1944

$3,395,000 CHICAGO RAPID TRANSIT CO. FIRST & REFUNDING MORTGAGE 6% GOLD BONDS, SERIES DUE 1953, DUE JULY 1, 1953

Dated, 6½% Series, due 1944, July 1, 1924, and 6% Series due 1953, July 1, 1923.

Interest Payable January and July 1, at Continental National Bank & Trust Co., Chicago, and The National City Bank, New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Registered bonds in denominations of $1,000, $5,000 and multiples of $5,000. Coupon and registered bonds are interchangeable in principal amount of $1,000 or some multiple thereof.

Trustee—Continental National Bank & Trust Co., Chicago.

Provisions of Issue—Authorized amount of mortgage, unlimited. Issued and outstanding, $14,637,000, of which $11,242,000 are 6½% Series, due 1944, and $3,395,000 6% Series, due 1953.

Additional bonds may be issued in series with such rates of interest, dates, maturities and redemption provisions, as may be determined by the Board of Directors. Bonds of any series may be issued from time to time for the acquisition or retirement of equal principal amounts of divisional mortgage bonds or equipment obligations or First and Refunding Mortgage bonds of other series. Bonds not exceeding $5,000,000 may be issued subject only to such conditions as the Illinois Commerce Commission may prescribe. Additional bonds may be applied for and issued at any time for not exceeding 75% of expenditures for additions, extensions, and improvements to the property and equipment of the Company, provided that net earnings for 12 consecutive calendar months ending not more than 60 days prior to the date of issuance of the bonds shall have been not less than 1¾ times the annual interest charges on all divisional mortgage bonds and First and Refunding Mortgage bonds outstanding in the hands of the public, and the First and Refunding Mortgage bonds so applied for.

The First and Refunding Mortgage contains provisions permitting the modification thereof, or of any supplemental indenture, with the assent of holders of 75% in principal amount of bonds present or represented at a meeting of bondholders at which two-thirds in aggregate principal amount of the outstanding bonds shall be represented; provided, however, that nothing shall permit the extension of the maturity of any bond, or the reduction in the rate of interest thereof, or any other modification in the terms of payment of principal or interest, without the consent of the holder thereof, nor the creation by the Company of any mortgage lien on its property ranking prior to or on a parity with the lien of the First and Refunding Mortgage.

Callability—The 6½% Series, due 1944, is subject to call as a whole or in part at option of Company or through the operation of the sinking fund on any interest date prior to maturity on 30 days' previous notice at 105 if redeemed on or before July 1, 1925 the premium decreasing thereafter at the rate of ¼% of principal for each full year intervening between June 30, 1925, and the date of redemption.

The 6% Series, due 1953, is subject to call on any interest date on 30 days' notice at 105 if redeemed on or before July 1, 1933, and at 102½ if redeemed thereafter.

Sinking Fund—The First and Refunding Mortgage provides for a Sinking Fund calling for the payment in cash, on Jan. 1 and July 1 in each year, beginning Jan 1, 1929, of an amount equal to ½ of 1% of the total aggregate principal amount of First and Refunding Mortgage Gold bonds issued and then outstanding. Moneys so paid into the Sinking Fund are required to be utilized first in the purchase of First and Refunding Mortgage Gold bonds at or below the price at which they might be redeemed, and if such bonds are not obtainable by purchase, the moneys not so utilized are to be used in the redemption and retirement of bonds.

Security—The First and Refunding Mortgage Gold bonds are secured by a direct first mortgage on the property formerly owned by the South Side Elevated

R. R. Co. The value of the properties comprising the South Side Division, based on an appraisal by the Illinois Public Utilites Commission, is more than $23,700,000. The South Side Division includes all the elevated lines serving the south side of the city of Chicago, consisting of 39.58 miles of track owned by the Company, and 6.31 miles (the Kenwood and Stock Yards Branch) operated under long term lease. The South Side lines are located partly in street and alleys, and partly on private rights-of-way. The real estate of the South Side Division, chiefly consisting of private rights-of-way, aggregates 57 acres, and cost more than $4,700,000.

The First and Refunding Mortgage Gold bonds are secured also by a direct mortgage lien on the remaining properties owned by Chicago Rapid Transit Co., subject to divisional mortgage bonds and equipment obligations of which $31,929,000 amount are outstanding with the public as at Dec. 31, 1927. As additional security, $4,187,000 divisional mortgage and equipment obligations are pledged with the Trustee under the First and Refunding Mortgage. The divisional mortgages have been closed and no further bonds may be issued thereunder.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

The Company agrees to reimburse to owners resident in the respective states, upon proper applicaton, the following taxes hereafter paid in respect to First and Refunding Mortgage bonds of the 6½% Series due 1944; the 4 mills tax in Pennsylvania; any securities tax in Maryland not exceeding in the aggregate 45 cents on each $100 of assessed value in any year; and any personal property or exemption taxes in Connecticut not exceeding 4/10ths of 1% of face amount in any year.

$18,563,000 CHICAGO RAPID TRANSIT CO. ADJUSTMENT DEBENTURE BONDS, DUE JULY 1, 1963

Dated July 1, 1923.

Interest Payable January and July 1, only if declared by Board of Directors, at The National City Bank, New York, and Continental National Bank & Trust Co., Chicago. Interest (not exceeding 6% per annum) is payable, prior to maturity, only out of the net income or other available funds of Company if and when appropriated for that purpose by the directors from time to time. Interest is cumulative from July 1, 1924, at the rate of 4% per annum. This interest is payable from time to time only if and when declared by Directors, provided that all accrued and unpaid cumulative interest must be paid (1) before any dividends are paid on Company's Common stock, and (2) at the maturity of the bonds.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Coupon and registered interchangeable.

Trustee—The National City Bank, New York.

Provisions of Issue—Authorized and issued, $18,563,000.

Callability—Subject to call as a whole or in part upon at least 30 days' published notice, by payment of principal amount thereof, if redeemed on or before Jan. 1, 1929, or if redeemed thereafter, by the payment of the principal thereof plus the amount of any unpaid interest accumulated thereon from Jan. 1, 1929, at 4% per annum.

Sinking Fund—$250,000 must be appropriated for redemption of these Debentures in any calendar year wherein the Company pays any cash dividends on its capital stocks of any class not entitled to preference dividends as ordered by the Board of Directors from surplus, and in any calendar year wherein such cash dividends exceed $834,000 then the sinking fund must be increased to equal 30% of such total dividends and may be further increased.

Convertibility—Debentures are not convertible.

Security—So long as any of the Debenture Bonds remain outstanding and unpaid, no dividends shall be declared on the Common stock, unless (a) all arrears of the 4% cumulative interest shall have been paid on all outstanding debenture bonds, nor unless (b) interest at the full rate of 6% per annum for such fiscal year on all outstanding Debenture Bonds shall have been either paid or declared payable and the moneys therefor set aside and appropriated for the purpose nor unless (c) in such fiscal year the Corporation shall have paid to the Trustee $250,000 in cash as a sinking fund for the retirement of debenture bonds at par and interest. In case the Company shall, in any fiscal year, pay a dividend or dividends on any class of capital stock not entitled to preference dividends amounting to more than $834,000, the cash payment to the sinking fund shall be an amount equal to 30% of the aggregate of such dividend payments. The Company has the right to deposit with the Trustee any additional sum or sums for the account of the sinking fund.

Tax Provisions—Company does not pay Normal Federal Income Tax.

Price Range—1927: High, 51¾ bid; low 37 bid.

Equipment Obligations issued jointly by Metropolitan West Side Elevated Ry. Co., Northwestern Elevated R. R. Co. and South Side Elevated R. R. Co.

$875,000 6% EQUIPMENT TRUST GOLD CERTICIFATES, SERIES C-1; DUE $170,000 EACH SEPTEMBER 1, 1928 TO 1931, INCLUSIVE, AND $195,000 SEPTEMBER 1, 1932

Dated September 1, 1922.

Dividends Payable March and September 1, in Chicago or New York.

Denominations—Coupon, $1,000, except last maturity which is in denominations of $100, $500 and $1,000.

Trustee—Northern Trust Co., Chicago.

Provisions of Issue—Original issue, $1,725,000, of which $850,000 matured and paid off to Dec. 31, 1927.

Callability—Subject to call as a whole or in part on 30 days' notice on any dividend payment date at 101 and accrued dividends for certificates having more than five years to run from date of redemption, and at 100½ and accumulated dividends for certificates having five years or less to run.

Security—These certificates have been issued under an Equipment Trust Agreement by the Northern Trust Co., Chicago, as Trustee, and represent about 75% of the cost of 100 steel passenger motor cars. Upon delivery of the equipment to the railroad companies, full title thereto will be vested in the trustee providing for rentals sufficient to pay these certificates and the dividend warrants as they come due. Under the terms of the lease and the Equipment Trust Agreement, the railroad companies covenant jointly and severally (a) to maintain and keep the equipment in good order and repair, (b) to replace any of said equipment that may be worn out, lost or destroyed, (c) to insure the equipment against loss or damage by fire to an amount not less than the balance of the certificates unpaid and

outstanding, and (d) to pay to the trustee as rental, amounts sufficient to pay these certificates and dividend warrants as they become due.

The equipment was leased to the Norwestern Elevated R. R. Co., South Side Elevated R. R. Co. and The Metropolitan West Side Elevated Ry. Co., jointly and severally, and in addition the companies, jointly and severally, guaranteed the principal and dividend payments. These companies having been merged into the Chicago Rapid Transit Co., the obligations of the several companies under the lease have been assumed by the consolidated company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mills tax refunded.

Original Offering—First publicly offered ($1,725,000) in Sept., 1922, by Halsey, Stuart & Co., Inc., New York at prices ranging from 100.48 to 100, with accumulated dividends in each case, yielding from 5.50% for the 1923 maturity, 5.75 for the 1924 maturity and 6% for the remaining maturities.

(Public Service Corporations under the Executive Management of Stone & Webster, Inc.)

(See Accompanying Map)

The properties under the management of this organization comprise a number of electric railways, electric lighting, gas and water power companies located in various sections of the United States. The accompanying map shows the location of the several properties. Each of the companies is a distinct corporation, having its own accounts, which are separately kept, and its own officers and board of directors. This independence is necessary, as the security holders, with the exception of Stone & Webster, Inc., are not common to the different companies.

They may also be issued par for par in exchange for First Mortgage bonds of controlled companies, provided that the total issue of such bonds does not exceed 75% of the fair value of the controlled Company's property. Bonds of future series may bear such dates, mature at such dates not later than Jan. 1, 2000, bear interest at such rates, be callable at such prices, and have such sinking fund, conversion, tax or other provisions as shall be determined by the Board of Directors at the time of issue.

Stockholders on March 7, 1928, consented to the bonding of the Company's property, rights, privileges and franchises, both present and future acquired, to an aggregate principal amount not exceeding $18,500,000, including the $8,500,000 bonds authorized by the stockholders on Dec. 1, 1924. To this end the directors were empowered from time to time in their discretion to issue, under the Company's First & Refunding Mortgage dated June 1, 1922, and in conformity with the provisions thereof, bonds in such installments and series as they may deem desirable, but within the limitation as to aggregate principal amount herein specified.

Callability—Series "A" bonds are subject to call as a whole or in part on any interest date after June 1, 1932, up to and including June 1, 1937, at 105 and thereafter decreasing ½ of 1% each year to 101 for year ending June 1, 1945, and at 100 thereafter, plus accrued interest in each case.

Series "B" bonds are subject to call as a whole or in part on any interest day at 105 up to and including Nov. 1, 1944, and thereafter decreasing ½ of 1% for each year to 100 after Nov. 1, 1935, plus accrued interest in each case.

Sinking Fund—Series "A" bonds: 2% per annum of the total bonds issued, commenced Nov. 1, 1923, to be applied to the purchase of Series "A" bonds at not exceeding 105 and accrued interest prior to and including June 1, 1937, and thereafter at not exceeding their redemption prices.

Series "B" bonds: 1½% per annum of bonds outstanding at time of payment (first payment Nov. 1, 1926) to be applied to purchase of Series "B" bonds at not exceeding 100 and interest.

If bonds are not so purchasable, the balance may be applied either to purchase underlying bonds at not exceeding their redemption price in case of Series "A" sinking fund and at not exceeding 100 and interest in case of Series "B" sinking fund, or to reimburse the Company for 75% of the cost or fair value, whichever is less, of additional property acquired against which no bonds may be issued. All First and Refunding Mortgage bonds acquired by the sinking fund are to be cancelled.

Security—A mortgage on entire property now owned or hereafter acquired, being a first lien on the Bartlett's Ferry hydro-electric development, a portion of the transmission lines, the retail electric light and power distribution system and the railway properties; and is a lien subject only to $3,543,000 underlying closed mortgage bonds on the other power properties and transmission lines; and is also a first lien on the entire property of the former Gas Light Co. of Columbus.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Johnson, Clapp, Ives & Knight, and Ropes, Gray, Boyden & Perkins, Boston, Lawrence & Abrahams, Savannah, Ga., and Frank U. Garrard, Columbus, Ga.

Legal for Savings Banks in Maine, New Hampshire, Vermont and Rhode Island.

Original Offering—First publicly offered ($1,500,000 Series "A" 6s) in June, 1922, at 97 and interest, yielding about 6.25% by Estabrook & Co., Stone & Webster, Inc. (now Stone & Webster and Blodget, Inc.), and Parkinson & Burr, New York, Boston, etc.; $2,000,000 Series "B" 5s were publicly offered in Dec., 1924, at 92 and interest, yielding 5.55%, by the same syndicate of bankers; $2,000,000 additional Series "B" 5s were publicly offered in June, 1925, at 95½ and interest to yield 5.30%, by the same bankers; in Nov., 1927, $2,000,000 Series "B" 5s were publicly offered at 101.87 and interest, yielding 4.875%, also by the same bankers.

EASTERN UTILITIES ASSOCIATES

A voluntary association organized in 1928 to effect a closer relationship between Blackstone Valley Gas & Electric Company, Edison Electric Illuminating Company of Brockton and The Electric Light & Power Company of Abington and Rockland, which should result in more efficient and economical service and be of benefit to the stockholders and to the public served. It is the opinion that such relationship can be best accomplished under existing laws through the exchange of Common stock of the three companies above mentioned for shares in the new voluntary association. The electric properties of the three operating companies are already interconnected and their power requirements furnished in part from the same generating stations which has resulted in substantial savings. A consolidation of the physical properties is not feasible under the existing laws. The powers and financial structure of the new association will be such that it will be able to take advantage of favorable opportunities to acquire securities of other strategically located companies either through purchase or through exchange for its own securities.

The basis of exchange proposed contemplates the issue of Common shares of the new voluntary association, the dividend rate on which will be equivalent to the regular dividends now paid by the respective companies and the issue of convertible shares in proportion to the further values in the respective properties.

The plan of reorganization provides for the exchange of shares of the voluntary association for shares of Blackstone Valley Gas & Electric Company, Edison Illuminating Company of Brockton and The Electric Light & Power Company of Abington and Rockland, on the following basis:

Each share of Common stock of Blackstone Valley Gas & Electric Company shall be exchangeable for 2½ Common shares and 3¾ convertible shares of the new association;

Each share of Common stock of Edison Illuminating Company of Brockton shall be exchangeable for 1¼ Common shares and 1¼ convertible shares of the new association;

Each share of Common stock of The Electric Light & Power Company of Abington and Rockland shall be exchangeable for 1 Common share and 1¾ convertible shares of the new association.

Fractional shares will not be issued but in lieu thereof there will be issued scrip for fractional shares which may be either assignable or issued to bearer and which, when presented in sufficient amounts to represent one or more full shares of the same class, will entitle the holder to receive therefor the number of full shares so represented. Such scrip will not entitle the holders thereof to vote or to receive dividends thereon.

The Deposit Agreement provides that the depositary is not obligated to declare the plan operative and proceed with its consummation unless the existing voting trusts are terminated and unless a majority of the voting stock of Blackstone Valley Gas & Electric Company, Edison Electric Illuminating Company of Brockton and The Electric Light & Power Company of Abington and Rockland, respectively, is deposited but that the depositary may, nevertheless, in its discretion, declare such plan operative even if less than such majority is so deposited. Common stockholders of the three operating companies or holders of voting trust certificates therefor who desired to become parties to the agreement were requested to deposit their certificates with the depositary, Stone & Webster, Inc., 49 Federal St., Boston, Mass., not later than April 2, 1928 (time temporarily extended). Transferable Certificates of Deposit were issued to depositors.

Up to April 2, 1928 the following amounts of Common stock were deposited under the deposit agreement of March 3, 1928, for exchange of shares of Eastern Utilities Associates: Blackstone Valley Gas & Electric Company, 81%; Edison Electric Illuminating Company of Brockton, 84%; the Electric Light & Power Company of Abington and Rockland, 86%.

CAPITAL STOCK

The transferable certificates of beneficial interest known as shares to be issued shall consist of Common shares without par value, Convertible shares without par value, and of Pfd. shares of one or more classes either with or without par value. Subject to the prior rights and preferences of any class or classes of Pfd. shares that may be hereafter authorized and issued, Common shares shall be entitled out of the profits or surplus of the association to non-cumulative dividends when and as declared by the trustees at the rate of $2 per share per year before any dividends are paid on the Convertible shares. In any calendar year in which dividends at the rate of $2 per Common share have been paid or declared and set aside for payment in that year, Convertible shares shall be entitled out of the profits or surplus of the association to non-cumulative dividends up to but not exceeding $1 per share per year before any further dividends are paid in such year on the Common shares. Any dividends in excess of the aforesaid amounts paid in such year shall be distributed to both classes of shares in such amounts that each Convertible share will receive one-half the amount received by each Common share when the earnings of the Association for two consecutive calendar years available for distribution as dividends on the shares of the Association (including in such earnings that portion of undistributed earnings for said

two consecutive calendar years of any subsidiary corporations or associations, in which this Association owns not less than a majority of the Voting shares, available for distribution as dividends on the shares of any such subsidiary owned by this Association) all as determined by the Trustees, shall have been not less than $2.40 per share per annum on the outstanding Common shares plus $1.20 per share per annum on the outstanding Convertible shares, the Convertible shares shall be convertible at the option of the holder at any time or from time to time thereafter into Common shares in the ratio of two Convertible shares for one Common share.

In the event of the liquidation of the Association resulting in a distribution to the shareholders, the amount distributed in liquidation shall be so distributed that each Common share shall receive in such liquidation twice the amount received by each Conververtible share. Subject to certain limitations, shares of any class or classes may be issued by the Trustee from time to time for cash, property or services. Not exceeding 2,000,000 Common shares and 2,000,000 Convertible shares may be issued by the Trustees without the consent, vote or authority of the holders of any shares previously issued, but such number of Common shares shall be automatically increased and such number of Convertible shares automatically decreased by and upon the conversion of Convertible shares into Common shares and to the extent respectively to effect such conversion. Of the shares so authorized 614,200 Common and 826,155 Convertible shares shall be set apart and reserved to be issued in exchange for shares of the Common stock of Blackstone Valley Gas and Electric Company, Edison Electric Illuminating Company of Brockton and The Electric Light and Power Company of Abington and Rockland as shall have been deposited under the Deposit Agreement of March 3, 1928. The remaining 1,385,760 Common shares and 1,173,845 Convertible shares plus such Common shares and Convertible shares as shall not have been used or required for exchange for Common shares of the three companies mentioned above may be issued for such purposes as the Trustees may determine, provided that if any shares are sold for the purpose of raising funds to enable the Association to subscribe for its pro rata portion of any additional securities offered to it for subscription as a shareholder in any other association or corporation or to reimburse its treasury for funds expended for that purpose, then in that case, the shares of the Association so sold for such purpose shall be first offered for subscription to the holders of Common shares and of Convertible shares.

BLACKSTONE VALLEY GAS & ELECTRIC COMPANY

History and Property—Incorporated April 23, 1912, in R. I., and acquired the physical property of Woonsocket Gas Co., and subject to the outstanding bonds, the physical properties of Pawtucket Electric Co. and Woonsocket Electric Machine & Power Co. (see Manual for 1912, page 2034). It also acquired all the Common stock ($1,000,000 par value) and $10,000 of $1,000,000 par value of the preferred capital stock of The Pawtucket Gas Co. of New Jersey, which owns all the capital stock of The Pawtucket Gas Co., and other property and assets of the Blackstone Valley Gas & Electric Co. of Maine (see Manual for 1912, page 2303). Stock of the present company was exchanged for stock of the old company, share for share.

This company, through direct ownership and control of The Pawtucket Gas Co., does the entire gas, electric lighting and power business in the Blackstone Valley of Rhode Island, including the cities of Pawtucket, Woonsocket and Central Falls, the towns of Cumberland, Lincoln and those adjacent. The principal franchises are not limited in time. Estimated population served, Jan. 1, 1928: Electric light and power, 181,300; gas, 185,900. Power stations are located at Pawtucket and Woonsocket, R. I.; capacity 30,400 k.w. The transmission system is connected with that of the Rhode Island Power Transmission Co., which permits the purchase and sale of 38,590 k.w. under a long term contract. (5)

$4,000,000 BLACKSTONE VALLEY GAS & ELECTRIC CO. MORTGAGE & COLLATERAL TRUST GOLD 5s, SERIES "A"; DUE APRIL 1, 1957

Dated April 1, 1926.

Interest Payable April and October 1 at State Street Trust Co., Boston, National Bank of Commerce in New York, and Illinois Merchants Trust Co., Chicago.

Denominations—Coupon, $500 and $1,000; principal may be registered; interchangeable.

Trustee and Registrar—State Street Trust Co., Boston, Mass.

Provisions of Issue—Authorized amount of bonds is not limited, except by Charter provisions which limit the total indebtedness of the Company to $16,-

000,000; issued, $4,000,000 Series "A." Proceeds of Series "A" bonds, together with proceeds received from the issue of $1,299,350 Common stock, were used in payment of $2,700,000 two year 5½% Gold notes, due May 1, 1926; for the retirement of $400,000 of floating indebtedness, and the financing to the extent of $1,900,000 of the 1926 construction program.

The Mortgage Indenture provides that bonds may be issued in series bearing such rates of interest, maturing at such dates, redeemable on such terms and containing such other rights and limitations as the directors may determine prior to the issue thereof. Bonds additional to the $4,000,000 Series "A" 5% bonds may be issued:

(a) Against 75% of the cost or value, whichever is less, of additional public utility property as defined in the mortgage acquired by the Company or when acquired by The Pawtucket Gas Company (Rhode Island) or a new subsidiary when notes of The Pawtucket Gas Company and secured debt of a new subsidiary, par for par, are acquired and subjected to the lien of this mortgage;

(b) Par for par against The Pawtucket Gas Company of New Jersey Preferred stock and bonds now outstanding when acquired and subjected to the lien of this mortgage;

(c) Against 100% of mortgage bonds or other secured debt and 50% of unsecured debt and stock of a new subsidiary outstanding at the date it becomes a subsidiary acquired by the Company and subjected to the lien of this mortgage, provided that the principal amount of bonds issued under this provision plus the secured debt of such subsidiary outstanding and not owned by the Company, shall not exceed 75% of the cost or engineers' appraisal value, whichever is less, of the public utility property owned by the subsidiary company at the date it becomes a subsidiary;

(d) Against 100% of the cost of secured debt and 50% of the cost of unsecured debt and stock of the Montaup Electric Company subjected to the lien of this mortgage;

(e) To refund bonds of any series of this mortgage, and underlying bonds of the Blackstone Valley Gas and Electric Company, The Pawtucket Electric Company, Woonsocket Electric Machine and Power Company and The Pawtucket Gas Company of New Jersey and secured debt of any other subsidiary made refundable under the mortgage;

(f) Against cash to the amount deposited with the Trustee.

Additional bonds of any future series shall be issued for the aforesaid purposes, other than (b) and (e) above only when the combined net earnings of the Company and subsidiaries for 12 consecutive months within the 15 calendar months preceding are 1¾ times the interest charges on the bonds to be issued, together with all obligations prior to and on a parity with the bonds to be issued.

Callability—Subject to call in whole at any time or in part on any interest date on 30 days' published notice at 105 up to and including Oct. 1, 1931; thereafter at 104 to and including Oct. 1, 1935; thereafter at 103 to and including Oct. 1, 1939; thereafter at 102 to and including Oct. 1, 1943; thereafter at 101 to and including Oct. 1, 1947 and at 101 less ¼ of 1% for each year or part thereof thereafter to maturity and with accrued interest in all cases.

Sinking Fund—Beginning July 1, 1927 the Company will pay in each year to the Trustee cash to the amount of 1% of Series "A" bonds certified. Such sinking fund shall be applied to the purchase of bonds at a price not in excess of a maximum price to be fixed each year by the directors of the Company, provided, however, that such maximum price shall not be less than 100. If the Trustee is unable to purchase bonds with the money deposited in the sinking fund at the maximum price or less any balance may be paid to the Company against additional property (to the extent of its cost or value, whichever is less), not previously used for bond issue or release purposes under its mortgages.

Security—Secured on entire property directly owned by Company and by deposit of collateral valued at over $5,300,000, subject to the prior liens described under (1) to (4) above.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Ropes, Gray, Boyden & Perkins, Boston (for the Bankers).

Original Offering—First publicly offered ($4,000,000) in May, 1926, at par and interest, by Estabrook & Co. and Stone & Webster, Inc., New York, Boston, etc.

PUGET SOUND POWER & LIGHT COMPANY

History—Incorporated originally Jan. 19, 1912, in Maine, as Puget Sound Traction Light & Power Co.; reincorporated July 9, 1912, in Mass.; present title adopted March 22, 1920. Purchased and consolidated the properties formerly owned by The Seattle Electric Co.; Pacific Coast Power Co.; Puget Sound Power Co.; Seattle-Tacoma Power Co., and Whatcom County Ry. & Light Co. (see Manual for 1912, pages 2323, etc.); also acquired the Washington Coast Utilities, North Coast Power Co. and Olympia Light & Power Co. (see 1923 Public Utility Manual). For statement of Puget Sound Traction, Light & Power Co. (of Me.) and plan of exchange of securities, see Manual for 1912, page 2322. Information in back Manuals furnished on request to our Information Department.

Also owns most of the capital stock of Puget Sound Electric Ry. Co. and the entire capital stock of Pacific Northwest Traction Co., which owns the capital stock of Puget Sound International Ry. & Power Co. (lessee of Everett Ry., Light & Water Co.).

Recent Acquisitions—On Dec. 1, 1925, Company took possession of about 90 miles of transmission lines of Northwestern Power & Manufacturing Co. (now Northwestern Power & Light Co.—see General Index), and other electric light and power properties in the Olympic Peninsula, Wash., of the Sequin Light & Power Co.

On Jan. 2, 1926, acquired and took possession of the properties of North Pacific Public Service Co. (see 1925 Manual, page 783), operating in Bremerton, Charleston and Poulsbo, Wash.

On March 1, 1926, acquired the properties of Avery Public Utilities Corp. In Feb., 1927, purchased the Oakville Power, Light & Telephone Co., together with franchise holdings of the People's Utility Co.

Sale of Everett Water Plant—On Aug. 10, 1916, the City of Everett took over the water plant of the Everett Ry., Light & Water Co. for $994,000. Proceeds were used to take up the $500,000 Everett Water Co. First 5s, due 1921, and $497,000 of the $675,000 Everett, Ry., Light & Water Co. First 5s, due 1925.

Sale of Seattle Street Railway System—An ordinance authorizing the City of Seattle to purchase the operating street railway system (not including power equipment), operated by Puget Sound Traction, Light & Power Co. within the City of Seattle, was passed Dec. 31, 1918. This ordinance contains a contract whereby the City is to purchase from the Company power delivered to the trolley system. Terminal facilities for the two interurbans entering the city are provided for by contract. Consummation of the negotiations was dependent on the validation by the Washington State Supreme Court of the $15,000,000 5% utility bonds to be turned over by the City in exchange for the property. In March, 1919, the State Supreme Court affirmed the validity of the purchase. In April, 1919, the City of Seattle delivered to the Company $15,000,000 of 5% utility bonds in payment for the above property. The bonds taken in payment are deposited with the trustees of mortgages securing certain bonds and notes of the Corporation in substitution for the properties sold.

Properties and Territory Served—This Company does the greater part of the commercial electric lighting and power business in Western Washington, including the cities of Seattle, Tacoma, Bellingham, Everett, Olympia, Chehalis, Bremerton and Wenatchee, Wash. The Company owns or controls hydro-electric plants and water powers, with a present installed capacity of 198,700 horse power, amply capable of development to meet the growing power requirements of the district, and steam stations, with a present capacity of 44,710 horse power. Through ownership or control it operates city railways and buses over 46 miles of equivalent single track and bus routes and interurban lines over 936 miles of rail and bus routes. Estimated population served, Jan. 1, 1928: Transportation, 1,282,000; electric light and power, 961,000 of which 160,000 are served at wholesale only; gas, 51,300. Power stations are located at Baker River, White River, Snoqualmie Falls, Electron, Seattle, Bellingham, Nooksack, Falls, Entiat, Dryden, Chehalis, Wenatchee, Tumwater and Everett, Wash. Car barns and shops at Seattle, Bellingham, Tacoma, Everett, Olympia and Chehalis, Wash. Passenger cars, 59; freight, mail and miscellaneous, 101; auto stages and buses, 95.

Franchises—In Seattle lighting franchises expire in 1952. In Tacoma principal railway franchise expires in 1939; power in 1930. In Bellingham, principal railway franchise expires in 1941; minor railway in 1934; electric light and power in 1940; gas in 1941. In Everett lighting franchise expires in 1950; principal railway franchises expire in 1944, 1947 and 1950. In Olympia electric light and power franchises expire in 1937 and 1939, and railway in 1940. In Chehalis, light and power franchises expires in 1961. In Wenatchee the electric light and power franchise expires in 1950, gas in 1957; other principal franchises expire up to 1972. Interurbans operate chiefly over private right of way.

CAPITAL STOCK

Authorized, 202,829 shares Common of no par value $10,000,000 7% cumulative Prior Preference, par, $100 and 300,000 shares of $6.00 cumulative Pfd. (increased from 200,000 shares March 7, 1927) of no par value outstanding Dec. 31, 1927, 202,829 shares Common $10,000,000 (increased from $7,372,100 in 1924) Prior Preference and 233,000 shares of $6 cumulative Pfd. In March, 1924, capital stock was reduced from $51,000,000 to $46,282,900, by cancelling 47,171 unissued shares

of $100 par Common stock. The par value of Common stock was changed from $100 to shares of no par value without change in number of shares.

Proposed Change in Preference Stock—At a special meeting called for May 2, 1928, stockholders will vote on question of redeeming $10,000,000 7% cumulative Prior Pref. stock, par $100, as of May 1, 1928 and creating in place thereof an issue of 110,000 shares of $5 Dividend cumulative Prior Pref. stock of no par value, subject to call at $110, entitled in case of liquidation to $100 per share, and otherwise having substantially the same preferences, voting rights, restrictions and qualifications as the existing 7% Prior Pref. stock.

Preferred Stock Provisions—Prior Preference and Pfd. stocks have preference for dividends, and assets in case of liquidation or dissolution up to par and accrued dividends, in order named. They are subject to redemption as a whole or in part at any time and from time to time, the Prior Preference at $110 per share and accrued dividend, and the Pfd. at $125 per share and accrued dividend. Either the Prior Preference, Pfd. or Common stock, or any of such classes, may be increased according to law, and such increased stock, whether Prior Preference, Pfd. or Common, may be issued for property in the same manner as an original issue of stock and without offering such increased stock to stockholders for subscription. If any increased stock is offered to stockholders for subscription, no right to subscribe for or take any part of such stock so offered, if the same is Common stock, shall accrue to the Prior Preference or Pfd. stock; no right to subscribe for or take any part of such stock so offered, if the same is Pfd. stock, shall accrue to the Prior Preference stock; and if the stock so offered to stockholders for subscription is Prior Preference stock, it shall be offered pro rata to all stockholders regardless of class. All classes of stock have equal voting rights.

Prior Preference Stock Offering—$2,575,700 7% Prior Preference stock was publicly offered in Feb., 1924, at 103½ and dividends, to yield 6¾%, by Stone & Webster, Inc., New York, Boston and Chicago, Parkinson & Burr, Boston, and Estabrook & Co., New York and Boston.

Provisions of Issue—Authorized amount, unlimited. Issued $33,500,000 ($28,500,000 Series "A" 5½s and $5,000,000 Series "B" 5s), of which $1,000 Series "A" 5½s and $350,500 Series "B" 5s cancelled by sinking fund.

The proceeds from the sale of $20,000,000 Series "A" were used to retire the entire $13,476,500 General and Refunding Mortgage 7½% bonds and $453,700 underlying bonds, and to reimburse the Company, in part, for the cost of additions and improvements already made; the remaining $8,500,000 Series "A" were issued to provide funds for construction (chiefly for a large hydro-electric plant on Baker River) and to reimburse company for construction already made.

Additional Series "A" bonds, and bonds of other series, bearing such rates of interest, maturities, calling prices, etc., as the Board of Directors may determine, may be issued (a) to refund, par for par, underlying and divisional bonds, or any series of First & Refunding Mortgage bonds (except bonds acquired or retired through sinking funds); (b) $6,000,000 may be issued for 100%, and thereafter bonds may be issued for only 75%, of the cost or fair value of extensions, additions and improvements, to the electric light and power, gas, water, steam heat and transportation properties of the Company or any controlled Company, under carefully guarded restrictions to be provided in the mortgage, but only when net earnings, as defined in the mortgage, for 12 consecutive months within the 15 months next preceding such issue shall have been at least 1¾ times the sum of the annual interest charges on all First & Refunding Mortgage bonds outstanding and those proposed to be issued, and on all underlying bonds then outstanding, and any other interest charges on indebtedness secured by a lien on any part of the property mortgaged or pledged under the First & Refunding Mortgage, prior or equal to the lien of this mortgage.

Callability—Subject to call on any interest date on thirty days' published notice as follows: Series "A" prior to and including June 1, 1929, at 105; thereafter decreasing ¼% annually to 100 on Dec. 1, 1948. Series B" prior to and including Feb. 1, 1927 at 101¾; thereafter decreasing ¼% each six months to 100 on Aug. 1, 1930. Accrued interest to be added in the above cases.

Sinking Fund—Annual sinking fund (first payment Sept. 1, 1926) payable in cash or bonds equal to 1¼% of aggregate amount of bonds (including First & Refunding Mortgage and underlying bonds) in the hands of the public, on the mortgaged property. Any payments of sinking funds on underlying bonds will be credited toward the above sinking fund. The cash remainder will be applied to purchase First & Refunding Mortgage bonds of any series, at not exceeding par and accrued interest, or if bonds not so purchasable, to the cost or value of additions to the mortgaged property or reduction of bonded debt.

Security—A direct first mortgage on important parts of the Company's property including the hydro-electric plant now under construction on Baker River, having a proposed initial installation of 48,000 H. P. and an ultimate capacity of 100,000 H.P.; its water power lands and rights on the Skykomish River with 40,000 potential H.P.; (with minor exceptions) the electric light and power systems in the cities of Everett and Olympia and the power and light property formerly owned by the North Coast Power Co.; and certain additions and extensions to the Company's property,—together having value in excess of $12,000,000. As additional first lien security the Trustee holds, as collateral, $12,501,000 City of Seattle Municipal Railway 5% bonds of 1919, maturing serially $833,000 each year March 1, 1925 to 1938, inclusive, and $839,000 March 1, 1939, being the balance of $15,000,000 of bonds issued in 1919 in payment for the street railway properties in the City of Seattle, and of which $2,499,000 have already matured and been paid by the City.

The mortgage covers, substantially the entire remaining light and power and certain other property of the Company subject to the underlying divisional bonds, (described in Nos. 1, 2, 3, 5, 6 and 7), for the refunding of which, First & Refunding Mortgage bonds are specifically provided, and property hereafter acquired by the Company, excepting properties or securities hereafter acquired but not made the basis of the issue of First & Refunding Mortgage bonds.

The lien of this mortgage does not cover electric railway property, with one unimportant exception, and although the mortgage contains provisions permitting such property to be brought under its lien at not exceeding its then fair value, the Company now has no intention of exercising this right.

The mortgage provides that the cash proceeds received from the payment or sale of the City of Seattle Municipal Railway 5% bonds of 1919 will be deposited with the Trustee, and must be expended either for the acquisition and retirement of First & Refunding Mortgage bonds or underlying and divisional bonds at not exceeding the calling prices, or for the cost or fair value of additions or improvements to the mortgaged properties, which otherwise might be made the basis for issue of additional First & Refunding Mortgage bonds, with a further provision that all proceeds of the City bonds received before the underlying Seattle Electric Co. bonds are paid, if used for additions and improvements, shall be used only for those on which the First & Refunding Mortgage bonds will be a first mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Ropes, Gray, Boyden & Perkins, Boston (for the bankers), and Messrs. Gaston, Snow, Saltonstall & Hunt, Boston (for the Company).

Original Offering—First publicly offered ($20,000,000 Series "A" 5½s) in June, 1924, at 96¾ and interest, yielding about 5¾%; an additional $5,000,000 Series "A" 5½s were publicly offered in Sept., 1924, at 97 and interest, yielding about 5.70%, both issues, by Lee, Higginson & Co., Harris, Forbes & Co., and Estabrook & Co., New York, Boston, etc. $5,000,000 Series "B" 5s offered in April, 1926, at 99½ and interest, yielding 5.10%, by the same bankers.

PUGET SOUND ELECTRIC RAILWAY

(Controlled by Puget Sound Power & Light Co.)

History—Incorporated December 5, 1902, in New Jersey, and acquired the Seattle-Tacoma Interurban Ry. Co. Operates a high speed interurban railway between the cities of Seattle and Tacoma, Wash. Franchises: Chiefly private right of way, partly on highway under franchises the most important of which expire in 1951. Principal franchises in Tacoma expire 1939. Owns the entire capital stock, all the notes and $264,000 of an outstanding issue of $1,500,000 first mtge. 5% gold bonds of Tacoma Ry. & Power Co., and all the capital stock of the Pacific Traction Co., said companies doing entire electric railway business of Tacoma, except for a few municipal lines operated by the city. Miles of equivalent single track, 161.1. Gauge, standard. Rails, 70 and 72 lb. T. Total rolling stock owned, 339. Purchases power from Puget Sound

Power & Light Co. Car barns and shops at Tacoma and Kent, Wash. Estimated population served, $541,300.

Interest Default—Company defaulted the Aug. 1, 1927 interest on its $2,427,000 outstanding First Consolidated Mortgage 5% Gold bonds.

Receiver Appointed—Upon hearing of the application of the Old Colony Trust Co., Boston, Mass., Judge E. E. Cushman of Federal court in March, 1928, appointed S. Z. Henderson, of Tacoma, as receiver of Company's properties in western Washington. Bond was fixed at $50,000 with the understanding that if an order is entered directing the property be sold the amount will be raised. The appointment of a receiver resulted from the filing of a complaint with the court by the Trust Company alleging that there was now due and payable to it as trustee under certain mortgages a total of $2,552,505 and that a receiver should be appointed for protection of bondholders.

Bondholders' Committee Formed—In Feb., 1928, it was announced that a Bondholders' Committee had been formed with W. Rodman Peabody as Chairman to protect the holders of the Company's securities.

CAPITAL STOCK

Authorized, 3,000,000 shares of Common and 400,000 shares Pfd.; both of no par value; outstanding, 897,240 shares of Common and 320,000 shares $5 dividend cumulative convertible Pfd. During April 1928, authorized capital stock was changed and increased from 1,500,000 shares of Common and 400,000 shares $7 Dividend Pfd., both of no par value. The outstanding $7 Dividend Pfd. was to be redeemed July 2, 1928 at 110 and accrued dividends.

Common Stock Option Warrants—The purchasers of 400,000 shares of Common stock received Option Warrants for purchase of 200,000 additional shares of Common stock on or before Jan. 2, 1928 at $25 per share, thereafter on or before July 1, 1930 at $27.50 per share, and thereafter on or before Jan. 2, 1933 at $30 per share. As of April 1, 1928, option Warrants were outstanding for 200,000 shares of Common stock.

Preferred Stock Provisions—The $5 dividend convertible Pfd. stock has preference as to assets and cumulative dividends and in liquidation is entitled to $100 and dividends plus, in event such liquidation be voluntary, a premium of $10 per share on or before June 30, 1928 and thereafter of $5 per share. The holders of Pfd. stock shall not be entitled to vote except in statutory proceedings, and except in case at any time Company shall fail to pay any quarterly dividend and shall fail to declare and pay said dividend and all subsequently accrued dividends on or before the eighth succeeding quarterly dividend payment date, then holders of Pfd. stock voting as a class shall have the right to elect one less than a majority of directors. The $5 dividend convertible Pfd. is subject to call as a whole or in part at any time on 30 days' notice at $110 and dividends up to and including June 30, 1938 and at $105 and dividends thereafter. The balance of authorized Pfd. stock may be issued in one or more series varying in respect of designation, dividend rates, redemption and liquidation premium and convertibility.

Conversion Privilege—The $5 dividend convertible Pfd. stock is convertible as to each block of ten shares thereof before July 1, 1938 into shares of Common stock of Company on following basis: First 40,000 shares surrendered for conversion, for each 10 shares thereof 21 shares of Common stock; the second 40,000 shares surrendered, for each 10 shares thereof 19 shares of Common stock; the third 40,000 shares surrendered, for each 10 shares thereof 17 shares of Common stock; the fourth 40,000 shares surrendered, for each 10 shares thereof 16 shares of Common stock; and the last 160,000 shares surrendered, for each 10 shares thereof 15 shares of Common stock.

Purpose of Issue—Proceeds of sale of $5 dividend convertible Pfd. were applied, with other funds, toward retirement of outstanding $7 dividend Pfd.

Transfer Agents—The Chase National Bank, New York and Stone & Webster, Inc., Boston.

Registrars—The Hanover National Bank, New York and National Shawmut Bank, Boston.

EASTERN TEXAS ELECTRIC COMPANY (DELAWARE)

(Controlled by Engineers Public Service Company)

History—Incorporated in April, 1924, in Delaware, and has acquired and now owns more than 99% of the outstanding Common and Pfd. stocks of Eastern Texas Electric Co. (Texas); the entire capital stock of Gulf States Utilities Co., Louisiana Electric Co., Inc., and Nebraska Electric Power Co.; and more than 98% of the Common stock (this class only votes) and more than 29% of Second Pfd. stock of Western Public Service Co.

These companies do the entire electric lighting and power business in Beaumont and Port Arthur, Tex., and vicinity, the entire electric lighting and power, ice and water business in Orange, Tex.; the electric lighting and power, ice, and/or gas and water business in Lake Charles and Jennings, La.; and serves a large agricultural area by transmission lines in Southern Louisiana. It also does an ice, water, steam heating and/or electric lighting and power business in more than 130 other towns and cities located in Texas, Louisiana, Wyoming, Colorado, Nebraska and Missouri. It does the majority of the ice business in Port Arthur; street railway and bus transportation in Beaumont, Tex., and Lake Charles, La., and operates an interurban railway between Beaumont and Port Arthur, Tex.

Estimated population served Jan. 1, 1928: Light and power, 303,000; transportation, 128,000; gas, 16,000.

Property—There are six principal power stations, located at Neches, Beaumont, Orange and Port Arthur, Tex., and Lake Charles and Jennings, La. The combined capacity of all stations is 59,638 k.w., of which 54,703 k.w. is steam, 95 k.w. hydro-electric, and 4,840 k.w. internal combustion. This includes a new steam turbine power plant, erected on the Neches River near Beaumont, Tex., to serve the requirement of the Gulf Coast Region, designed for an ultimate capacity of 300,000 k.w., of which 21,000 k.w. has been installed. An additional 35,000 k.w. generator is being added. Miles of transmission line (6,600 volts and over), 1,311.50. Power is supplied to Port Arthur Traction Co.

Railway Department: Miles of equivalent single track, 37.0 Trackage, 1.7 miles. Gauge, standard. Car barns and shops at Beaumont, Tex., and Lake Charles, Louisiana. No. of revenue type cars, 65; other cars, 5—total, 70. No. of buses, 18.

Control—In accordance with an offer made to Common stockholders in January, 1926, whereby they could exchange their stock on the basis of ¾ of 1 share of $7 Pfd. stock and 1½ shares of Common stock of Engineers Public Service Co. for each share of Common stock held, the latter Company now owns over 97.68% of Common stock and Convertible Notes of Eastern Texas Electric Co. (Delaware).

FUNDED DEBT

(1)

$4,331,000 FIRST MORTGAGE GOLD 6s, SERIES "A"; DUE APRIL 1, 1950

Dated April 1, 1925.

Interest Payable April and October 1, at The International Trust Co., Denver, Colo., Central Union Trust Co. of New York, and Continental National Bank & Trust Co., Chicago.

Denominations—Coupon (principal may be registered) $500 and $1,000; interchangeable.

Trustees—The International Trust Co., Denver, Colo. and Albert W. Jones, Jr., Denver.

Registrars of Bonds—The International Trust Co., Denver, Colo.; Central Union Trust Co. of New York, and Continental National Bank & Trust Co., Chicago.

Provisions of Issue—Issued, $4,399,000 Series "A" 6s of which $19,000 held in treasury and $49,000 cancelled to Dec. 31, 1927. The proceeds of the Series "A" bonds, $1,044,000 Debenture Gold bonds, Series "A" 6½%, and $500,000 par amount of First Pfd. 7% cumulative stock, were used to retire the outstanding funded obligations and for other corporate purposes.

Additional First Mortgage bonds of Series "A" or of subsequent series (with such rates of interest and maturing on such dates and with such other provisions as directors may determine) may be issued in principal amounts not greater than 75% of the cost or fair value (whichever is less) of additions, extensions, improvements, betterments, and new acquisitions made or acquired subsequent to Dec. 31, 1924 (exclusive of certain properties recently acquired or in process of acquisition by funds provided through this financing) and subjected to the lien of this Mortgage, either directly or through pledge of securities, and of permanent improvements, betterments and additions to property thus subjected to the lien thereof; provided that earnings applicable to bond interest for any twelve consecutive months of the immediately preceding fifteen months shall have been not less than twice the aggregate annual interest requirements of prior lien obligations (if any) and First Mortgage bonds then outstanding, including those proposed to be issued. The mortgage further provides that Series "A" bonds or bonds of subsequent series may be issued to refund underlying obligations in respect of after-acquired property, and to refund bonds previously issued under this mortgage.

Callability—Subject to call as a whole at any time, or in part on any interest date upon 60 days' notice, at 107½ and interest if redeemed on or before April 1, 1929; thereafter on or before April 1, 1934, at 105 and interest, thereafter on or before April 1, 1939, at 103 and interest thereafter on or before April 1, 1944, at 102 and interest; thereafter on or before April 1, 1949, at 101 and interest; and thereafter at par and interest.

Improvement Fund—The mortgage includes provision for the establishment of an "Improvement Fund" payable annually to the Trustees in an amount equal to the balance remaining after deducting actual maintenance expenditures from 12½% of consolidated gross operating revenues of company and subsidiaries. Moneys in the Improvement Fund may be used from time to time by company for (a) additions, improvements, extensions, betterments and acquisition of additional property, against any of which no First Mortgage bonds may be issued; (b) for the retirement of prior lien obligations and First Mortgage bonds of any series, or (c) for maintenance expenditures made in any year when expenditures for such purpose amount to more than 12½% of consolidated gross operating revenues; (d) for expenditures (other than for maintenance) made subsequent to Dec. 31, 1924, for replacements and renewals properly chargeable to depreciation reserve.

Security—Secured by first mortgage lien on all fixed properties now owned or hereafter acquired by Company, subject only to prior liens on after-acquired property, and by deposit with the Trustees of the entire issues of capital stock of subsidiaries and of notes covering indebtedness to Company for which Company covenants to exchange the entire issues of first mortgage obligations of Tarkio Electric and Water Co. and The Mound City Electric Light and Ice Co. when authorized and issued.

Tax Provisions—Company pays Normal Federal Income tax up to 2% and will refund upon proper application the following taxes: Pennsylvania four mills tax, Connecticut Personl Property Tax not exceeding four mills per annum. Maryland Security Tax not exceeding 4½ mills per annum, Massachusetts Income Tax on the interest not exceeding 6% per annum, and California Personal Property Tax not exceeding four mills per annum.

Legal Opinion—Davis, Polk, Wardwell, Gardiner & Reed, New York, (for the bankers); Pam & Hurd, Chicago (for the Company).

(2)

$1,007,000 DEBENTURE GOLD BONDS, SERIES "A" 6½%; DUE APRIL 1, 1935

Dated April 1, 1925.

Interest Payable April and October 1, at The International Trust Company, Denver, Colo., Central Union Trust Co. of New York, and Continental National Bank & Trust Co., Chicago.

Denominations—Coupon, $500 and $1,000; principal may be registered; interchangeable.

Trustee and Registrar—The International Trust Company, Denver, Colo.

Provisions of Issue—Authorized amount, unlimited. Issued, $1,066,000 Series "A" 6½s, of which $22,000 held in treasury Dec. 31, 1927, and $37,000 owned by Eastern Texas Electric Co. (Del.)

The proceeds from the sale of these bonds, the $4,331,000 First Mortgage 6% Gold bonds, Series "A," and $500,000 First Preferred 7% cumulative stock, were used to retire the outstanding funded obligations and for other corporate purposes.

The indenture permits the issuance of additional bonds in Series at such rates of interest, with such maturity dates (not, however, prior to the maturity date of Series "A" Debenture bonds, so long as any Series "A" Debenture bonds are outstanding) and with such other provisions as the Board of Directors may from time to time determine. The Indenture provides that except as to $5,200,000 of present financing the net capital debt of Company, as defined in the Indenture shall never exceed its net capital expenditures subsequent to Dec. 31, 1924, and that no additional Debenture bonds (except to refund Debenture bonds previously issued and retired) may be issued unless the consolidated net earnings of Company

and subsidiaries for any twelve consecutive months of the immediately preceding fifteen months, after deducting actual maintenance expenditures (but not depreciation) and all taxes except Federal income and excess profits taxes, and after deducting annual interest charges on then outstanding prior obligations including First Mortgage bonds, shall have been not less than three times the annual interest requirements of Debenture bonds then outstanding, including those proposed to be issued.

Callability—Subject to call as a whole at any time, or in part on any interest date, upon 60 days' notice at 103 if redeemed on or before April 1, 1928; thereafter, on or before April 1, 1931, at 102; thereafter on or before April 1, 1934, at 101 and thereafter at 100 plus accrued interest in each case.

Sinking Fund—Indenture provides for a sinking fund payable to the trustee annually commencing April 1, 1928. The payments from April 1, 1928 to April 1, 1931, both inclusive, are to be in amounts sufficient to retire annually not less than 2% of the greatest principal amount of Series "A" Debenture bonds theretofore outstanding. Thereafter the payments are to be in amounts sufficient to retire annually not less than 2½% of the greatest principal amount of Series "A" Debenture bonds theretofore outstanding.

Convertibility—Convertible into 7% cumulative First Pfd. stock of company on the basis of $100 per share, with adjustment of accrued interest on the bonds and dividends accrued on the stock from the next preceding regular dividend payment date. The holders will be entitled to exercise the conversion privilege up to the date 15 days prior to the date on which the bonds are to be redeemed. Bonds converted shall be cancelled and may not be reissued.

Security—A direct obligation of Company, but not secured by mortgage.

The Indenture provides that so long as any Series "A" Debenture Bonds are outstanding (a) no subsequent Series may be made convertible into First Preferred 7% cumulative stock on a basis of less than $100 per share of such stock, (b) no subsequent series may be issued with sinking fund provisions which would operate to retire the subsequent series at a greater proportionate rate than the Sinking Fund of Series "A" Debenture bonds, and (c) it will not issue any funded obligations other than Debenture bonds under this Indenture and/or bonds under the First Mortgage dated April 1, 1925.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. The company agrees to refund upon proper application the following taxes: Pennsylvania Four-Mills Tax, Connecticut Personal Property Tax not exceeding Four Mills per annum, Maryland Security Tax, not exceeding Four and One-Half Mills per annum, Massachusetts Income Tax on the interest not exceeding 6% per annum, and California Personal Property Tax not exceeding Four Mills per annum.

History—Incorporated June 29, 1909 in Virginia as Virginia Railway and Power Company (see 1925 Manual, p. 851); name changed to above upon merger with Spottsylvania Power Company (see 1925 Manual p. 1573), which became effective Nov. 1, 1925. Under the plan of merger, one share of 6% Pfd. stock of Virginia Railway and Power Company received one share of 7% Pfd. stock of Virginia Electric and Power Company; one share (par $100) of Common stock of Virginia Railway and Power Company received four shares (of no par value) of Common stock of Virginia Electric and Power Company; and $1,728,333 face amount of 6% notes of Virginia Electric and Power Co. was issued in exchange for the outstanding Capital stock of the Spottsylvania Power Co.

On Sept 15, 1925 acquired control of, and in 1926 acquired the physical properties of the Richmond Rapid Transit Corp. During 1925 and 1926 acquired all of the bus properties in Norfolk and Portsmouth.

The Spottsylvania Power Co. owned and operated the electric light and power properties in Fredericksburg and Ashland, Va., with extensive riparian rights on the Rappahannock River, and prior to the merger acquired by deed the electric generating stations and distribution system in Roanoke Rapids, N. C. (formerly owned by Roanoke Rapids Power Company), and suitable sites for water power development on the Roanoke River, and also the electric light and power plant and distribution system at Williamsburg, Va.

Effective Feb. 28, 1927, the Virginia Electric and Power Co. merged with The Norfolk Railway and Light Co. Under the terms of the Merger one share of 6% cumulative Pfd. stock of Virginia Electric and Power Co. was issuable and $9 in cash deliverable for each three shares of capital stock of The Norfolk Railway and Light Company, $33 in cash being payable for each share less than three. On April 11, 1927, the Company acquired the physical property of Prince George Electric Light & Power Company, which did a portion of the electric light and power business in and around Hopewell, Va.

Subsidiaries—The Virginia Electric and Power Co. controls through stock ownership eight subsidiary companies which, except for City Gas Co. of Norfolk, are small and comparatively unimportant.

OTHER SUBSIDIARIES ARE AS FOLLOWS:

Virginia-Carolina Power Company—Organized Mar. 9, 1907 in North Carolina. Owns considerable land in Roanoke Rapids, Rosemary, and Weldon, N. C., and vicinity, and lands and undeveloped riparian rights on the Roanoke River in North Carolina. Its Capital stock, consisting of $250,000 authorized and $150,000 outstanding, par $100, is all owned by Virginia Electric and Power Co.

Richmond Viaduct Co.—Incorporated May 5, 1927, in Virginia, with a charter of unlimited duration, and with 500 shares of capital stock (par $100) authorized and 420 shares (all of which are owned by Virginia Electric and Power Co.) issued and outstanding. The Richmond Viaduct Co. acquired all the properties of the North Side Viaduct Co. and Brookland Ry. & Improvement Co., and these two latter companies were liquidated.

Highland Park Co.—Incorporated June 19, 1890, in Virginia, and owns certain real estate in Richmond, Va., as well as a small piece of street railway track in Richmond, Va., which is leased to Virginia Electric and Power Co. Capital stock authorized $500,000; outstanding $250,000; par $10. Virginia Electric and Power Co. owns $215,340 of the capital stock.

The Atlantic Coast Terminal Co., Inc.—Incorporated June 30, 1905, in Virginia, and owns certain real estate in Norfolk and Portsmouth, Va. Virginia Electric and Power Co. owns the entire outstanding $57,500 of the $100,000 authorized capital stock, par $100.

Upper Appomattox Co.—Incorporated Dec. 21, 1795, in Virginia, and owns various lands and riparian rights on the Appomattox River near Petersburg, Va., its properties being leased to the Virginia Electric and Power Co. for 99 years from June 23, 1899, renewable for a like period. Capital stock authorized and outstanding $181,100, par $100, of which $150,800 owned by Virginia Electric and Power Co.

Commonwealth Ice Co., Inc.—Incorporated March 27, 1918, in Virginia, as the York Laundry and Ice Manufacturing Co., Inc.; present name adopted March 1, 1926, when the Peninsula Grain Products Corp. was merged. Territory and Business—The Virginia Electric and Power Company, through ownership or control, serves practically all of Tidewater Virginia and northeastern North Carolina with electric energy for both lighting and power, including the cities of Richmond, Norfolk, Petersburg, Portsmouth, Suffolk, Fredericksburg, Ashland, Williamsburg and Hopewell, Va., and Roanoke Rapids, Weldon and Rosemary, N. C., and contiguous territory. The Company owns or controls hydro-electric plants and water powers amply capable of development to meet the growing power requirements of the district. The Company also furnishes coordinated street railway and bus service in Richmond Norfolk, Portsmouth and Petersburg. In addition to the above it does the entire gas business in Norfolk Estimated population served Jan. 1, 1928: Electric light and power, 645,000; transportation, 503,000; gas 187,900.

Properties—The properties include steam, oil and hydro-electric power plants with an aggregate generating capacity of 162,230 k.w., of which 29,010 k.w. is hydro-electric. In addition the purchased power capacity is 17,725 k.w. There are 35 substations. Fourteen of the generating stations are interconnected by high tension transmission lines in operation or under construction serving an area of approximately 10,000 square miles. Miles of transmission line, (6,600 volt or over), 715.7. Land and rights for the development of a large amount of additional hydro-electric power are owned on the Roanoke, Appomattox and Rappahannock Rivers. The gas plant at Norfolk has storage capacity of 2,400,000 cubic feet, a manufacturing capacity of 8,500,000 cubic feet, and 269.5 miles of mains. Miles of equivalent single track, 232.7 trackage, 5 miles. Revenue type cars, 552; other cars 33; buses, 254. Car barns and shops at Richmond Norfolk and Petersburg. Also operates two 10-ton capacity ice plants.

Franchises—In Richmond, light and power franchises are undetermined as to duration except certain franchises (not essential to continuing operation) which expire in 1927, 1928 and 1931. Railway franchise expires in 1956. In Norfolk and Petersburg light and power franchises are perpetual; and in Hopewell the Company operates under certain easements and private rights. Railway operations in Norfolk are carried on mainly under certain franchises which expire in 1944, 1940 and 1930. Part of the railway operations in Norfolk is carried on under ordinances granting permits undetermined as to duration. In Petersburg the main railway franchises are perpetual. The franchise covering interurban operation between Richmond and Petersburg expires in 1941, with right of renewal for a forty-year period. In Portsmouth the light and power franchise expires in 1940, and the railway franchise expires in 1956. In Suffolk the light and power franchise expires in 1945. In Fredericksburg the light and power franchise expires in 1939; and in Williamsburg in 1946. In the following Virginia towns, light and power franchises expire: In Ashland, 1935; in Tappahannock, 1956; in Smithfield, 1946; in Boykins, 1955; in Holland, 1955; in Franklin, 1930; in Yorktown, 1946; and in Bowling Green, 1956. In the following North Carolina towns, light and power franchises expire: In Weldon and Roanoke Rapids, 1933; in Halifax, 1955; in Seaboard, 1955; in Jackson, 1955; in Hertford, 1956; in Edenton, 1986; in Severn, Conway, Woodland, Rich Square and Aulander, 1956; in Kelford, Lewiston, Roxobel and Woodville, 1956. The franchise covering gas service in Norfolk is perpetual.

Valuation—A valuation of the entire properties of Virginia Ry. and Power Co. was made by Stone & Webster, Inc., of Boston, Mass., to facilitate the several municipal councils and the State Corporation Commission in arriving at a proper valuation for rate-making purposes. The inventory and appraisal made as of Jan. 1, 1920 shows a total of $59,746,670. Stone & Webster, Inc., also ascertained the "historic value," that is to say the actual amount of money put into the enterprise from its inception, allowing 8% thereon and deducting whatever return has been paid. This showed a total of $59,870,100, exclusive of the City Gas Co. of Norfolk.

The Company also employed Forestall & Robison, of New York, to make an inventory and appraisal of the properties of the City Gas Co. of Norfolk as of Jan. 1, 1920, which showed $2,631,885. An "historic appraisal" was also made by Mr. A. Merritt Taylor, of Philadelphia, who was employed by the Norfolk Public Utilities Commission under the authority of the City Council of Norfolk, which showed a total value as of Jan. 1, 1920, of $2,383,908, and by the recommendation of the Norfolk Public Utilities Commission and with the approval of the City Council of Norfolk, the rates and charges of the City Gas Co. were revised by the State Corporation Commission in accordance therewith.

Provisions of Issue—The $12,000,000 Series "A", 5% Gold bonds were issued under the Virginia Electric & Power Co. indenture dated November 2, 1925, supplemental to the First & Refunding Mortgage Indenture of Spottsylvania Power Co., dated October 1, 1925. Additional bonds may be issued under said indentures in one or more series, with varying interest rates and maturities, in unlimited amounts, except as their issuance is limited to amount authorized by vote of stockholders and except that they shall be issued only in accordance with terms of said indentures. Additional bonds may be issued for substantially the following purposes: (1) To reimburse Company to the extent of 75% of the cost or fair value (whichever is less) of additional property as defined in said indentures, less the amount of refundable underlying liens thereon, if any, when such properties are acquired—provided combined net earnings (after deducting operating expenses, maintenance, taxes and rentals) for 12 consecutive calendar months within the 15 calendar months immediately preceding shall have been at least twice the annual interest charges on all bonds issued or about to be issued under said indentures, plus all outstanding divisional and controlled company bonds (exclusive of sinking fund and pledged bonds). In case said additional property belongs to a controlled company, at least an equal amount of bonds of such controlled company are required to be pledged under said indentures. (2) To refund a like amount of bonds of a previous series issued under said indentures, or to refund divisional bonds or bonds of controlled companies, as defined in and subject to the conservative terms of said indentures, including the divisional mortgage bonds.

Callability—Series "A" bonds are subject to call as a whole at any time or in part on any interest date on 30 days' notice at following rates and interest: Up to and including Oct. 1, 1935 at 105; thereafter up to and including October 1, 1940, at 104; thereafter up to and including October 1, 1945 at 103; thereafter up to and including October 1, 1950 at 102; thereafter up

to and including October 1, 1953 at 101; thereafter up to and including October 1, 1954 at 100½; thereafter prior to maturity at 100¼.

Security—Series "A" bonds are the direct obligations of Virginia Electric & Power Co. by virtue of its indenture dated November 2, 1925 supplemental to the First & Refunding Mortgage Indenture of Spottsylvania Power Co. dated October 1, 1925, and are secured under said indentures, by a direct first mortgage or, subject to the lien of divisional mortgage bonds now outstanding, by a direct first lien on all fixed physical properties and franchises now owned by the Company; by a lien on the entire Common stock of the City Gas Co. of Norfolk; and by a first lien by pledge on all the capital stock (except directors' qualifying shares) of Virginia-Carolina Power Co. which owns valuable rights for further hydro-electric developments. The after-acquired property clauses in said indentures cover all fixed physical public utility properties and franchises as defined in said indentures; together with the Company's holdings of stocks and bonds of companies established as controlled companies and of other companies hereafter specifically pledged.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to refund Pennsylvania, Massachusetts or Maryland resident property or income tax upon written demand within 60 days of payment, not exceeding the following rates per $1,000 principal amount of bonds, $4 for Pennsylvania tax, $3 for Massachusetts tax, and $4.50 for Maryland tax.

Electric Light Plant of the City of Burlington, this current being used for street lighting and for retail distribution throughout the city.

The property includes a modern hydro-electric generating plant on the Lamoille River at Fairfax Falls, Vt., operating under a head of 85 feet and with an installed capacity of 4,500 h. p.; 69 miles of high tension transmission lines, built largely on private right of way, and substations and distributing systems.

The Company has purchased a water power plant on the Lamoille River at Milton, Vt., which will be equipped at small expense to provide a generating capacity of 4,000 h. p., operating under a head of 95 feet. Also owns three undeveloped powers on the Lamoille River which can be developed to produce over 5,000 h. p. The Company operates under a long term franchise and is subject to the jurisdiction of the Vermont Public Service Commission. Its contract with the Burlington Municipal Electric Plant provides that the Company may call upon the City's steam plant for power, but the necessity rarely occurs. No. of customers, about 3,700.

FUNDED DEBT

$1,000,000 FIRST MORTGAGE AND REFUNDING 5½% 30-YEAR GOLD BONDS (SERIES "A"); DUE OCTOBER 1, 1956

Dated October 1, 1926.

Interest Payable April and October 1, at American Trust Co., Boston.

Denomination—Coupon $1,000; principal may be registered.

Trustee—American Trust Co., Boston.

Provisions of Issue—Authorized amount, unlimited; issued (Series "A"), $1,000,000. Additional bonds may be issued in one or more series, with interest rates, maturity dates, and other terms and conditions as may be determined by the Company, against the deposit of an equal amount of cash, or for 75% of the cash cost or fair value, whichever is less, of additional property, betterments, improvements or additions (bonds issued for property subject to divisional liens shall not exceed at time of issue 8% of the total outstanding bonds), and provided net earnings, as defined in the mortgage, for 12 consecutive months out of the preceding fifteen months shall have been not less than two times the annual interest charges on all bonds outstanding and to be issued, and on divisional bonds as so defined. The Company may also issue additional bonds to refund, or in exchange for, bonds of any other series issued under this mortgage, par for par. Subject to the above restrictions, bonds will be issuable under the mortgage without other limitations as to principal amount.

Purpose of Issue—Proceeds were used to pay for the power properties at Milton, Vt., and to provide for the retirement of an issue of $250,000 Vermont Power & Manufacturing Co. First 5s, due May 1, 1928, and for other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date on 30 days' notice at 107½ and interest for the first two years and reducing ½% for each two years thereafter.

Maintenance and Renewal Fund—Mortgage provides for the expenditure annually of a sum equal to 12½% of gross revenues of the preceding fiscal year, for repairs, maintenance, renewals and replacements, for the retirement of bonds issued under the mortgage and for improvements, betterments or additions to the plants or property which shall not be made the basis for the issuance of additional bonds.

Security—Secured by a direct first mortgage on all the electric power and light properties of the Company now owned or hereafter acquired upon discharge of the underlying bonds to be retired on or before May 1, 1928, funds for which purpose have been deposited with the trustee of the underlying mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Connecticut 4 Mills Tax, any Massachusetts, Vermont, or Maryland Income Tax not exceeding 6% of the annual interest thereon, and any New Hampshire income tax not exceeding the equivalent of five mills per annum for each dollar of the principal amount, refunded to resident holders upon request within 60 days after payment.

Legal Opinion—Storey, Thorndike, Palmer & Dodge (for the Bankers), and Blodgett, Jones, Burnham & Bingham (for the Company).

Original Offering—First publicly offered ($1,000,000) in Dec., 1926, at par and interest, by E. H. Rollins & Sons, Pearson, Erhard & Co., and Geo. A. Fernald Co., Boston, etc.

TERRE HAUTE, INDIANAPOLIS & EASTERN TRACTION COMPANY

History—Incorporated March 1, 1907, in Ind.; consolidation of Indianapolis Coal Traction Co., the Richmond St. & Interurban R. R. Co., the Indianapolis & Eastern Ry. Co. and the Indianapolis & Western Ry. Co. Leases the Terre Haute Traction & Light Co. for 999 years from March 25, 1907; the Indianapolis & Northwestern Traction Co. and the Indianapolis & Martinsville Rapid Transit Co. for 999 years from April 1, 1907; the Indianapolis, Crawfordsville & Danville Electric Ry. Co. for 999 years from May 1, 1912. Owns the entire capital stock of the Indianapolis & Martinsville Rapid Transit Co., the entire Common stock of Indianapolis & Northwestern Traction Co., Terre Haute Traction & Light Co., Indianapolis, Crawfordsville & Danville Electric Ry., Indianapolis Street Ry. Co. and the entire Pfd. and Common stock of Terre Haute & Western Ry.

On May 1, 1918, the Company purchased the Common and Pfd. stock of the West Indiana Utilities Co. for $121,000 in cash. This company operates lighting plants in West Terre Haute and Brazil, Ind. Also owns one-half interest in The United Tractions Coal Co., and controls the Indiana Motor Transit Co., operating a bus line between Indianapolis and Lafayette.

Franchises Surrendered—Late in 1921, Company filed notice with the Indiana Public Service Commission of the surrender of all its franchises in Indiana. There were some 30 franchises in all that were to be exchanged for the indeterminate permit of the Commission.

Mileage Operated—From Richmond, Ind., where connection is made with tracks of the Dayton & Western Traction Co., west via Dublin, Milton, Cambridge City, Greenfield, Knightstown, Indianapolis, Greencastle, Brazil, and Terre Haute, Ind., to Paris, Ill.; also a line from Indianapolis southwest to Martinsville; a line from Indianapolis west to Danville; a line from Indianapolis northwest to Crawfordsville; a line northwest to Lebanon, Frankfort and Lafayette, with a branch line from Lebanon to Crawfordsville; the city lines in Terre Haute, with branch lines from Terre Haute north to Clinton and south to Sullivan. Length of line operated: City lines, (Crawfordsville, 1.85 miles; Terre Haute, 31.75 miles; Richmond, 13.68 miles), 47.28 miles; interurban lines, 383.59 miles—total track, 430.87 miles. Gauge, standard. Equipment: interurban cars, 86; city cars, 110; freight cars, 69; service cars, 70—total, 335.

Proposed Merger—In June, 1926, plan was announced for the consolidation of Terre Haute, Indianapolis & Eastern Traction Company and certain subsidiaries and Central Indiana Power Co., and its subsidiaries into the Indiana Electric Corp. The consummation of the plan had not been effected to May, 1928, and terms of the plan have been so altered, it was announced in April, 1928, that much time may elapse before the plan will be presented for approval of the Indiana Public Service Commission.

Bondholders' Committee—The committee named below was formed in 1926 to represent holders of First & Refunding Mortgage 5% Sinking Fund 35-Year Gold bonds in the proposed merger. Committee: Wm. P. Gest, C. S. W. Packard, H. G. Brengle and Thomas S. Gates, with M. S. Altemose, 325 Chestnut St., Philadelphia, as Secretary, and Fidelity-Philadelphia Trust Co., Philadelphia, depositary. Up to March, 1928, over 88% of the bonds had been deposited with the Committee.

Preferred Stockholders' Committee—J. C. Neff, J. P. Frenzel, C. S. Smyth with T. H. Atherton, Secretary. The Fidelity-Philadelphia Trust Co., Philadelphia, is Depositary of the Committee.

CAPITAL STOCK

INDIANAPOLIS STREET RAILWAY COMPANY

(Controlled by Terre Haute, Indianapolis & Eastern Traction Company)

History—Incorporated June 30, 1919, in Indiana, as a consolidation of the old Indianapolis Street Ry. Co. and the Indianapolis Traction & Terminal Co. (see 1919 Public Utility Manual pages 1548 and 1549 or apply to our Information Department). The consolidation was effected as per the plan to enable the two companies to meet the then existing conditions and demands of the Indiana Public Service Commission. On Aug. 29, 1919, the Federal Court approved this consolidation and dismissed the suit brought by certain minority stockholders against same.

Operates 176.51 miles of track. Other property consists of the following: 390 double-truck, 106 single-truck passenger and 126 service cars; electrical and steam equipment of 7,000 k.w. capacity, and nine-story office and terminal building, and train sheds. In addition company owns 75% of the stock of the Broad Ripple Traction Co. and guarantees its bonds (see appended statement). Also owns the entire 5,000 shares of capital stock of **Peoples Motor Coach Co.,** operating 39 buses. The terminal property of Indianapolis Street Ry. Co. is used by all interurban roads (13 in number) entering Indianapolis.

Under agreement dated July 16, 1923, with the interurban companies entering Indianapolis, the Indianapolis Street Ry. Co. is not required to furnish freight depots, and the real estate on which the present three freight depots are located will be used for passenger and other purposes. Large freight terminals costing about $900,000 have been constructed by the Terminal Realty Corp. and are owned jointly by the four interurban companies entering Indianapolis.

The franchises of the Indianapolis St. Ry. and the Indianapolis Traction & Terminal Co. were surrendered on June 7, 1921, to the Public Service Commission of Indiana according to law and there was received in lieu of same an Indeterminate Permit from the Public Service Commission of Indiana.

CAPITAL STOCK

Authorized, $2,5000,000 Common and $5,000,000 6% cumulative Preferred;. outstanding,. $1,000,000 Common and $5,000,000 Preferred, par $100. The Terre Haute, Indianapolis & Eastern Traction Co. owns the entire Common stock. Both classes of stock have equal voting power, provided, however, if the Company shall fail in any one year to pay dividends aggregating 6% on the Pfd. stock, then and as long as any such default shall continue the exclusive voting rights shall be in the Pfd. stock. Pfd. stock has preference as to assets and dividends. Transfer Agent: Treasurer of Company, Indianapolis, Ind. Registrar: Indiana Trust Co., Indianapolis, Ind. NEW MORTGAGE AUTHORIZED

The consolidated company is authorized to execute mortgage which may be a lien upon all of its property and franchises, subject, however, to the lien on the respective properties covered thereby of the mortgage of the constituent Indianapolis Street Ry. Co., the constituent Indianapolis Traction & Terminal Co. and the Citizens Street R. R. Company. The new bonds are limited to an authorized issue of $15,000,000 up to April 7, 1933, after which the authorized amount may be increased to $25,000,000 including the divisional bonds, if any, then outstanding, and such excess of $10,000,000 bonds may bear such rate of interest, not exceeding 6% per annum, and be used for any proper corporate objects and purposes of the consolidated company. The $15,000,000 now authorized will bear interest at not exceeding 6% per annum, which bonds or the proceeds thereof shall be issued and used for the purposes only of additions and betterments to, extensions and replacements of, and the construction, purchase, or acquisition in other manner, of lines of street railroad and other property, real and personal, to be added to and become a part of the street railroad and interurban passenger and freight system of the consolidated company in the City of Indianapolis and its vicinity, and for the purpose of making other permanent improvements and betterments thereto. Bonds shall only be issued to the amount of par value of bonds of the three divisional issues which have been or shall be taken up and canceled by sinking fund payments, so that at no time while any of divisional bonds are outstanding (unless their present dates of maturity shall be extended) shall the aggregate amount of bonds secured by mortgage, of the property of the consolidated company exceed $15,000,000, but notwithstanding the foregoing, provision may be made in the mortgage for the issuance of bonds to refund the existing mortgage indebtedness, or any part thereof. All bonds issued for refunding shall be subject to be taken up and canceled by the sinking fund provisions which were applicable to the refunded bonds in their original form, and when so taken up and canceled, original bonds may be issued in substitution therefor, which or the proceeds thereof, shall be used only for permanent improvements and betterments. Provision may be made in the mortgage that the maturity of any outstanding bonds which become due on or before April 7, 1933, may be extended to such date as may be determined by the Board of Directors at not exceeding 6% interest if permitted by law.

The lien of the several underlying mortgages is confined to the property and interests upon which each was a lien prior to consolidation and does not extend to any other property of the consolidated company, except as general debts of consolidated company in proportion to their amount and without preference or priority, after satisfying the mortgage liens thereon.

(4)

$40,000 INDIANAPOLIS CAR EQUIPMENT COMPANY 6% FIRST PREFERRED STOCK; DUE $10,000 SEMI-ANNUALLY APRIL 15, 1928 TO OCT. 15, 1929 INCLUSIVE

Dated October 15, 1919.

Dividends payable quarterly, J, A, J & O 15. Par, $100. Original issue, $200,000, of which $160,000 retired to Dec. 31, 1927. Subject to call at 102 at any dividend paying time. The Indianapolis Car Equipment Co. was organized to provide 25 standard double-truck "Pay as You Enter" cars for the Indianapolis Street Ry. Co., purchased at a cost of $250,000. The amount in excess of the funds received from the proceeds of the sale of this Pfd. stock was provided by the Indianapolis Street Ry. Co. through the purchase of the Com. stock of the Equipment Company, which latter company retains full title to the cars until the purchase price is paid in full. The contract provides that the Indianapolis Street Ry. Co. is to pay $20,000 per year for ten years, plus 6% interest and other charges. History—Incorporated Aug. 31, 1911, in Illinois. t its organization the company acquired the proper- es formerly belonging to the North Shore Electric). (see Manual for 1911, page 2139), the Chicago iburban Light & Power Co. (see Manual for 1911, ge 1588), the Economy Light & Power Co. and the inois Valley Gas & Electric Co. (see Manual for 11, page 1863), and began operations on Nov. 1, 1911. nce that time it has acquired the property of Kankee Gas & Electric Co. (see Manual for 1911, page 11) and several other smaller properties. The terriry previously served by these various companies s been connected into three general operating sysms. On March 1, 1913 acquired the property and franchises of the Pontiac (Ill.) Light & Water Co. (see Manual for 1913, page 2156). Also in 1913 acquired by consolidation the properties of the Northwestern Gas Light & Coke Co. (see Manual for 1913, page 3473), which comprised three gas generating plants, situated at Oak Park, Niles and Blue Island, of a combined daily capacity of 20,600,000 cu. ft.; holder stations at Oak Park, Niles and Blue Island of a total capacity of 6,600,000 cu. ft. Information on these acquired companies may be had on application to our Information Department.

In 1923 Company acquired the assets of Momence Utilities Co., furnishing electric light and power at Momence, Grant Park and Beecher, and the assets of

the Interurban Public Service Corp. operating in the small towns of Roselle, Itasca, Bartlett, Cloverdale and Bloomingdale, west of Chicago in Du Page and Cook Counties. In Aug., 1923, the Company took over the entire electric light and power business in the City of Berwyn, a city of 15,000 people which it had partially served for a number of years. In Sept., 1923, the company began serving electric light and power to the important City of Blue Island, south of Chicago, with a population of 12,500, which it already was supplying with gas.

In 1924 purchased the Wenona Light and Power Company, supplying electricity in the City of Wenona, Marshall County, and in the Village of East Wenona, La Salle County, and the Reddick Electric Light Company, supplying electricity in the Village of Reddick, Livingston County. In addition to the above mentioned communities, the following were added to the company's system during the year: Cabery, Campus, Evergreen Park, Kempton, North Riverside, Orland Park, Saunemin, Specialville, Herscher, Oak Lawn, South Holland, Stickney, Buckingham and Dolton. The distribution systems of the six communities last named were municipally owned. In May, 1924, company sold its water business in City of Harvey, Ill., to that city for $200,000.

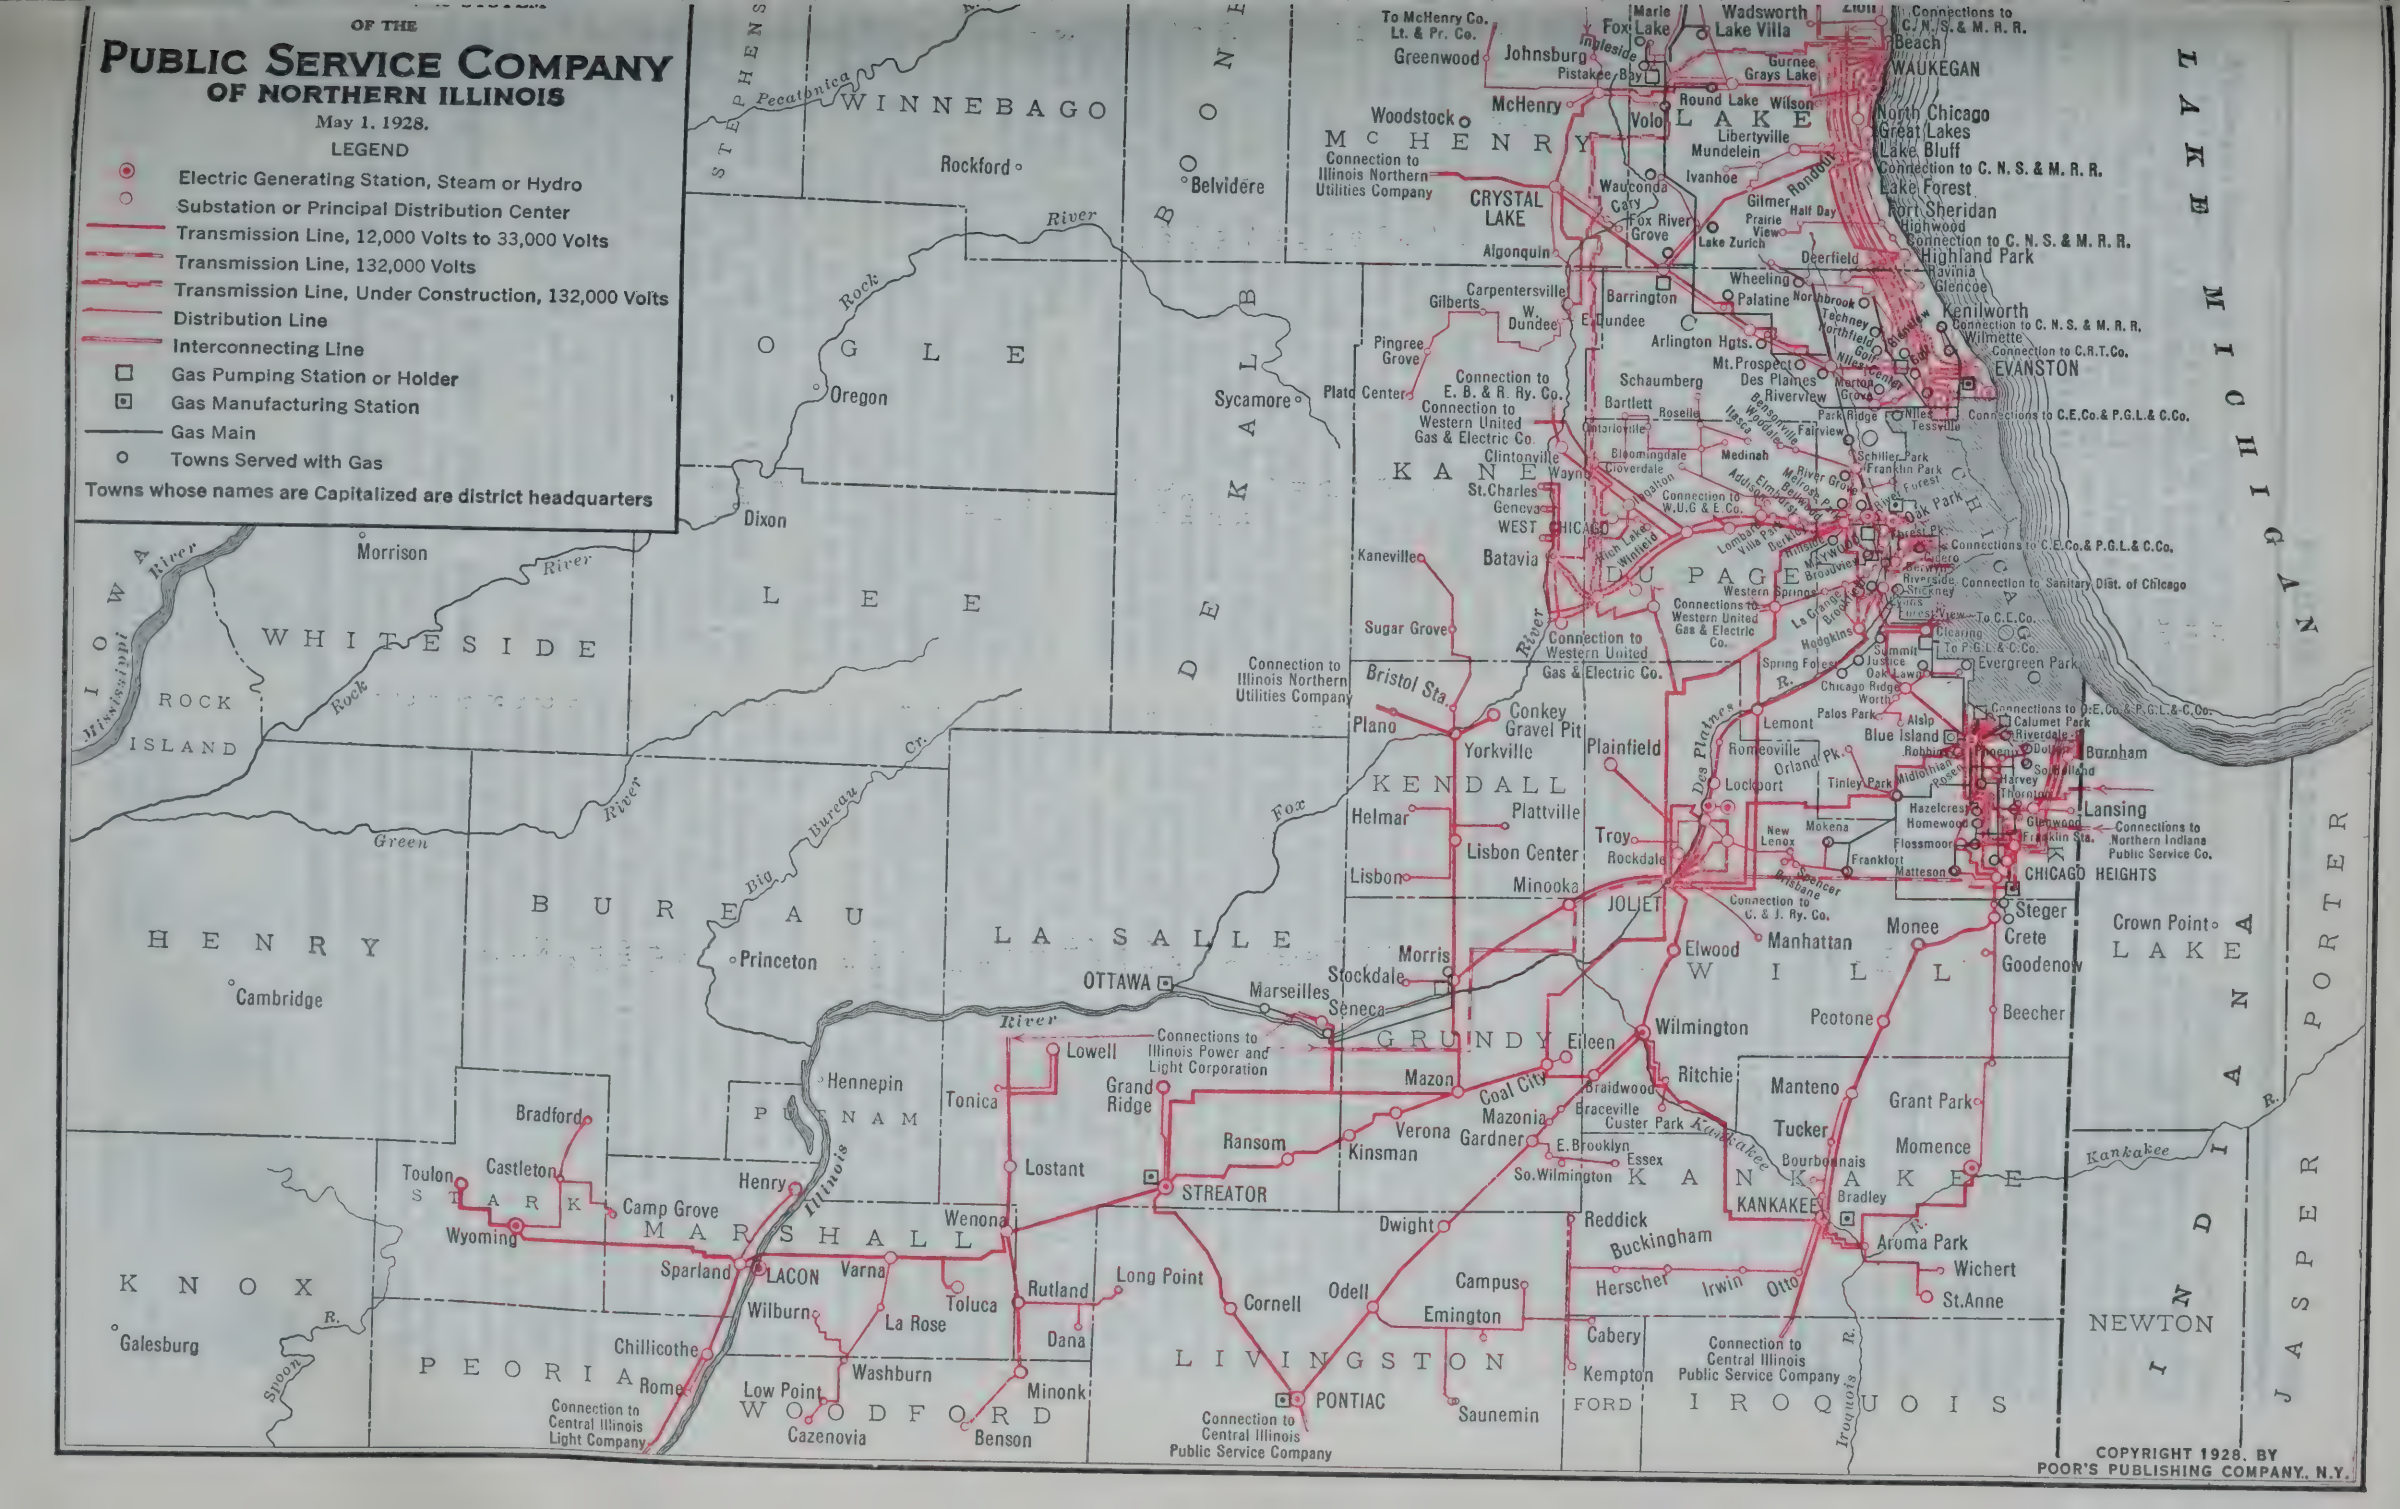
During 1925 the Company purchased the electric light and power properties in the villages of Peotone and Irwin and extended its lines to Essex, Forest View, Long Lake, Oak Forest, East Chicago Heights, Westchester, Russell and Berkeley. All these villages are now being supplied with electricity by the Company. The Company extended its gas service to the villages of Volo, Elmwood Park, Berkeley, Hillside, Westchester, Wheeling and Broadview.

In Oct., 1926, Company acquired the property of Chicago Heights Gas Co. (see 1926 Public Utility Volume, page 611), the capital stock of which was acquired in 1923. The $200,000 outstanding First Mortgage bonds of the merged company were assumed principal and interest by Public Service Co. of Northern Illinois. By this merger the communities of Chicago Heights, South Chicago Heights, Steger and Crete were added to the gas system. The gas mains of the Company were extended during 1926 to North Riverside, Fox Lake, Ingleside, Matteson, Fairview and Long Lake. During 1926 the Company also purchased the Chicago Suburban Power & Light Co (see 1926 Public Utility Volume, (page 197) and as a result is supplying electric service to the cities of West Chicago, St. Charles, Geneva, Batavia and the west portion of Elmhurst, and to the villages of Villa Park, Winfield, Lombard, and Westmore (now a part of Lombard), and to the towns of Wayne and High Lake. Service to the cities of Batavia, Geneva and St. Charles is furnished to the respective municipal corporations. The Company's electric service was also extended during 1926 to Gilberts, Markham, Lisbon, Ingalton, Sugar Grove, Helmar, Schaumberg, Goodenow, Greenwood, Bristol Station, Plattville, Lowell, Troy, Sollitt, Wadsworth, Long Grove, Kaneville, Volo, and Pingree Grove. In Nov., 1926, the municipally-owned electric distribution and street lighting system of the Village of Lombard was acquired.

The electric distribution system of the Chicago and Joliet Electric Railway Company, used in supplying electric service in and between the municipalities of Summit, Justice and Spring Forest, in Cook County, Illinois, was purchased by the Company in December, 1927, under an authorization of the Illinois Commerce Commission.

During 1927 distribution centers were installed at Grays Lake, Carpentersville, Crete, Lansing, Tinley Park and Odell. The Company's electric service was extended during the year to Alsip, Richton Park, Acacia Park, Addison Heights, Belmont Heights, Olympia Fields, Ridgefield, Plato Center and Elk Grove. Company's gas service was extended during the year to Midlothian, Markham, Oak Forest, Tinley Park, Frankfort, Mokena, Round Lake, Pistakee Lake, Justice, Spring Forest, Tessville, East Hazelcrest, Acacia Park, Olympia Fields, Addison Heights and Belmont Heights.

Properties—Company operates 16 electric generating stations, located as follows: Waukegan (two), Evanston, Maywood, Blue Island, Oak Park, Kankakee (hydro and steam), Joliet (two—1 steam and 1 hydro-electric), Wilmington (hydro), Streator, Pontiac, Plaines, Lacon, Wyoming and Momence. Also 39 electric substations. The Company has eight gas manufacturing plants, as follows: Streator, Ottawa, Chicago Heights, Kankakee, Pontiac, Blue Island, Niles and Oak Park; also four heating stations, as follows: Streator, Evanston, Oak Park and Pontiac.



During 1927 the erection of five new gas holders was undertaken. The largest of these now under construction near Maywood is of the waterless type and will have a capacity of 10,000,000 cubic feet. Two are already built at Long Lake and Morris, respectively, and two will be located at Chicago Heights.

Contract—Public Service Company of Northern Illinois entered into an interchange energy contract, effective Feb. 1, 1925, with the Commonwealth Edison Company and the Northern Indiana Public Service Company under the terms of which the electrical generating capacities and transmission line capacities of the three companies are pooled, so that the reserve capacity of each company supplements the requirements of the other two.

Territory—The Company now serves 293 communities located in a compact area of Illinois, containing some 6,000 square miles and located in sixteen counties, having a combined population, according to the 1920 census, of 1,070,849, excluding the City of Chicago. Electric service is rendered in 290, gas in 91 water in five and heat in four. Territory includes all communities in the fine residential section known as the "North Shore," with such large suburban centers as Waukegan, Lake Forest, Highland Park and Evanston, reaching to the limits of the City of Chicago. It also includes the manufacturing and residential towns of Oak Park, River Forest, La Grange and towns in the vicinity; the manufacturing and commercial towns of Blue Island, Harvey, Chicago Heights and Kankakee, with their growing population, and large manufacturing interests, and Joliet, Lockport, Streator and other communities in the Illinois Valley, with present southwestern limits at Chillicothe.

Inter-connections—The Company's electric transmission system is now interconnected with the transmission systems of the Commonwealth Edison Company, the Northern Indiana Public Service Company, the Central Illinois Public Service Company the Illinois Northern Utilities Company and the Central Illinois Light Company. On account of the large power resources of these companies the Company's system thus becomes an integral part of the greatest "pool of power" in the world and forms with further inter-connections a part of a vast super-power system extending from the Upper Peninsula of Michigan throughout Wisconsin, Illinois, Indiana, Kentucky and into Virginia. Inter-connected lines are now in service between Twin Falls, Michigan, and Pocket, Virginia, a total distance of more than 800 miles.

Coal Lands—On July 1, 1917, the Company joined with Commonwealth Edison Co. and Middle West Utilities Co. in acquiring certain operating coal mines in Williamson County, Ill., and Sullivan County, Ind., under an arrangement whereby it secured the right permanently to the greater part of the coal produced from these mines. During 1923 Company acquired a one-sixth interest in the **Industrial Coal Co.**, owning 7,327 acres of coal producing land in Franklin County, Ill. The Company now controls sufficient coal deposits to supply its needs for a long period of years to come.

Waukegan Generating Co.—Under date of Nov. 23, 1921, this company was organized as a subsidiary of Public Service Co. of Northern Illinois for the purpose of building and operating a steam turbine generating station. This station, the first unit (25,000 k.w. capacity) was completed on Oct. 11, 1923, and placed in service. The second unit of 35,000 k.w. capacity was installed and placed in service during 1925. The third unit of 50,000 k.w. capacity was placed in operation in June, 1927, bringing the total capacity of this station to 110,000 kilowatts. It is planned ultimately to develop this station to a capacity of 1,000,000 kilowatts. This generating station located on the shore of Lake Michigan will, when completed, rank with the large modern electrical generating stations of the country. The rapid industrial development at Waukegan and North Chicago will absorb much of the output of the station, and the remainder will be transmitted to other cities and towns as needed. The output of this station will be taken by Public Service Company of Northern Illinois. $8,706,000 of the First Mortgage Bonds of the Waukegan Generating Co. were purchased by Public Service Co. of Northern Illinois and pledged under its First Lien and Refunding Mortgage. The capital stock (24,350 shares) of the Waukegan Generating Co. (with the exception of directors' qualifying shares) is entirely owned by Public Service Co. of Northern Illinois and is pledged under its First Lien and Refunding Mortgage.

Western Public Service Company—The Company has acquired jointly with the Western United Gas & Electric Company, the entire capital stock of the Western Public Service Company, which was organized during 1924 to furnish electric service in the territory adjacent to the Chicago, Burlington and Quincy R. R., extending west from near the west limits of Cook County to the west limits of the City of Naperville. The new company took over portions of the electric systems of each of the owning companies and now operates in the municipalities of Downers Grove, Westmont and Clarendon Hills and in adjacent unincorporated territory, and also supplies electricity to the City of Naperville.

State Line Generating Co.—This company, controlled jointly by the Commonwealth Edison Co., The Public Service Co. of Northern Illinois (through its Subsidiary Corporation), Northern Indiana Public Service Co., and the Interstate Public Service Co., is constructing an electric generating station located on a 90-acre tract of ground on Lake Michigan just east of the Illinois-Indiana line. A turbo-generator of 200,000 k.w. capacity is under construction as the first unit of the station, and it is expected that the above four companies will absorb its total output.

The Illinois Light and Traction Company—In the latter part of 1924 The Illinois Light & Traction Co. (of which this Company owns all the capital stock), with the approval of the Illinois Commerce Commission, discontinued its street railway service in the city of Streator and vicinity. Only three cars were operated by this company and the establishment of a bus line in Streator made the service unnecessary. The Illinois Light & Traction Co. as a corporation is now dissolved.

Bloomington, Pontiac & Joliet Electric Railway Company—This Railway Company (see 1925 Manual, page 427, or apply to our Information Department), the capital stock of which is owned by Public Service Co. of Northern Illinois, operated a small railway system in and between Pontiac, Odell and Dwight. The recent building of a state concrete highway, paralleling the railway, obviated the need, at least for the present, of the railway service. In Nov., 1925, the Illinois Commerce Commission, upon petition of the Railway Company, entered an order authorizing it to suspend service until such time as economic and operating conditions shall warrant the Commission in ordering a resumption of service. Pursuant to the provisions of this order the railway service was suspended on Nov. 28, 1925.

Public Service Subsidiary Corporation—In order to simplify the handling of its miscellaneous investments, Public Service Co. of Northern Illinois organized the Corporation, and in payment for 74,552 shares (par, $100) transferred to said corporation miscellaneous securities and accounts which at the time were being carried on its books at $7,455,200. Including directors qualifying shares, the Subsidiary Corporation has outstanding 74,565 shares, which will continue to be owned by Public Service Co. of Northern Illinois. The Board of Directors of the Subsidiary Corporation is identical in personnel with the Board of Directors of the Company and all officers of the Subsidiary Corporation are also officers of the Company. The assets transferred have no direct connection with the utility business.

Valuation and Rates—On July 24, 1923, the Illinois Commerce Commission entered its final order in the company's rate proceeding in which it found that for rate making purposes the present fair value of the property used and useful in the public utility functions of the company, inclusive of working capital, materials and supplies and going value, and making due allowance for existing depreciation was as of Jan. 1, 1923, $60,759,000. This valuation excluded the Hickory Creek, Jackson Creek and Marseilles water power sites owned or controlled by the Company, securities owned, property represented by expenditures made up to that time on the new Waukegan generating plant, sinking funds, insurance fund, properties leased to other companies and investment in affiliated companies, including the coal property, all of which are valued by the Company at $8,088,255. The order directed the Company to put into effect two successive reductions (one effective Aug. 1, 1923, and the other Jan. 1, 1924) each of 1 cent per k.w.h. in the initial or high rate portion in the charge for electricity for general lighting service; and also a reduction effective Aug. 1, 1923, of 5 cents per 1,000 cu. ft. in the initial or high rate portion in the charge for general gas service.

With the consent of the Illinois Commerce Commission, on April 1, 1925, the rates which apply mainly to large users of electric power for industrial purposes were reduced about 7%, and on Oct. 1, 1925, made a further reduction in such rates of approximately 5%.

On May 1, 1926, the Company, with the consent of the Illinois Commerce Commission, voluntarily put into effect substantial reductions in its electric rates under its standard general lighting and its regular power rate schedules. The net lighting rate per kilowatt-hour as reduced is 9 cents for the initial portion, 8 cents for the second portion, and 6 cents for all additional energy consumed. The regular power rate per kilowatt-hour as reduced is 9 cents, net, for the initial portion, 6 cents for the second portion and 4 cents for all additional energy, subject to certain discounts, as before, for quantity consumption.

OPERATING STATISTICS, YEARS ENDED DECEMBER 31

CHICAGO AURORA AND ELGIN RAILROAD COMPANY

(Controlled by Chicago Aurora and Elgin Corporation)

History and Properties—Incorporated in 1926 in Illinois, as successor by consolidation (approved Feb. 10, 1926), of a company of the same name, incorporated March 23, 1922 (See Manual, page 328, or apply to our Information Department) and the Chicago Westchester and Western Railroad. The latter company constructed and completed for operation in February, 1926, a 1.1 miles double track extension from the Aurora Company's main line at Bellwood, south to Roosevelt Road.

Company owns 103.37 miles of line, measured as single track, electrically operated and serving and connecting Chicago, Maywood, Bellwood, Ardmore, Villa Park, Elmhurst, West Elmhurst, Lombard, Glen Ellyn, Wheaton, Aurora, Elgin, Batavia, West Chicago, Geneva and St. Charles, Ill.; and 1.1 miles from Bellwood, south to Westchester. Population of territory served (exclusive of Chicago), 200,000.

The company's terminal station in Chicago is situated on the Union Loop of the Chicago Rapid Transit Co. on Wells Street, near Jackson Boulevard, and its trains arrive and depart over the tracks of that Company, operating under a contract covering the period of the "rights, grants and privileges given to the Metropolitan West Side Elevated Ry. Co. and its predecessors by the City Council of the City of Chicago." Under this contract the Chicago Rapid Transit Co. is given the right to operate over certain trackage owned by the Railroad Company, which trackage constitutes an important part of the elevated system.

The entire track mileage is located on private right-of-way, owned in fee, with the exception of approximately 5 miles of trackage used in entering or passing through the cities of Aurora, Elgin, Geneva, St. Charles and West Chicago.

The company operates 71 passenger coaches, 47 freight cars and 23 miscellaneous types of cars, 2 electric locomotives and 2 buffet parlor cars, of which 20 coaches and 1 electric locomotive are leased under the "Philadelphia Plan" and the balance are owned outright by the company.

Company's modern steam generating station with 16,000 k. w. installed capacity situated at Batavia together with its principal transmission equipment is leased to the public Service Company of Northern Illinois under a contract giving the Company an ample power supply under favorable terms.

(2)

$4,950,000 CHICAGO AURORA AND ELGIN RR. CO. FIRST AND REFUNDING MORTGAGE 6% GOLD BONDS, SERIES "A"; DUE JANUARY 1, 1951

Dated January 2, 1926.

Interest Payable January and July 1, at Halsey, Stuart & Co., Inc., Chicago and New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered; denominations interchangeable.

Sinking Fund Agent—Halsey, Stuart & Co., Inc., Chicago and New York.

Provisions of Issue—Authorized amount, unlimited; issued, $5,000,000; outstanding Dec. 31, 1927, $4,950,000, after completing sinking fund payments. The proceeds from the sale of Series "A" bonds were used to refund the 2-year 6½% Secured Gold notes, due Dec. 1, 1926, the Refunding & Improvement Mortgage 7% Gold bonds, due April 1, 1947, the acquisition of certain of the First Mortgage 5% Gold bonds, due April 15, 1941, and for other corporate purposes.

Additional bonds of any series, with such provisions as authorized at time of issuance may at any time be issued (a) in equal amount against deposit of cash or U. S. obligations, or pledge or refundment of underlying bonds or bonds of a subsidiary, as defined in mortgage, and to pay or refund other series issued under mortgage, and (b) to the extent of 75% of cost of additions, betterments and new properties, coming under lien of mortgage or of mortgage of a subsidiary, or of cost of stock of a subsidiary pledged under mortgage, provided that mortgage bonds of such subsidiary be pledged in an amount equal to not less than principal amount of bonds issued in respect of any such subsidiary and that the amount of such bonds of each subsidiary pledged plus its then mortgage indebtedness outstanding shall not exceed 75% of value of such subsidiary's property.

Additional bonds issuable on account of expenditures made for additions or betterments on purchased property of Company or of subsidiary or on account of acquisition of stock of any subsidiary, may not be issued unless net earnings, as defined in mortgage, of Company and its subsidiaries during 12 consecutive calendar months ending within 60 days next preceding date of issuance shall have been at least twice interest charges on all bonds outstanding and those then proposed to be issued, and on all bonds then outstanding of any of its subsidiaries or, prior to lien on any part of property of Company. Additional bonds in principal amount of $800,000 may be issued at any time for corporate purposes, if Company has complied with foregoing earnings requirement.

Callability—Subject to call as a whole or in part at any time upon 60 days' notice at the following prices and accrued interest: Prior to Jan. 1, 1931, at 105.; on and from Jan. 1, 1931, to Jan. 1, 1936, at 104; on and from Jan. 1, 1936, to Jan. 1, 1941, at 103; on and from Jan. 1, 1941, to Jan. 1, 1946, at 102½; thereafter less ½ of 1% during each succeeding year to Jan. 1, 1950; and on and subsequent to Jan. 1, 1950, at 100.

Sinking and Improvement Fund—The mortgage provides that Company may annually withdraw at 100 for cash not exceeding $50,000 principal amount of First Mortgage bonds pledged as part security under the Mortgage. Cash to the extent of $25,000 arising from such withdrawals or which may be deposited by the Company, shall be used to retire Series "A" bonds to be purchased at not exceeding the then redemption price and the balance may be used against capital expenditures against which no bonds may be issued. Upon release of the First Mortgage, the Company will deposit $25,000 annually thereafter to be applied to the retirement of Series "A" bonds purchased at not exceeding the then redemption price. If Series "A" bonds cannot be so purchased, the balance of such cash may be used against capital expenditures against which no bonds may be issued.

Maintenance of Property—Commencing with the calendar year 1926, and annually thereafter a reserve will be established amounting to not less than 16% of operating revenue derived from Company's operation of physical properties subjected to the lien of the mortgage, to be expended for maintenance, renewals, replacements, betterments or improvements which shall not be made the basis for the certification of additional bonds, or for the retirement of bonds issued under the mortgage. The above percentage is subject to periodical redetermination.

Security—Bonds are secured (a) by a direct first mortgage on the 1.1 miles extension on Company's main line from Bellwood south to Roosevelt Road; (b) by the pledge of $1,869,000 Aurora, Elgin & Chicago Railway First 5s, due April 15, 1941, being over 90% of such bonds outstanding, and (c) by direct mortgage lien on all the physical property presently owned or hereafter acquired, subject only to prior lien bonds from time to time outstanding.

Tax Provisions—Company pays Federal Income Taxes up to 2%, and agrees to reimburse holders of Series "A" bonds, if requested within 60 days after payment, for Pennsylvania and Connecticut 4 Mills and Maryland 4½ Mills Taxes, for District of Columbia Personal Property taxes not exceeding 5 mills per dollar per annum, and for Massachusetts Income Tax on the interest not exceeding 6% of such interest per annum.

History and Property—Organized under Act of Congress, approved June 23, 1888, as Rock Creek Ry. Co. Under authority of Act of Congress, approved March 1, 1895, purchased Washington & Georgetown R. R. Co., and changed its name to The Capital Traction Co. Owns city lines in Washington, D. C and suburban line to Chevy Chase, Md. Mileage operated: Main line owned 57.241 miles; leased 7.156 miles; operated under agreement, 2.114 miles; sidings, turnouts, etc., 6.928 miles. Total operated, 73.439 miles. Gauge, standard. Rails, 80 to 140 lb. T and girder.

Equipment—Double truck prepayment type, 317; double truck non-prepayment type, 20; obsolete passenger cars, 185; service cars, 40—total all cars, 562; motor buses, 31.

Purchase of Washington & Maryland Ry. Co.—As of July 1, 1927 the Company purchased all outstanding stock and bonds of Washington & Maryland Ry. Co. and a new lease was entered into between the companies for continued service.

Operation of Kensington Railway—Negotiations which began in May, 1922, were finally ended by the execution of an agreement among The Capital Traction Co., the Kensington Ry. Co. and Sandy Spring Ry. Co., providing for the operation of the line of the last two named companies from Chevy Chase Lake to Kensington, Md., by The Capital Traction Co. Operation of the line was undertaken on Aug. 1, 1923, operating under the previously existing schedule until Nov. 11, 1923, when the necessary repairs to track had been completed, at which time through service was established between Kensington and Potomac Park.

Proposed Merger—See General Index for statement of Washington Railway and Electric Company.

Valuation—Justice Hoehling of the Supreme Court of the District of Columbia on June 26, 1925, handed down a decision voiding the valuation placed upon Company's property in Sept., 1919, by the Public Utilities Commission of the District of Columbia. The Court found the fair value of all the property of Company used and useful for its street railway operation in the District of Columbia as of Jan. 1, 1925, to be $30,906,880. Appeal from this finding was made by the Public Utilities Commission. The Court of Appeals sustained the first court in all particulars, with the exception of the cost of intangible elements of value purchased with the Washington & Georgetown RR. Co. in 1895. The Court of Appeals disallowed this cost, amounting to $5,150,000, as an item to be considered in fixing fair value for rate-making purposes, and fixed the value for rate-making purposes as of Jan. 1, 1925, at $25,765,880.

Fares—From Jan. 1 until Aug. 31, 1921, the rate of fare was 8 cents cash, 4 tickets for 30 cents, free intra-company transfers with 1 cent charge for inter-company transfers. The same rate had been in effect since May 1, 1920, except that the inter-company trans-

fer charge was 2 cents before Jan. 1, 1921. From Sept. 1 to Dec. 31, 1921, inclusive, the rate of fare was 8 cents cash, 5 tickets for 35 cents, with no change in transfer regulations. Since March 1, 1922, rate of fare has been 8 cents cash, 6 tickets for 40 cents, with no change in transfer regulations.

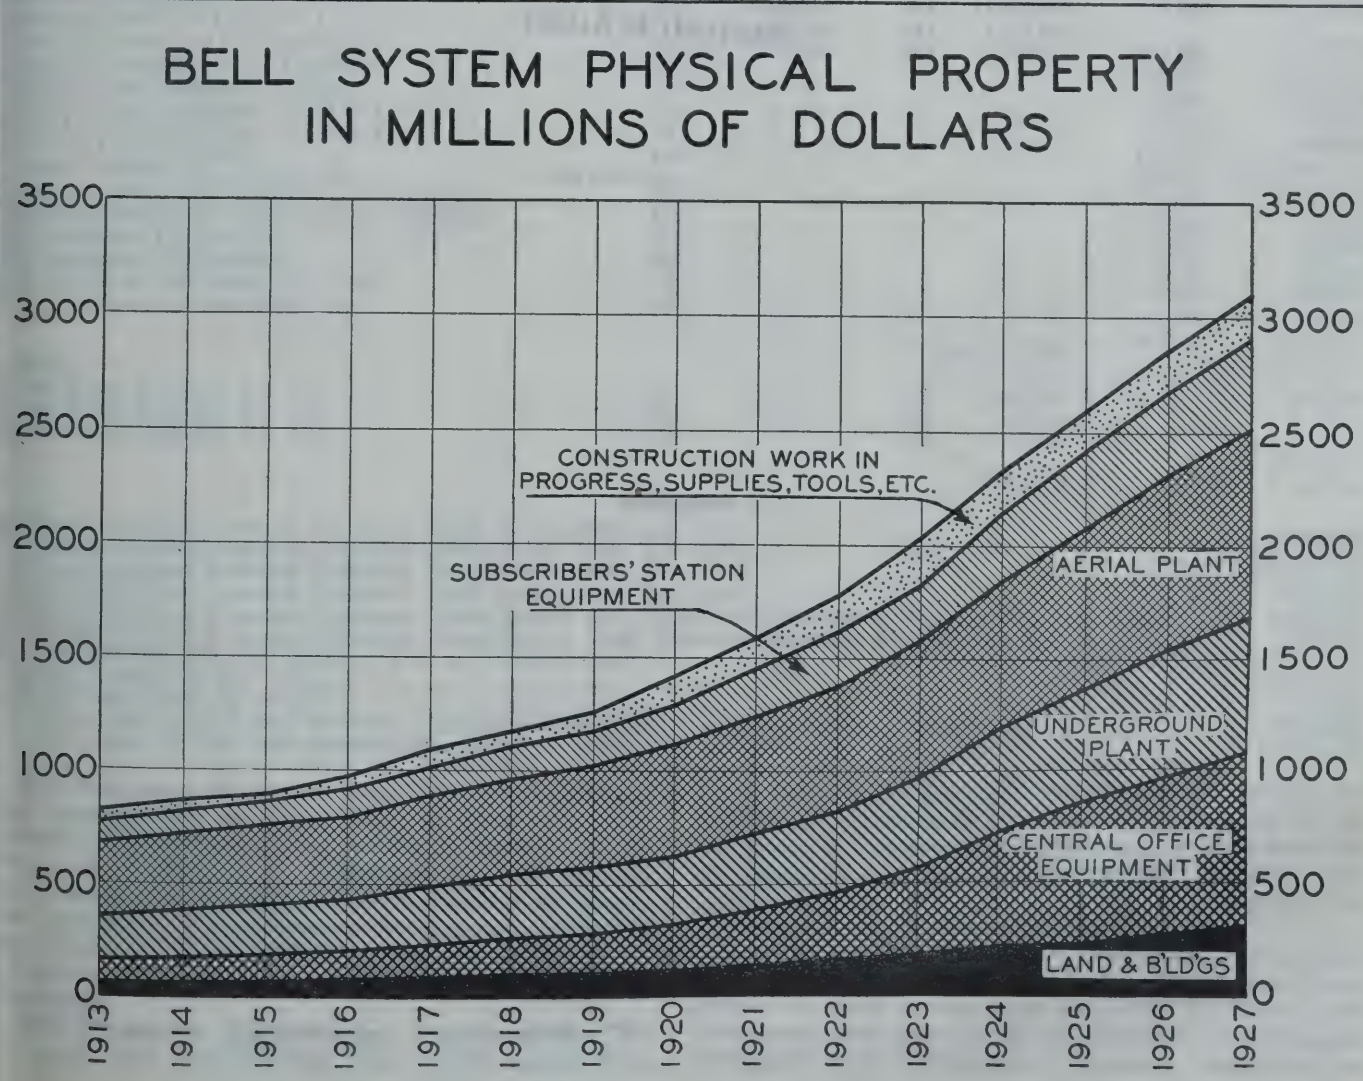
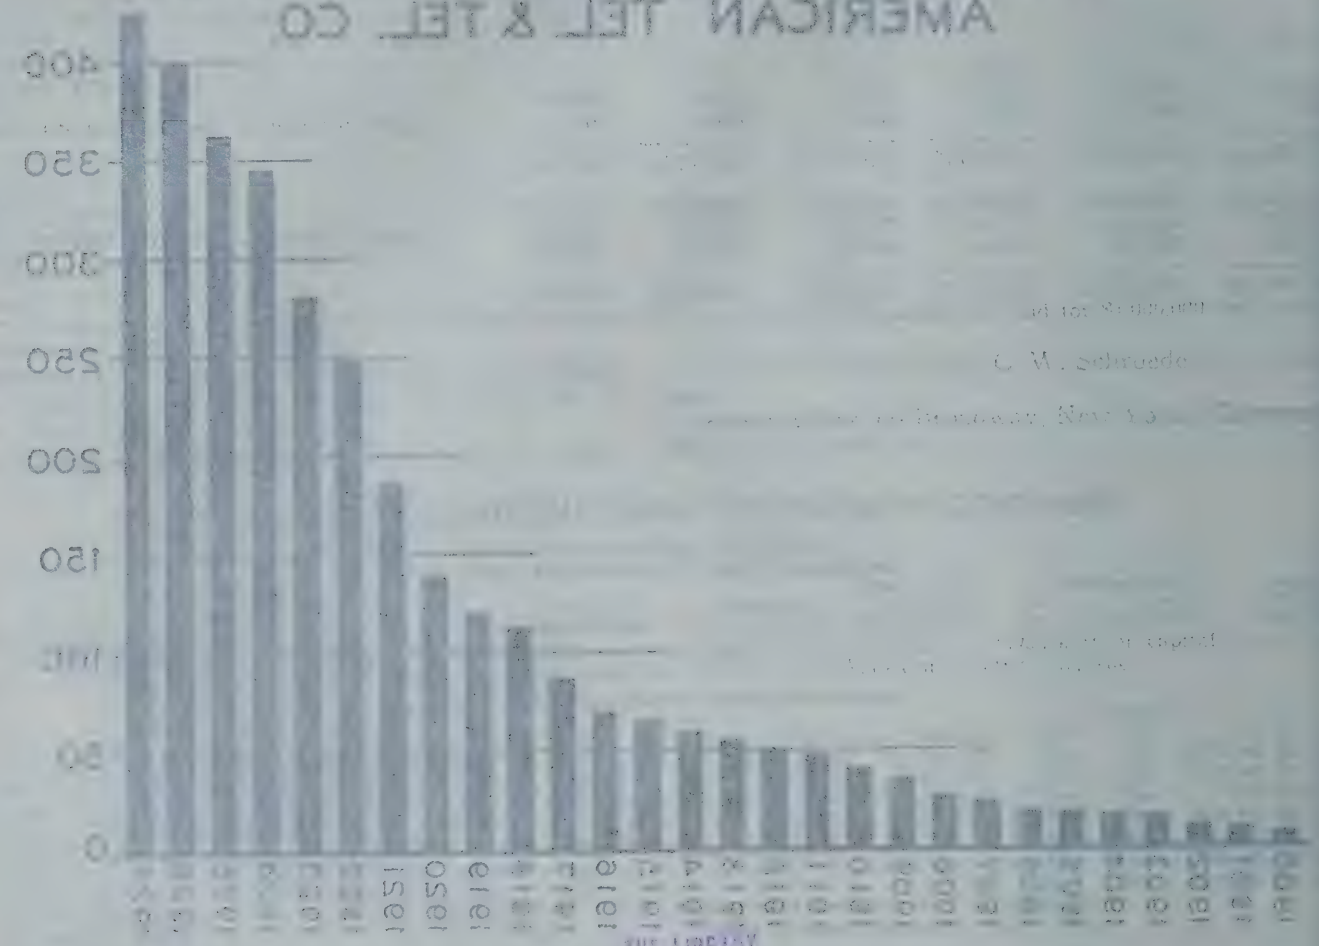
History—Incorporated under New York laws, March 3, 1885 for the purpose of establishing a long distance telephone system throughout the country. In March, 1900 acquired all the stock of the American Bell Telephone Company by an exchange of stock on the basis of two shares of American Telephone and Telegraph Company for each share of American Bell Telephone Company. For details of exchange see 1900 Manual, page 834, or apply to our Information Department.

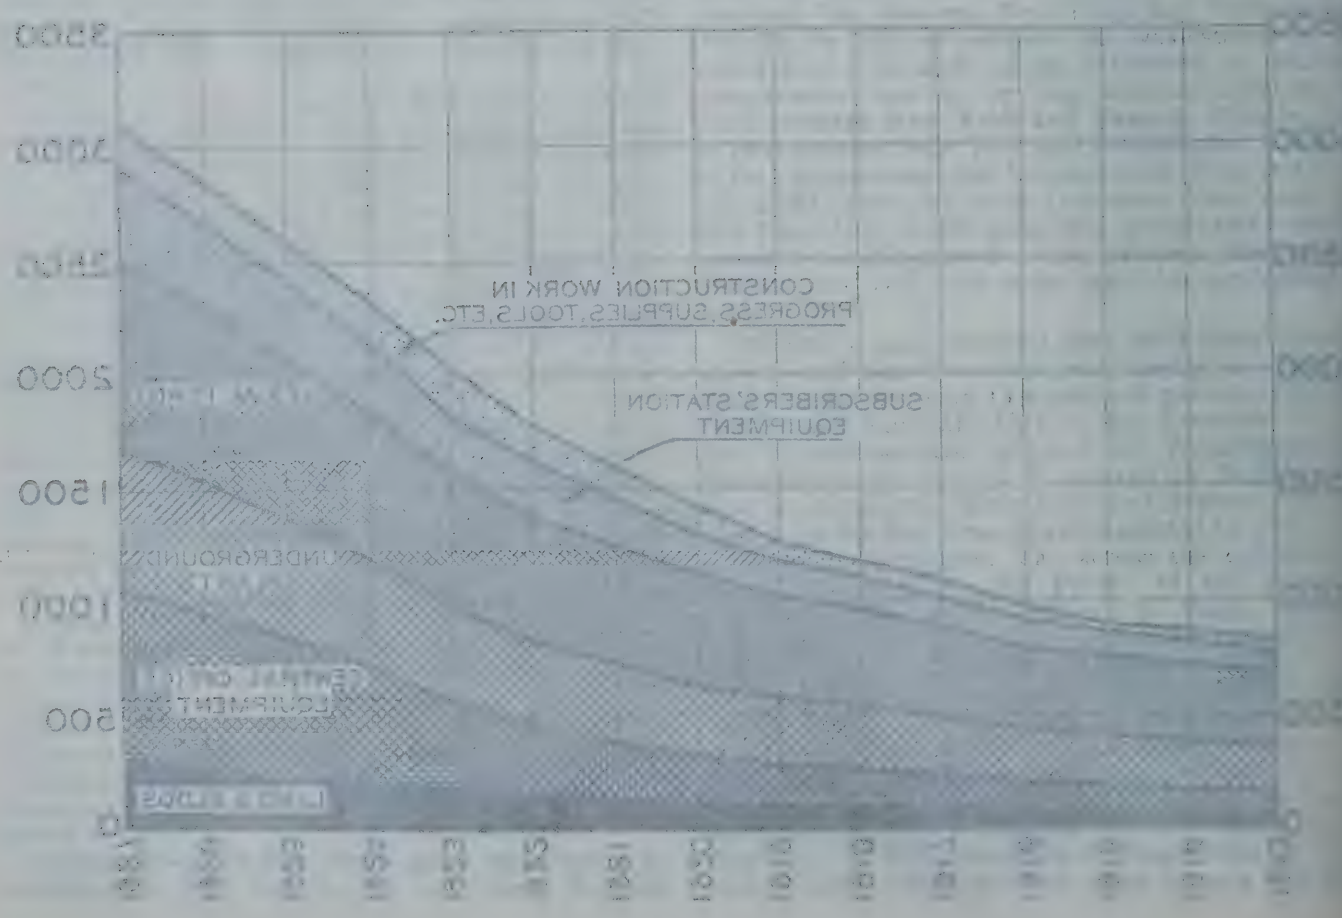


The American Telephone and Telegraph Company with its 24 Associated Operating Companies forms the Bell Telephone System, which furnishes telephone service throughout the United States and connects with telephone systems in Canada and Cuba. It owns and operates the long distance telephone plant which joins together the properties of its Associated Companies. It is the principal stockholder in the Associated Companies, owning directly or indirectly the whole or a majority of the Common stock of 22 companies and a minority in 2 companies. Under contract with its Associated Companies, it is charged with the performance of services for them which have grown in effect into the development of a single policy and program for the Bell System. These services include providing interconnection between regional operating companies by long distance lines, temporary financing and aid in permanent financing, development of the telephone art, patent protection, etc.



It owns over 98% of the Common stock of the Western Electric Company, Incorporated, which is the manufacturing, supply and warehousing organization of the Bell System. It is a minority stockholder (31.23%) in The Bell Telephone Company of Canada and owns 50% of the stock of the Cuban-American Telephone and Telegraph Company, which owns and operates the telephone cables between Florida and the Island of Cuba.

Chronology—The first words were transmitted by telephone in 1876 and in the same year the first conversation was had by overhead line between Boston and Cambridge, a distance of two miles; in 1880 an overhead line between Boston and Providence, 45 miles was established; in 1881 conversation was had by underground cable for a distance of one-quarter mile; in 1884 an overhead line between Boston and New York, 235 miles was established and in 1886 an overhead line between New York and Philadelphia, 90 miles; in 1892 an overhead line was established between New York and Chicago, 900 miles; in 1902 first conversation was had by long distance underground cable between New York and Newark, 10 miles, and in 1906 between New York and Philadelphia, 90 miles; in 1911 an overhead line between New York and Denver, 2,100 miles and in 1913 between New York and Salt Lake City, 2,600 miles was established; conversation by underground cable between Boston and Washington, D. C. 455 miles was also established in 1913.



The first transcontinental line, 3,650 miles between Boston and San Francisco was opened on Jan. 25, 1915, the line crossing 13 states and passing, Chicago, Denver and Salt Lake City to San Francisco; in the east connections are obtained for Washington and Philadelphia by way of Pittsburgh or Buffalo with final connections in New York and Boston. In 1915 speech for the first time was transmitted by radio telephone from Arlington, Va., across the continent to San Francisco, over the Pacific to the Hawaiian Islands, and across the Atlantic to Paris. In 1921 conversation was had by deep sea cable, 115 miles, between Key West, Florida and Havana, Cuba; in the same year first conversation between Havana, Cuba and Catalina Island by submarine cable, overhead and underground lines and radio telephone, a distance of 5,500 miles. In 1922 ship-to-shore conversation by wire and wireless between Bell telephones in homes and offices and S. S. America, 400 miles at sea in the Atlantic. In 1923 successful demonstration of transoceanic radio telephony was made from a Bell tele-

phone station in New York City to New Southgate, England. In 1924 pictures were sent by telephone circuit from Cleveland to New York and from New York to Chicago.

In 1925 the first telephone cable from New York to Chicago was put into service on October 1.

In 1926 two-way radio telephone conversation was inaugurated between New York and London.

In 1927 commercial trans-oceanic radio telephone service was opened between New York and London; later extended to all points in the United States, Great Britain, Germany and Belgium; also to Cuba and Canada. Television was demonstrated by wire between New York City and Washington, D. C., and by radio between New York City and Whippany, N. J.

In September, 1927, commercial telephone service was commenced between the United States and the principal cities of Mexico. Subsequently this Mexican service was extended to Cuba and Canada.

Key West-Havana Telephone Cables—In co-operation with the Cuban-American Telephone & Telegraph Co., the telephone service of the United States across the Florida straits by means of three submarine telephone and telegraph cables has been extended from Key West to Havana. On April 11, 1921, the cables were opened to public service. By means of the transcontinental line the connection was extended to San Francisco and thence south to Los Angeles, where, by means of a radio telephone connection, the circuit was extended to Catalina Island, thirty miles distant in the Pacific. Satisfactory conversation was thus carried on between Catalina and Cuba, a distance of something over 5,500 miles. This is the greatest distance over which commercial telephone service has thus far been established. These cables bring all of the principal places in the United States into telephonic communication with Havana and other important places in Cuba and constitute an important extension of the telephone service of the Bell System.

Broadcasting Station Sold—On Nov. 1, 1926 Company sold its radio broadcasting station "W E A F" for $1,000,000.

Bell Telephone Securities Co., Inc.—This company was incorporated in Sept., 1921, in Delaware, with capital of $1,000,000, all of which is owned by the American Telephone & Telegraph Co. It has the usual broad charter rights of an investment or securities company. The purpose of the company is to disseminate facts about Bell securities among investors, especially Bell telephone users. Arthur W. Page is President.

Bell Telephone Laboratories, Incorporated—This company was chartered in Dec., 1924, under New York laws with $100,000 capital, owned jointly by American Telephone & Telegraph Company and Western Electric Company, Incorporated, to take over all the research and developing functions hitherto performed for the Bell system in the Engineering Department of the Western Electric Co., Inc.

New Jersey Bell Telephone Company—For a number of years prior to 1927, Bell System telephone service in New Jersey was provided by New York Telephone Company and by the Delaware and Atlantic Telegraph and Telephone Company, operating re-

spectively in the northern and southern parts of the State. It was decided that public interest would best be served by the consolidation of the telephone properties in New Jersey and their operation by a separate state-wide company. The Delaware and Atlantic Telegraph and Telephone Company, the entire capital stock of which was owned by the New York Telephone Company, acquired all of the property of the latter Company in the northern part of the State of New Jersey in consideration of the issuance of additional shares of its stock to New York Telephone Company, and changed its name to the New Jersey Bell Telephone Company. The conveyance was made on September 30, 1927, and on October 1, 1927, the New Jersey Bell Telephone Company began operations as an associate company of the Bell System.

As of Dec. 30, 1927 the New Jersey Public Utility Commission approved change of control of New Jersey Bell Telephone Company from New York Telephone Company to American Telephone & Telegraph Company through a book transfer to the latter company of a majority of outstanding stock of the New Jersey Bell Telephone Company.

License Contract—The American Telephone and Telegraph Company at the end of the year 1927 sold to its Associated Companies the telephone instruments which had previously been furnished and maintained by it for those companies, and at the same time reduced the charge to its Associated Companies under its contract for services from 4% to 2% of the gross telephone revenues of those companies.

Bell Telephone System in the United States—The Bell System, as a whole, is made up of the American Telephone & Telegraph Co. and associated companies. The associated, or Bell companies, are Bell companies by virtue of contract or license arrangements and financial relations. Connecting companies are independent companies whose telephone systems cover territory dependent upon them for service, connecting with the telephone system of the Bell companies.

There are in the United States about 9,000 separate telephone companies. Of these 24 are associated companies of the Bell System and 8,892 independent companies whose telephone systems are connected with the Bell System. There are also a large number of rural lines and associations operated mainly on a mutual or co-operative basis and not rated as companies. Of these lines and associations, 30,416 connect with the Bell System.

At Dec. 31, 1927, the number of telephone stations which constitute the Bell System in the United States was 18,365,486, of which 13,726,056 were owned by Associated Companies of the Bell System and 4,639,430 by local, co-operative and rural independent companies or associations having sublicense or connection contracts, the so-called connecting companies. There is now one Bell telephone station to each 6 of the total population in the United States, as compared with one station to each 10 of the population ten years ago, and one to each 90 of the population in 1900.

The following statistics show the development of the Bell Telephone System:

Funded debt, Assoc. Companies	536,045,800	*526,800

*Decrease.

The principal items of financing during 1927 were as follows:

In respect to American Telephone and Telegraph Co. the $1,103,415,600 outstanding capital stock at Dec. 31, 1927, showed an increase during the year of $39,087,800; the capital stock installments of $38,873,600 showed a decrease during the year of $9,595,279. This is accounted for as follows: Issued for cash in accordance with the terms of the offer of May 19, 1926, $17,641,400; sale to public of portion of unsubscribed stock remaining in treasury from offers to stockholders of record Sept. 8, 1922 and June 10, 1924, $1,291,900; issued to employees of the Bell System upon completion of installment payments under Employees' stock plan, $20,154,500; capital stock installments amounting to $38,873,600 were received from employees. During 1927, $751,500 5% Collateral Trust Bonds due 1946 and $341,000 5% Debentures, due 1960 were retired through operation of sinking funds.

Common stock of The Pacific Telephone and Telegraph Company outstanding in the hands of the public increased $9,093,100, due to an offer of additional stock to shareholders at par. Other changes in outstanding stocks and funded debt of Associated Companies were minor in amount, reflecting mainly installment payments on Preferred stock, operation of bond sinking funds and assumption of real estate mortgages in connection with property purchased.

CAPITAL STOCK

The authorized capital stock as of Dec. 31, 1927, was $1,500,000,000; increased from $100,000,000 to $150,000,000 on June 4, 1901; to $250,000,000 on April 4, 1903; to $300,000,000 in Jan. 1909, to provide for the conversion of the undernoted Convertible 4% bonds; to $500,000,000 on March 30, 1910; to $750,000,000 on April 1, 1920, to $1,000,000,000 March 28, 1923 and to $1,500,000,000 on April 1, 1925. Outstanding, as of Dec. 31, 1927, $1,103,415,600 (not including $38,873,600 capital stock installments); par, $100.

For details of capital stock issues and capital stock installments during 1927, see above under "Changes in Capitalization."

Stockholders of record June 10, 1924, received right until Aug. 1, 1924, to subscribe to $151,157,500 new stock at par in the proportion of one new share for each five shares held; payments were due in three installments, $20 per share on Aug. 1, and $40 per share on Dec. 1, 1924, and $38.40 per share on April 1, 1925, the latter installment including $1.60 interest allowed by company on the first and second installments. Full payment was permitted on Aug. 1, 1924, at $102.75 per share, and anticipation of final payment of installment subscriptions was permitted on Dec. 1, 1924, upon payment of $82.10 per share, the $2.75 and $2.10 additional amounts over par being added in order that the net rate paid on the money by the company until April 1, 1925, would be 6% per annum.

Stockholders of record June 8, 1926 received the right to subscribe until Aug. 2, 1926, to $154,127,500 new stock at par in the ratio of one new share for each six shares held. Payments for the new stock could be spread over eight months, the first installment of $20 being due Aug. 2, 1926, the second of $40 on Dec. 1, 1926, and the third of $40 on April 1, 1927. Interest at the rate of 6% was allowed on installment payments and was credited on the final payment, which thus was reduced to $38.40. Stock bought under the installment offer was issued as of April 1, 1927. Subscribers had the option of paying in full on Aug. 2, 1926, or, if they made the first payment when due, could pay the two remaining installments on Dec. 1, 1926.

Sinking Fund—The Indenture provides for sinking fund payments at the rate of $1,000,000 annually, payable semi-annually beginning May 1, 1924, to be used in purchasing these debentures if obtainable at not exceeding 105% and interest; otherwise to be used for capital expenditures.

Security—Direct obligation of Company, but not secured by mortgage or pledge. Under the terms of the Indenture, company covenants not to mortgage any of its telephone lines or plant unless it shall secure these debentures by pledge with the Trustee of stocks or bonds of its telephone operating companies, and that it will not pledge (with certain exceptions and limitations set forth in the Indenture with respect to its outstanding Collateral Trust Bonds) any stocks or bonds of its telephone operating companies unless it shall either secure these debentures by pledge with the Trustee, or secure them ratably with the other obligations secured by such pledge. In either case, the company shall keep so pledged stocks or bonds of a value which shall be equal at all times to 133 1/3% of the principal of the debt secured thereby. Any such collateral required so to be pledged shall be similar in character to that required for the security of the company's 30-Year Collateral Trust 5s of 1946. The provisions for valuation and substitution of stocks and bonds so pledged shall be similar to the corresponding provisions in respect of the collateral securing the company's above-mentioned 5% bonds.

Tax Provisions—Company does not pay Normal Federal Income Tax.

Legal for Savings Banks in New Hampshire, Ohio and Vermont.

Original Offering—First publicly offered ($100,000,000) in November, 1923, at 98½ and interest, to yield 5⅝%, by J. P. Morgan & Co., Kuhn, Loeb & Co., Kidder, Peabody & Co., First National Bank, National City Co., Bankers Trust Co., Guaranty Trust Co. of New York, Harris, Forbes & Co., and Lee, Higginson & Co., New York.

$122,744,400 AMERICAN TELEPHONE AND TELEGRAPH CO. THIRTY-FIVE YEAR SINKING FUND 5% GOLD DEBENTURES, DUE JANUARY 1, 1960

Dated January 1, 1925.

Interest Payable January and July 1, at Treasurer's office, New York or Boston, Mass.

Denominations—Coupon (principal may be registered), $100, $500 and $1,000, and fully registered, $1,000, $5,000 and $10,000; interchangeable.

Trustee—Central Union Trust Co. of New York.

Provisions of Issue—Authorized and issued, $125,000,000 of which $2,213,600 retired by sinking fund to Dec. 31, 1927, leaving $122,786,400 outstanding, of which $122,744,400 are in hands of public. The proceeds of these debentures were used to provide the Bell Telephone System with funds for additions and betterments and for other capital expenditures, it being the intention of the American Telephone & Telegraph Company to utilize the greater part of these proceeds in making loans to its Associated Companies or in acquiring their securities.

Callability—Subject to call as a whole or in part at 110 and interest on any interest date up to July 1, 1956, and thereafter at par and interest.

Sinking Fund—A sinking fund of $1,250,000 annually is to be set aside in equal semi-annual instalments beginning July 1, 1925, such fund to be used in purchasing debentures of this issue if obtainable at not exceeding 102½% and interest; otherwise, to be used for capital expenditures, against which no debt obligations may be issued.

Security—Direct obligation of Company but not secured by mortgage or pledge. Under terms of indenture company covenants not to mortgage any of its telephone lines or plants unless it shall secure these debentures by stocks or bonds of its telephone operating companies, and that it will not pledge (with cer-

tain exceptions and limitations with respect to its outstanding Collateral Trust bonds) any stocks or bonds of its telephone operating companies unless it shall either secure these debentures as above stated, or ratably with any other obligations secured by such pledge. In either case, Co. shall keep so pledged stocks or bonds of a value which shall be equal at all times to 133⅓% of the principal of the debt secured thereby. Any such collateral so to be pledged shall be similar in character to that required for the security of Co.'s 30-year Collateral Trust 5% bonds of 1946. The provisions for valuation and substitution of stocks and bonds so pledged shall be similar to the corresponding provisions in respect of the collateral securing the above-mentioned 5% bonds of 1946.

Tax Provisions—Company does not pay Normal Federal Income Tax.

History and Properties—Incorporated in 1880, under special Act of Dominion of Canada; consolidation of several small corporations. Owns and operates toll lines and all Bell telephone exchanges in the Provinces of Quebec and Ontario, serving a territory of 831,837 square miles with 5,500,000 population, including Montreal and Toronto, the largest cities in Canada. Company has from time to time found it expedient to sell its properties in different provinces, notably Manitoba, Alberta, Saskatchewan, New Brunswick, Nova Scotia and Prince Edward Island. In most instances the company received payment, partly in cash and partly in fully paid stock, in the local companies. The cash so received has been reinvested in the plant of the company without any addition to the capital. In the North West Provinces the Local Government proposed to inaugurate local, provincially owned and operated systems, and this company sold its plant in Manitoba to the Provincial Government in Jan., 1908, for $3,400,000, payment being made in 40-year 4% bonds of the Province; the plant in Saskatchewan was sold to that Province in May, 1909.

In July, 1921, a four hundred pair submarine cable, the largest international cable in the world, was laid between Windsor and Detroit, in conjunction with the Michigan State Telephone Co., making the fourth jointly owned cable between these points, and provi ing together 528 pairs of conductors.

Average daily connections (1927): Exchange, 4,47 339; long distance, 58,801. The company has arrang ments for an interchange of business with 840 ind pendent local telephone organizations, serving 133,5 subscribers' stations.

Radio Contract—An agreement to run for ten yea has been concluded between The Bell Telephone C of Canada, the Canadian General Electric Co., t Northern Electric Co., the Canadian Westinghou Standard Radio Mfg. Corp., Ltd., De Forest Rad Corp., Ltd., Canadian Marconi Co. and the Weste Electric Co., covering the use by all for radio purpos of the respective patents of each concern. Under t terms of the agreement, each of the companies agre to the use of its patents by the others within te natural field of such other company, the Marconi Co pany to use all the patents for wireless telegraph pu poses; the Bell Company for the purposes of pub telephone communication; and the manufacturi companies, including the Marconi Company, for t purpose of manufacture and sale. The agreement cludes a traffic arrangement between the Marc Company and the Bell Company for the interchan of part wire and part wireless messages.

THE BELL TELEPHONE COMPANY OF PENNSYLVANIA

(Controlled by American Telephone and Telegraph Company)

History and Property—Incorporated Sept. 18, 1879, in Pa., as Bell Telephone Co. of Philadelphia; present title adopted Dec. 21, 1907. Company was incorporated with power to do a general telephone and telegraph business in the States of Pennsylvania, Delaware and New Jersey. The duration of its charter is 100 years from Sept. 18, 1879. As one of the units of the Bell System it owns and operates a comprehensive system of exchange and toll lines located in Pennsylvania, reaching every part of the State and connecting directly or indirectly for the interchange of traffic with all the other companies of the Bell System throughout this country and in Canada. Owns all the capital stock of The Diamond State Telephone Co. (see appended statement) and all the capital stock of Lehigh Telephone Co. (see appended statement); also guarantees principal and interest of the bonds of the latter company. On Sept. 30, 1918, The Bell Telephone Co. of Pennsylvania acquired the property and business of The Central District Telephone Co., and assumed its funded debt outstanding.

On April 14, 1923, the Bell Telephone Company of Pennsylvania purchased the physical plant of the Pittsburgh & Allegheny Telephone Company (see 1923 Manual, page 1493) and the Chartiers Telephone Co. and guaranteed the principal and interest of the Pittsburgh & Allegheny Co. bond issue then outstanding.

Recent Acquisition—In Oct., 1927, the Interstate Commerce Commission authorized the Summerville Telephone Co. to transfer its properties to The Bell Telephone Co. of Pa. On Nov. 14, 1927, stockholders of the Montgomery Subway Co. authorized the sale of all the physical and tangible property of The Bell

Telephone Co. of Pa. The Huntingdon & Clearfield Telephone Co. also sold its properties to The Bell Telephone Co. of Pa.

Extent of System—The Bell Telephone Co. of Pennsylvania operates in Pennsylvania. Total number of stations, Dec. 31, 1927, including local connecting companies, 1,301,624. Including its Associated Company which operates in Delaware, total number of stations, Dec. 31, 1927, was 1,330,585.

Net Additions to Plant—During the year 1927 the net additions to plant amounted to $15,158,637, under the following general classifications: Land and buildings, $275,848; central office equipment, $3,319,123; outside plant, $5,966,591; instruments and other construction, $5,597,075.

Purchase of Telephone Instruments—As of Dec. 31, 1927, Company purchased from the American Telephone and Telegraph Company the telephone instruments used on its system. At the same time, the payment made by Company to the American Telephone and Telegraph Company for the use of these instruments and for valuable research, engineering, financial and other services, was reduced from 4% to 2% of the gross revenues of the Company.

$50,000,000 THE BELL TELEPHONE CO. OF PA. 35-YEAR FIRST & REFUNDING MORTGAGE GOLD 5s, SERIES "C"; DUE OCTOBER 1, 1960

Dated October 1, 1925.

Interest Payable—On Series "B" January and July 1; on Series "C", April and October 1, at Bankers Trust Co., New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Registered, $1,000, $5,000 and $10,000. Coupon bonds and registered bonds, and the several denominations, interchangeable.

Trustee—Bankers Trust Co., New York.

Provisions of Issue—Series "B" bonds are limited to the principal amount of $35,000,000 and Series "C" to the principal amount of $50,000,000. Under the terms of the Mortgage, additional bonds may be issued for betterments and other new property acquired in connection with the Company's business subsequently to Oct. 1, 1920, but for a principal amount not in excess of 75% of the actual cash cost of such property; provided that no additional bonds shall be issued under said Mortgage, which will make the total bonded debt (as defined in the Mortgage) of the Company then outstanding exceed the then amount of fully-paid capital stock outstanding, plus the unappropriated surplus; and provided, further, that the net earnings of the Company, after taxes, available for interest charges during twelve consecutive months within fourteen months preceding such proposed issue, shall have been not less than 1¾ times the interest during such

period on the Company's bonded debt outstanding, including interest charges on the bonds proposed to be issued, but excluding interest charges on bonds in any sinking fund. Such additional bonds as may be issued in the future will be in different series, and with such interest rates, maturity dates (not earlier than 1945 nor later than 2020), and other provisions, as the directors may from time to time determine.

Purpose of Issue—The proceeds from the sale of Series "B" bonds were used to provide for the redemption of all the 25-year First & Refunding 7% Gold bonds, Series "A", and in reimbursing the Company in part for money expended for additions to or extensions of or betterments and improvements of, the telephone plant and system of the Company made subsequent to Oct. 1, 1920.

The proceeds from sale of Series "C" bonds, to the extent of about $18,000,000 were used to reimburse the Company for money expended for the extension and improvement of the Company's telephone system. The balance was used to repay advances previously made for similar purposes by the American Telephone & Telegraph Co., owner of all the Company's outstanding Common stock.

Callability—Subject to call, as a whole but not in part, upon 60 days' notice at 100 and accrued interest, Series "B" on Jan. 1, 1944 or on any interest date thereafter and Series "C" on October 1, 1957 or on any interest date thereafter.

Sinking Fund—No sinking fund provided.

Security—Secured by a first lien on the entire physical property in the Commonwealth of Pennsylvania, with the exception of the property serving Pittsburgh and certain adjacent counties, on which property the mortgage is subject to closed mortgages securing $9,332,500 Central District Telephone Co. First Mortgage bonds and $1,400,000 Pittsburgh and Allegheny Telephone Co. First Mortgage bonds.

Company covenants that it will not increase th outstanding issue of bonds under any underlying mort gage then or thereafter constituting a lien upon th mortgaged premises or any part thereof; that it wi not extend or consent to the extension of the time c payment of the principal of any bonds secured by an such underlying mortgage, and before or at the ma turity thereof will pay or cause to be paid the princ pal of or will acquire and pledge under the mortgag all such bonds, and until paid or discharged at matu ity or otherwise it will, except as otherwise provide in respect of underlying bonds deposited with th Trustee, pay the interest thereon or cause it to be pai at the times and at the place or places therein or in th coupons attached thereto set forth.

ILLINOIS BELL TELEPHONE COMPANY

(Controlled by American Telephone and Telegraph Company)

History and Property—Incorporated Jan. 14, 1881, in Ill., as Chicago Telephone Co. (see 1920 Public Utility Manual, page 1365, or apply to our Information Department). Present title adopted in Dec., 1920, it having purchased all the property of the Central Union Telephone Co. in the State of Illinois on Nov. 30, 1920. It owns and operates telephone exchanges, in Alton, Aurora, Champaign, Chicago, Decatur, Elgin, Evanston, Gary, Hammond, Joliet, Moline, Peoria, Quincy, Rockford, Rock Island, Springfield, Waukegan and a number of other places. New franchise in Chicago granted in 1907, expires Jan. 8, 1929, and provides for 3% of gross receipts to be paid to city semi-annually. No. of central offices, Dec. 31, 1927, 269. No. of connecting and miscellaneous stations, 395,162.

Recent Acquisitions—On May 1, 1924, Company purchased from the Commercial Telephone and Telegraph Company certain toll property and ten exchanges. Duplication of toll operation within a considerable territory was eliminated by this transaction. Purchased on Sept. 30, 1924, the property of the Gibson Home Telephone Company and the United Telephone Company of Ottawa, Ill. For these three properties, operating 6,733 company stations and 301 miles of toll lines and serving 531 service stations, the company paid $597,756, which amount includes $137,500 of 6% bonds of the United Company maturing in June, 1929, which were assumed by the Illinois Bell Company. On April 1, 1926, the company purchased all of the properties of the Home Telephone Co. of Cairo, Ill., for approximately $114,344 and the assumption of $37,500 bonds of the Home Company.

On May 1, 1927 the Company purchased property the Winnebago County Telephone Company includi 1,433 company stations in the vicinity of Rockford, Il on Nov. 1, 1927 property of the Effingham Telepho Co., Effingham, Ill., including 1,114 company statio and on Dec. 31, 1927 the property of the Watseka Te phone Company, Watseka, Ill., including 1061 Co pany stations at a total cost of $171,911. The acq sition of all the above properties was approved by t Illinois Commerce Commission.

Rates—On Aug. 16, 1923, the Illinois Commer Commission entered an order reducing the rates in t City of Chicago, which, if operative, would have r duced the company's revenue approximately $1,70 000 per annum. The present Chicago rates were fix upon a minimum valuation made by the former Co mission. This order being, in the opinion of the co pany, confiscatory of the company's property, appli tion was made to the United States District Court Chicago for an injunction against the Commissio order. A temporary injunction was issued by th Federal Judges on Dec. 21, 1923, and the City of C cago appealed from this order to the U. S. Supre Court, which affirmed the injunction on October 1925. The case is now pending before the U. S. D trict Court in Chicago for final hearing.

License Contract—See American Telephone a Telegraph Company.

MICHIGAN BELL TELEPHONE COMPANY

(Controlled by American Telephone and Telegraph Company)

History and Properties—Incorporated Jan. 30, 1904, in Mich., as the Michigan State Telephone Co.; present title adopted Jan. 1, 1924. Operates under State Law (no franchises required) throughout the State of Michigan.

During 1912, the Company acquired the properties of the Home Telephone Co. (Detroit, Mich.) and four associate companies (Inter-State Long Distance Telep. Co. of Mich.; Macomb County Telep. Co. of Mt. Clemens; Detroit River Telep. Co. of Wyandotte and Trenton and Wayne County Telep. Co. of Northville and Plymouth) operating in the neighborhood of Detroit. The bonds of the Home Company were paid off and cancelled (see Manual for 1912, page 1795). In Sept. 1912, acquired the property of the Washtenaw Home Telephone Co.—see Manual for 1912, page 2483.

Effective May 1, 1922, Company purchased the property of the Valley Home Telephone Co. (see 1923 Manual, page 1375), assuming $196,300 5% bonds of that company, $92,200 of which had been retired to Dec. 1, 1927, and the remainder ($104,100) mature Nov. 1, 1932 (see below); on Sept. 1, 1923, acquired the property and assets of the Citizens Telephone Co., Grand Rapids, Mich. (see 1923 Manual, page 1377), assuming $1,453,800 First Mortgage 5% bonds, due Dec. 1, 1936, of which $300,000 carry coupons bearing 2% additional interest, $42,100 5% retired through sinking fund, leaving $1,411,700 outstanding as of Dec. 31, 1927; on Nov. 1, 1923, acquired the property of the Citizens Telephone Co. of Battle Creek, Mich. (formerly controlled by Citizens Telephone Co., Grand Rapids, Mich.), assuming $10,500 par value 6% bonds, which matured and were paid off May 1, 1924; on Dec. 1, 1923, acquired the property of Citizens Telephone Co., Jackson, Mich. (see 1923 Manual, page 1378). This latter company had $236,500 First Mortgage 5% bonds, due Feb. 1, 1923, payment of which was defaulted; $230,500 of these bonds had been acquired or were in sinking fund leaving $6,000 in hands of public. Upon the acquisition of the property by the Michigan Company, the bonds were retired.

The consolidation program following the purchase of the Citizens Telephone Company property in western Michigan in September, 1923, was completed in 1926. All of the exchange service was consolidated during 1923, that is, within four months after acquiring the property, except at Jackson, where the consolidation was completed in 1924, at Lansing, where the work was completed in 1925, and at Grand Rapids, where the consolidation was completed in May, 1926.

CAPITAL STOCK

Authorized and outstanding, $85,000,000 Common (increased from $6,000,000 to $25,000,000 April 12, 1923, to $35,000,000 April 1, 1924, to $50,000,000 Dec. 31, 1924, and to $85,000,000 Dec. 31, 1927, the new stock being sold at par to the American Telephone and Telegraph Co. in payment of a like amount of demand notes); par, $100. The American Telephone and Telegraph Company owns $84,989,000 of the stock, $40,000,000 thereof being pledged under its Collateral Trust bonds of 1929. Secretary of Company acts as Transfer Agent. Registrar: Union Trust Co., Detroit. Annual meeting, first Thursday in March.

Dividends—Dividends on Com. stock paid as follows: 4% in 1908; at rate of 6% per annum from Mar. 1909 to Mar. 1910, incl.; April 1910, to Mar. 1912, incl., at rate of 7% per annum; April 1912 to Sept. 1914, incl., at rate of 6% per annum; none thereafter until 1923, when 6½% was paid; 1924 to date, 8% per annum.

The $4,000,000 6% Pfd. stock previously outstanding was called for redemption Feb. 1, 1923. This stock was cumulative and dividends had been paid regularly from the organization of the Company to and including Sept. 30, 1919. After that date it was necessary to temporarily discontinue the payment of dividends on Pfd. stock. During the year 1922, all of the past due dividends to and including Dec. 30, 1922, amounting in total to $780,000 were paid. An additional $20,000 covering the dividend on this stock for the month of Jan., 1923, was paid with the retirement of the stock on Feb. 1, 1923.

THE MOUNTAIN STATES TELEPHONE AND TELEGRAPH COMPANY

(Controlled by American Telephone and Telegraph Company)

Stock Issue, At December 31, 1927, Summarized

Stock	Dividend Payment Dates	Authorized	Outstanding	Income Available for Dividends	Dividends Paid— Rate	Dividends Paid— Amount	Earnings per Share
Capital Stock; par, $100	J, A, J & O 15	$50,000,000	$38,439,700	$3,888,732	8%	$3,075,176	$10.12

History and Property—Incorporated July 17, 1911, in Colorado; consolidation of the Rocky Mountain Bell Telephone Co. (see Manual for 1911, page 1425, or apply to our Information Department), and the Colorado Telephone Co. and its subsidiary the Tri-State Telephone & Telegraph Co. (see Manual for 1911, page 1413). The Colorado Telephone Co. operated in Colorado and New Mexico, except in the southernmost counties; The Rocky Mountain Bell Telephone Co. in Utah, Idaho, Montana and Wyoming; the Tri-State Telephone & Telegraph Co. in Cochise County, Ariz., southern New Mexico and El Paso, County, Tex. The merger was effected by the acquisition by the new company of the stock of each of the constituent companies, and with the transfer to of all the physical properties, franchises, etc., of the former companies.

The stockholders of the Colorado Telephone Co. received for their holdings stock in the Mountain States Telephone & Telegraph Co. in the ratio of 112 to $100. Stockholders of the Tri-State Telephone & Telegraph Co. received for their holdings stock in the Mountain States Telephone & Telegraph Co., share for share. Stockholders of Rocky Mountain Bell Telephone Co. received shares of the Mountain States Telephone & Telegraph Co. in the ratio of $60 to $100.

The Mountain States Telephone & Telegraph Co. owns and controls the telephone properties of seven states, and crosses the border of one other, operating throughout the states of Colorado, Utah, Montana, Wyoming, New Mexico and Arizona, and in all of Idaho except that portion north of the Salmon River and in West Texas, with toll lines extending into the surrounding territory. On Sept. 1, 1920, The Mountain States Tel. & Tel. Co., having been authorized to transact business in Texas, purchased the property of The Tri-State Telephone Co., and is now operating in that state. The Mountain States Telephone & Telegraph Co. occupies a region from Canada on the north to Mexico on the south—an aggregate territory of approximately 777,705 square miles. The area served by the company showed an increase in population from 1910 to 1920 of about 30% in comparison with a 15% increase for the United States as a whole. The company acquired all the Bell properties in Arizona during 1912.

Recent Acquisitions—During 1927 Company acquired the properties of the Clayton-Texline Company, Clayton, N. Mex.; Green River Telephone Company, Green River, Utah; Cheyenne County Telephone Company, Cheyenne Wells, Colo.; Gallup Telephone Company, Gallup, N. Mex.; The Naturita Valley Rural Telephone Company, Norwood, Colo.; Meridian Independent Telephone Company, Meridian, Idaho.

$35,000,000 FIRST GOLD 5s, SERIES "A"; DUE JUNE 1, 1952

Dated June 1, 1922.

Interest Payable June and December 1, at First National Bank, Boston, or at New York Trust Co., New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Registered $1,000, $5,000 and $10,000. Coupon bonds and registered bonds, and the several denominations, interchangeable.

Trustee—First National Bank, Boston.

Provisions of Issue—Authorized amount of bonds is limited so that the amount thereof at any time outstanding, when added to the outstanding amount of the 4% Debentures of 1900 and the 5% bonds of 1912 and any underlying funded debt as defined in the mortgage, shall not exceed twice the amount of the then outstanding capital stock. Bonds are issuable under the mortgage to refund the 4% Debentures of 1900 and the 5% bonds of 1912 and any underlying debt. Subject to the above limitations in amount, bonds are also issuable for the acquisition of additional property (including stocks, bonds and securities of other corporations) and betterments; but if at any time the amount of outstanding bonds secured by this mortgage, when added to the prior funded debt of the Company, shall exceed the then amount of the outstanding capital stock, additional bonds will be issuable for not exceeding 75% of the expenditures for such additional property and betterments, the issue of bonds in respect of stock and other securities being limited so that not more than one-third of the security under the mortgage shall consist of stock and unsecured obligations of other corporations. The mortgage further provides that so long as the Series "A" Bonds are outstanding, no bonds are issuable, except for refunding, unless the net earnings of the Company available for interest charges during any 12 consecutive months out of 15 months next preceding the proposed issue, shall have been not less than 1½ times the interest during such period on the Company's outstanding funded debt, as defined in the mortgage, plus the amount of interest for 12 months on the bonds proposed to be issued. The bonds issuable under the mortgage may be of several series, and may vary as to interest rates, maturity dates, sinking fund and other provisions as may be determined by the Company from time to time.

Callability—Subject to call, as a whole but not in part, on June 1, 1949, or any interest date thereafter, on 60 days' notice, at par and accrued interest.

Sinking Fund—No sinking fund provided.

Security—The bonds are secured, ratably with the $40,000,000 First Mortgage 4½% bonds, Series "B," described below and ratably with the outstanding $11,000,000 debentures, by a first mortgage covering all the real estate and other property, other than securities, now owned or hereafter acquired by the Company in the States of Maine, New Hampshire, Massachusetts and Rhode Island, subject only to a mortgage of $820,000 on a specific parcel of real estate; also secured on all shares of stocks of The New England Telephone & Telegraph Co. of Massachusetts, Providence Telephone Co. of Massachusetts, Southern Massachusetts Telephone Co. and The Massachusetts Telephone & Telegraph Co.

Tax Provisions—Company does not pay Normal Federal Income Tax.

Legal for Savings Banks in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, Ohio, Rhode Island and Vermont.

Original Offering—First publicly offered ($35,000,000) in May, 1922, by a syndicate composed of J. P. Morgan & Co., Kuhn, Loeb & Co., Kidder, Peabody & Co., First National Bank, National City Co., Bankers Trust Co., Guaranty Co., Harris, Forbes & Co., Lee Higginson & Co., all of New York, etc., at 97½ and interest, to yield over 5.15%.

Net Additions to Plant (New York Telephone Co. proper) during 1927 totalled $51,901,548, of which $5,769,014 was expended for real estate, $26,283,577 for equipment and $19,848,957 for lines.

New Jersey Bell Telephone Company—For a number of years prior to 1927, Bell System telephone service in New Jersey was provided by New York Telephone Company and by the Delaware and Atlantic Telegraph and Telephone Company, operating respectively in the northern and southern parts of the State. It was decided that public interest would best be served by the consolidation of the telephone properties in New Jersey and their operation by a separate state-wide company. The Delaware and Atlantic Telegraph and Telephone Company, the entire capital stock of which was owned by the New York Telephone Company, acquired all of the property of the latter Company in the northern part of the State of New Jersey in consideration of the issuance of additional shares of its stock to New York Telephone Company, and changed its name to the New Jersey Bell Telephone Company. The Conveyance was made on September 30, 1927, and on October 1, 1927, the New Jersey Bell Telephone Company began operations as an associate company of the Bell System.

As of December 30, 1927 the New Jersey Public Utility Commission approved change of control of New Jersey Bell Telephone Company from New York Telephone Company to American Telephone and Telegraph Company through a book transfer to the latter company of a majority of outstanding stock of the New Jersey Bell Telephone Company.

The transfer of personnel and property of New York Telephone Company to New Jersey Bell Telephone Company involved 10,494 employees and approximately 451,900 telephones. The present field of operations for the New York company, with connecting companies, consists of the entire State of New York and a small part of Connecticut.

$49,659,000 NEW YORK TELEPHONE COMPANY REFUNDING 20-YEAR GOLD 6s, SERIES "A"; DUE OCTOBER 1, 1941

Dated October 1, 1921.

Interest Payable April and October 1, at Company's office, 140 West St., New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Registered bonds in denominations of $1,000, $5,000 and $10,000. Coupon bonds and registered bonds and the several denominations interchangeable.

Trustee—Bankers Trust Co., New York.

Provisions of Issue—Issued, $50,000,000 Series "A" bonds of which $341,000 retired by sinking fund to Dec. 31, 1927.

The authorized amount is limited so that the amount thereof at any time outstanding, when added to the outstanding amount of the First & General Mortgage 4½% bonds and 6% debentures and any other underlying bonded debt as defined in the mortgage, shall never exceed twice the amount of the then outstanding full paid capital stock of the Company. Bonds are issuable under the mortgage to refund the 4½% bonds, the 6% debentures and any such other underlying debt. Subject to the above limitation in amount, bonds may also be issued for new property necessary or useful in connection with the business of the Company, including stocks, bonds and securities of other corporations; but if at any time the amount of outstanding bonds secured by this mortgage, when added to the prior bonded debt of the Company, shall exceed the then amount of the outstanding full paid capital stock of the Company, additional bonds may be issued for not exceeding 75% of the actual cost of such additional property, and at no time shall the amount of bonds issued in respect of shares of stock or unsecured obligations of other corporations exceed one-third of the amount of outstanding bonds issued under the mortgage. The mortgage further provides that so long as the Series "A" bonds are outstanding, no bonds will be issuable, except for refunding, unless the net earnings of the Company available for interest charges during 12 consecutive months out of 15 months next preceding the proposed issue, shall have been not less than 1¾ times the interest during such period on the Company's outstanding bonded debt, including all debentures, plus the amount of interest for 12 months on the bonds proposed to be issued. The bonds issuable under the mortgage may be of several series, and may vary as to interest rates, maturity dates, sinking fund and other provisions as may be determined by the Company from time to time.

Callability—Subject to call in whole, but not in part, on Oct. 1, 1931, or on any interest date thereafter, upon 60 days' notice, at 105 and accrued interest.

Sinking Fund—Payments to the Trustee at the rate of $250,000 quarterly began Jan. 1, 1922, to be applied to the purchase and cancellation of Series "A" bonds at not exceeding 102½ and accrued interest. Any unexpended balance of the fund to form part of the fund for the succeeding quarter.

Security—Secured on all the real estate and tele-

phone plant and appurtenances of the Company in the State of New York now owned or hereafter acquired, and also securities of a book value of $32,951,705 as well as all stocks, bonds and other securities of other corporations (except those operating telephone properties in the States of New Jersey and Connecticut) now owned or hereafter acquired by the Company, subject to indebtedness aggregating, at Dec. 31, 1927, $62,490,270 of which $61,817,470 constitute the Company's First and General Mortgage 4½% bond issue, due in 1939, which is being steadily reduced by sinking fund payments. The Refunding Mortgage secures ratably with the bonds issuable thereunder (including the Series "A" bonds), the outstanding 30-Year Sinking Fund 6% Debenture bonds due in 1949.

Tax Provisions—Company does not pay Normal Federal Income Tax.

Legal for Savings Banks in Connecticut, Maine New Hampshire, Ohio, New Jersey and Rhode Island

Original Offering—First publicly offered ($50,000,000) in Nov., 1921, at 97 and interest, to yield over 6.25%, by J. P. NORTHWESTERN BELL TELEPHONE COMPANY

(Controlled by American Telephone and Telegraph Company)

History and Properties—Incorporated Aug. 28, 1896, in Iowa, as the Iowa Telephone Co.; present title adopted Dec 10, 1920. The new company purchased, as of Dec. 31, 1920, all of the properties of the Nebraska Telephone Co. and the Northwestern Telephone Exchange Co., paying therefor with the proceeds of an issue for cash at par of its capital stock and by the assumption of all outstanding obligations of said companies (for statements of the predecessor companies, see 1920 Public Utility Manual, pages 1369, 1372 and 1386, or apply to our Information Department). As of Jan. 1, 1927, took over and began operations of the properties of the former Sioux City Telephone Co. (see 1926 Public Utility Manual, p. 1388).

Company operates a comprehensive net work of lines in the States of Iowa, Nebraska, Minnesota, North and South Dakota. As a part of the general Bell Telephone System, the Northwestern Bell Telephone Co. has the benefits afforded by connection with the system's companies operating throughout the United States and in Canada. The cities served include Davenport, Sioux City and Des Moines, Iowa, Omaha, Neb., and Minneapolis and Duluth, Minn.

License Contract—See American Telephone and Telegraph Company.

THE OHIO BELL TELEPHONE COMPANY

(Cleveland, Ohio)

(Controlled by American Telephone and Telegraph Company)

History and Properties—Incorporated Sept. 20, 1921, in Ohio. Formed by the consolidation of The Ohio Bell Telephone Company (incorporated Jan. 30, 1880, in Ohio as The Cleveland Telephone Company; name changed to The Ohio Bell Telephone Co. on Oct. 6, 1920) and The Ohio State Telephone Co. (incorporated July 23, 1914 in Ohio, and formed by consolidation of fifteen independent telephone companies in Ohio), the new corporation taking over all assets and assuming all liabilities of both of the merging companies. On Dec. 31, 1921, the Company purchased all of the property of The Chesapeake & Potomac Telephone Co. of West Virginia within the State of Ohio for a cash consideration of $3,284,262.52.

The territory of The Ohio Bell Telephone Company comprises all of the State of Ohio with the exception of Cincinnati and territory immediately adjacent thereto, which is served by The Cincinnati & Suburban Bell Telephone Co. As of Dec. 31, 1927, the Company owned and operated a total of 192 central offices in the State of Ohio, including the cities of Cleveland, Columbus, Toledo, Akron, Youngstown and Dayton, with a total of 605,021 telephones and an extensive system of toll lines extending throughout practically th entire State of Ohio and connecting with 435 loc companies, operating 775 central offices and 370,2 telephones, making a total of 975,300 telephones co nected with the System in the State of Ohio. At th close of the year the Company had 17,278 miles of po lines, 3,792 miles of underground duct and 2,291,5 miles of wire.

License Contract—At the end of 1927 the Compa purchased from the American Telephone and Tel graph Co. the telephone instruments used by it b heretofore owned and maintained by the Americ Company under the contract between the two co panies. At the same time the payment to the Ame can Company was reduced from 4% to 2% of the gro revenues. For the 2% payment the Company will co tinue to receive the use of all patents pertaining to t telephone business which are owned or controlled the American company, and all of the benefits of t research and development work carried on by t American Company in financial, accounting, legal, e gineering and operating matters.

$24,069,000 THE PACIFIC TELEPHONE AND TELEGRAPH CO REFUNDING MORTGAGE 30-YEAR 5% GOLD BONDS SERIES "A"; DUE MAY 1, 1952

Dated May 1, 1922.

Interest Payable May and November 1 at Banker Trust Co., New York, and the Bank of California, N. A., San Francisco.

Denominations—Coupon, $100, $500, $1,000; principal may be registered. Registered bonds in denominations of $1,000, $5,000 and $10,000. Coupon and registered. All interchangeable.

Trustee—Bank of California, N. A., San Francisco, Cal.

Provisions of Issue—The authorized amount is limited so that the amount thereof at any time outstanding, when added to the outstanding amount of the First Mortgage and Collateral Trust 5% bonds, and any other underlying funded debt as defined in the mortgage, may not exceed twice the amount of the then outstanding capital stock. Bonds are issuable under the mortgage to refund the First Mortgage and Collateral Trust 5% bonds and any such other under

lying debt, and bonds of one series will be issuable to refund bonds of another series issued under the mortgage. Subject to the above limitation in amount, bonds are also to be issuable for the acquisition of additional property (including stocks, bonds and securities of other corporations) and betterments, at not to exceed 75% of the actual cost of such additional property and betterments, the issue of bonds in respect of stock and other securities being limited so that not more than one-third of the security under the mortgage shall consist of stock and unsecured obligations of other corporations. The mortgage further provides that so long as the Series "A" bonds are outstanding, no bonds are issuable, except for refunding, unless the net earnings of the Company available for interest charges during any 12 consecutive months out of 15 months next preceding the proposed issue, shall have been not less than 1¾ times the interest during such period on the Company's outstanding funded debt as defined in the mortgage, plus the amount of interest for 12 months on the bonds proposed to be issued. The bonds issuable under the Mortgage may be of several series, and may vary as to interest rates, maturity dates, sinking fund and other provisions as may be determined by the Company from time to time.

Callability—Subject to call as a whole but not in part, upon 60 days' notice, on May 1, 1932, or on any interest date thereafter, at the following prices with interest: If on or prior to May 1, 1942, at 107½, if subsequent to May 1, 1942, and on or prior to May 1, 1949, at 105, and if subsequent to May 1, 1949, at 100.

Sinking Fund—The mortgage provides for sinking fund payments to a trustee at the rate of $125,000 semi-annually beginning Nov. 1, 1922, such payments to be used in purchasing Series "A" bonds, if obtainable at not exceeding 100 and accrued interest. Any portion of any semi-annual installment which cannot be so used is to be credited on the next ensuing installment in reduction of the amount then payable.

Security—Secured by mortgage (subject to lien of First and Collateral 5s of 1937) and as to part of property only, lien of the Home Long Distance Telephone Co. (San Francisco 1st 5s of 1932) on all securities, and all property in California, Oregon, Washington and Idaho.

Tax Provisions—Company does not pay Normal Federal Income Tax.

Legal for Savings Banks in Connecticut, Maine, New Hampshire, Ohio, New Jersey and Rhode Island.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY, INCORPORATEI

(Controlled by American Telephone and Telegraph Company)

History and Properties—Incorporated Dec. 11, 1879, in New York for 50 years, but extended March 1, 1920, for 999 years. During 1912 acquired from the American Telephone & Telegraph Co. over 98% of the capital stock of the Cumberland Telephone and Telegraph Co., Inc., the properties of the latter and of this company being now operated under one management. In the early part of 1926, Company sold to American Telephone and Telegraph Co. the $12,100,500 capital stock owned by it in Cumberland Telephone & Telegraph Co., Inc. and used the proceeds in payment of notes due the American Company. As of midnight June 30, 1926, the Southern Bell Telephone and Telegraph Co., having duly qualified to do business in the four Cumberland States, acquired the properties of the Cumberland Company, subject to all the debts and liabilities of the latter, paying for such properties with its own capital stock in the exact amount of the issued and outstanding stock of the Cumberland Company. Shortly thereafter the corporation of the Cumberland Telephone & Telegraph Co., Inc., was duly dissolved and its assets distributed. For latest published statement of the latter company, see 1926 Public Utility Manual, page 1371.

Previous to 1912, company operated in portions of West Virginia and Kentucky and, through ownership of entire stock issue of Southern Bell Telep. & Teleg. Co. of Va., throughout Virginia, but during 1912 the properties in this territory were sold to the Chesapeake & Potomac Telephone Co. Stocks of the Cumberland Telephone & Telegraph Co. were substituted under the mortgage for securities covering properties in Virginia which were released. Proceeds of sale of properties in West Virginia were paid over to the Trustees under the mortgage to be used for additiona construction.

During 1927 Peoples Telephone & Telegraph Co of Knoxville, Tenn., was purchased and its properties merged with those of Southern Bell Telephone an Telegraph Company, Inc. The First Mortgage 6½% bonds, due May 1, 1946, of the Peoples Telephone & Telegraph Co. were called for payment May 1, 192
